

Affixing Your State Parks Pass to Your Vehicle

Thank you for purchasing a Colorado State Parks Pass. All Annual Passes (including replacements and multiples), Aspen Leaf Annual Passes (including replacements and multiples), and Aspen Leaf Lifetime Free Passes must be PERMANENTLY affixed to your vehicle. Please use the provided clear plastic pouch to affix the passes as described below:

Instructions for affixing your pass to a car:

- Remove the center section of the pouch
- Place the pass in the center facing TOWARDS you (the back of the pass will be against the plastic)
- Push the pass firmly into place
- Remove the small border around the edge of the pouch
- Stick to the lower corner of the passenger-side inside windshield so that the expiration date is visible from the outside of the vehicle

Instructions for affixing your pass to a motorcycle:

- Remove the center section of the pouch
- Place the pass in the center facing AWAY from you (the front of the pass will be against the plastic)
- Push the pass firmly into place
- Remove the small border around the edge of the pouch
- Stick on the outside of the upper right fork so the expiration date is visible

Please read all of the rules on the back of your pass and receipt prior to using the pass. Removing the sticker and moving passes between vehicles voids the pass.

Thank you and enjoy your Colorado State Parks!
