# GENERAL INFORMATION

## IDENTIFYING MALE & FEMALE LIONS

Binoculars are recommended to determine the sex of treed or bayed lions. Sex also can be determined with the naked eye if you are close enough.

If a lion is in a tree and it's difficult to identify its sex, get it to move so you have a better view. Bang a branch on the tree trunk or throw a few snowballs or pine cones into branches near the lion.

**Remember, it is illegal to kill a female with kittens present.** The absence of kittens with a lion does not mean it is a male or an unbred adult female. Research has shown that young are close to their mothers about half the time.

**MALES** usually have three spots below the base of their tail. Just under their tail is the anal opening; about 1 inch below that is the scrotum, an oval-shaped patch of silver, light brown and white fur.

Beneath the scrotum is a small, conspicuous black spot (about 1 inch across) that surrounds the penis sheath opening.

**FEMALES** have only two spots below the base of their tail, including the anal opening hidden beneath the base of the tail and vaginal opening directly below the anus. The rest of the area behind the female's hindquarters is covered with white fur.

Although colored spots help in identification, first and foremost, look for the darkest spot. If it is high and near the tail or is difficult to see, the lion is probably female. If the dark patch is 4–5 inches beneath the tail, it is probably a male.

Because treed or bayed lions often urinate, look for the origin of the urine. If urine comes from behind the hind legs, about 4–5 inches below the anus, the lion is probably male. If the stream comes from under the base of the tail, there's a good chance the lion is female.

Tracks also can be good indicators of sex. Adult and large, sub-adult males usually have hind foot plantar (heel) pads more than 2 inches (51 mm) wide. Adult and sub-adult female lions usually have heel pads less than 2 inches wide. Hunters should carry a small ruler or wind-up metal tape to measure tracks.

## LION MANAGEMENT & RESEARCH

Colorado Parks and Wildlife develops management plans for mountain lion populations in Colorado. The harvest limits are determined annually to ensure that lion mortality objectives are not exceeded.

### CONSERVING COLORADO'S MOUNTAIN LIONS

Mountain lion populations are very sensitive to female deaths, specifically adult female mortality.

Females don't disperse far, and some don't disperse at all. If too many adult females are harvested, it can take longer for lions to reoccupy an area. Therefore, harvesting too many females can have far-reaching implications for Colorado's lion population.

Wildlife managers use the amount and proportion of female or adult female harvest when setting annual harvest limits. Hunter harvest and total human-caused mortality data are examined annually against thresholds described in lion man-

agement plans for each group of units. If the female, or adult female, harvest and total mortality levels are too high in an area with a management goal of maintaining a stable lion population, harvest limits may be lowered.

CPW officials ask hunters to refrain voluntarily from harvesting females in units managed to maintain stable populations. In units on the West Slope which are managed under the 2020 West Slope Lion Plan, if adult female harvest proportions are exceeded, CPW will highlight a request for voluntary female harvest reductions in the lion brochure and online Mountain Lion Harvest Limit Report.

The majority of lions harvested in Colorado are taken with the aid of hounds which allows hunters to reduce female harvest by examining tracks and treed lions to determine gender before pursuit or harvest.

## AFTER HARVEST

Once a mountain lion has been harvested, these steps will ensure proper reporting and inspection is completed.

- 1. REPORT** the lion harvest to a CPW office (listed on inside front cover) within 48 hours. If you reach voicemail, leave your CID number, license number, date and unit of harvest, and sex of the lion harvested.
- 2. AFTER** any field photos have been taken of the harvested lion, prop its jaw open with a stick in the mouth to help keep it open as rigor sets in. This will help CPW agents with tooth extraction later.
- 3. PRESENT** the lion head and hide to a CPW office in person within five days of harvesting for inspection and sealing. Heads and hides must be unfrozen. CPW may retain frozen heads and hides until they thaw to extract a tooth. At this time, hunters must also fill out a report about the hunt.

## ADDITIONAL OPPORTUNITIES

### FISHERS PEAK STATE PARK HUNTING OPPORTUNITIES

Up to 7 hunters will have the opportunity to hunt deer, elk or bear, and one hunter for mountain lion, on Fishers Peak, near Trinidad, in 2024. Access is by permit only, issued by drawing. Information about how to apply for these opportunities can be found at: [cpw.info/fishers-peak](http://cpw.info/fishers-peak)

# HUNTING LAWS

## MOUNTAIN LION REGULATIONS

- Hunters must check the Available Mountain Lion Harvest Limits Report online prior to each hunting trip. See "Daily Harvest Limits Report" at right.
- It is illegal to hunt (pursue or harvest) mountain lion in a game management unit after it has closed. See "Daily Harvest Limits Report" at right.
- Hunters who have licenses to hunt certain species can legally wear fluorescent pink clothing as an alternative to fluorescent orange garments. Lion hunters are not required to wear fluorescent orange or pink, but may wish to consider wearing it if concerned about visibility to other hunters.
- It is illegal to kill a kitten or lion accompanied by one or more kittens. A kitten is a lion with spots.
- Artificial light is illegal.
- Bait is illegal.
- Non-electronic calls (hand-held or mechanical calls) are permitted. **NEW Electronic calls are illegal statewide.**
- Dogs are permitted. No more than 8 dogs are allowed per pack. Pursuing lions with dogs for the purposes of training outside of an established season is prohibited.
- Hunters must be present when dogs are released and must be an active participant until the hunt ends.
- After a lion is pursued, treed, cornered or held at bay, you must harvest or release the lion. It is illegal to prevent a lion from escaping so that someone not in your hunting party can harvest it.
- All edible parts of lions must be properly prepared for human consumption, excluding internal organs. At a minimum, this means the four quarters, tenderloins and backstraps. Internal organs are not considered edible meat.
- Upon harvest, the carcass tag must immediately be detached from the license and attached to the lion carcass, per instructions on tag.
- Hunting with archery equipment, rifles, muzzleloaders, handguns or shotguns firing single slugs is prohibited within 50 feet on either side of the centerline of state highways and municipal or county roads.

For Colorado hunting regulations, see [cpw.info/regulations](http://cpw.info/regulations).

## MOUNTAIN LION PURSUIT DEFINITIONS

**Dogs:** Dogs or hounds that are used to track and bay or tree a mountain lion.

**Opportunistic encounter:** Using spot and stalk, stand-sitting or other encounter methods to harvest a mountain lion.

**Non-electronic call:** Mouth calls (hand-held or mechanical calls) may be used to attract lions during open seasons.

**Electronic call:** Predator calls that are electronically activated or powered. **NEW Electronic calls are illegal statewide.**

## DAILY HARVEST LIMITS REPORT

You must check **DAILY** to make sure the unit you want to hunt is open. Units close when harvest limits are reached. **It is illegal to hunt (pursue or harvest) mountain lion in a unit after it has closed.**

After 5 p.m. the day before the hunt, check the "Available Mountain Lion Harvest Limits Report" on CPW's website for open units: [cpw.info/mountain-lion](http://cpw.info/mountain-lion). If a unit is closed, you must pick a different unit to hunt.

Any current licenses become invalid if held by an individual who is noncompliant with child support.

### WEAPONS RESTRICTIONS

Colorado and federal laws prohibit people convicted of certain crimes, such as domestic violence, from possessing weapons even for hunting. If you've been convicted of a crime, check with the appropriate law enforcement authority to find out how the laws apply to you.

## EVIDENCE OF SEX

- IT IS ILLEGAL** to have or transport a mountain lion carcass without evidence of sex naturally attached. Evidence of sex means testicles or penis of male, or vulva of female.
- EVIDENCE OF SEX** is not required when donation certificate accompanies less than 20 pounds of meat or after carcass is commercially processed, cut into portions, wrapped and frozen for storage, or stored at licensee's home.

## LAND CLOSURES

### KENOSHA PASS & GUANELLA PASS RD. (UNITS 39, 46, 500 & 501)

Closed to hunting year-round along Kenosha Pass within 1/4 mile of Hwy. 285, between mile markers 203 and 206 in Park Co., excluding private lands. Also closed to hunting within 1/4 mile of Guanella Pass Rd. (Clear Creek CR 381 and Park CR 62) when the road is open to motor-vehicle traffic, from mile markers 12.5 to 19 (located at the intersection of Guanella Pass Rd. and the Clear Lake picnic area). This closure includes 1/4 mile around and including Deadman's Lake (E of Guanella Pass Rd., N of Mt. Bierstadt Trail (USFS trail 711)), excluding private lands. When Guanella Pass Rd. is closed to motor-vehicle traffic, the hunting closure is lifted.

## GET THE LEAD OUT

Go to [CDPHE.COLORADO.GOV/LEAD-HEALTH](http://CDPHE.COLORADO.GOV/LEAD-HEALTH) and click "For the public" to see the factsheets on **Lead in Harvested Wild Game** and **Lead in Indoor Shooting and Firing Ranges**.

From the field to the table, ensuring your next harvest is safe for your family and non-target wildlife is important. Health risks due to lead poisoning from consuming game meat are low for most people; however, switching to non-lead ammunition may be an option that's right for you. Science tells us that ingesting lead can cause potential human health problems over time.

Additionally, lead-based ammunition can cause adverse impacts on non-target wildlife from lead ingestion while scavenging. Hunters themselves are conservationists, maintaining species populations and protecting habitats. By switching to non-lead ammunition, hunters can support wildlife by reducing the risk of lead poisoning to non-target wildlife such as eagles and other raptors. For more information on risks to wildlife, visit [sportingleadfree.org/wildlife-human-health](http://sportingleadfree.org/wildlife-human-health) or [huntingwithnonlead.org](http://huntingwithnonlead.org).

### TO HELP REDUCE HUMAN AND WILDLIFE HEALTH IMPACTS, YOU CAN:

- Use lead-free shot or bullets.** There are many non-lead options now available.
- Hunters who use lead ammunition should choose quality hunting-grade ammunition with a "bonded" or "partition" construction.** Avoid frangible bullet types.
- Use careful shot selection.** Bullets that strike the lethal area (heart/lungs) are less likely to fragment than bullets that strike more heavily boned areas.
- Bury or pack out your lead-shot gut piles to avoid lead ingestion by non-target wildlife.**
- Avoid eating game meat from animals harvested with lead bullets if you are pregnant.** Children younger than 6 should also avoid it.

## INSPECTION & SEALS

Hunters must contact a CPW office (*listed on inside front cover*) within 48 hours of harvesting a lion and give their name, CID number, license number, date and unit of harvest, and sex of the lion. If you get voice-mail, leave a message with the information.

Within five days of harvest, hunters must **personally present** their lion head and hide to a CPW office or officer for inspection and seal. Hides cannot be frozen. Hunters can help by making sure the jaw is propped open with a stick before rigor sets in and by making sure the carcass is not frozen at time of inspection. Lions or parts cannot be taken out of Colorado unless inspected and sealed. Lion hides or heads without seals become state property.

A mandatory check report must be completed during inspection. Inspections and seals are free. Seals must stay attached until hide is tanned.

### INTERNATIONAL TRANSPORT:

To transport a mountain lion or parts to a foreign country, you must first obtain CITES documents. Contact the U.S. Fish and Wildlife Service, 303-342-7430, or download the form at [fws.gov/program/office-of-law-enforcement/information-importers-exporters](https://fws.gov/program/office-of-law-enforcement/information-importers-exporters).

## TOOTH INSPECTION

At inspection, CPW officials are authorized to extract and keep a pre-molar tooth.

If the head and hide are frozen, CPW may keep them long enough to thaw so that a tooth can be removed. The tooth will be analyzed to determine the lion's age.

Hunters can help by making sure the jaw is propped open with a stick before rigor sets in and by making sure the head and carcass are not frozen at time of inspection.

The animal's age will be posted on the CPW website 9–12 months after lion season ends. Ages are posted by seal number, so hunters should record the number to check the age of their animal.

## DONATING WILDLIFE

Donation certificates are required for all donations. Certificates must contain names, addresses and telephone numbers of donor and recipient; donor's hunting license number; species and amounts donated; date of kill; donor's signature. The certificate can be a simple note; no special form is required. Certificate must stay with the meat until the meat is completely consumed. Donor and recipient are subject to all bag and possession limits. **NOTE:** A "like license" is a license for exactly the same species, sex, season and method of take as a donor's license.

- You can donate to someone **WITH OR WITHOUT** a like license:
  - Any amount of processed and packaged game meat, anywhere.
- You can donate to someone **WITHOUT** a like license:
  - up to 20 pounds of unprocessed meat, anywhere.
  - more than 20 pounds of unprocessed meat, only at recipient's home.
- You can donate to someone **WITH** a like license:
  - up to 20 pounds of unprocessed meat, anywhere.
  - more than 20 pounds of unprocessed meat, anywhere, only if:
    - ▶ recipient's license is unfilled.
    - ▶ recipient's carcass tag is on the meat. This establishes recipient's claim to his/her portion of meat and voids his/her license. Donor's tag must remain with his/her portion.
  - the entire carcass, if:
    - ▶ recipient's license is unfilled, and:
    - ▶ both the donor's carcass tag and recipient's like-license carcass tag are on meat, voiding both.

## ILLEGAL HUNTING ACTIVITIES

### THE TOP 10 MOST COMMON HUNTING VIOLATIONS IN COLORADO:

- 1. TRESPASSING.** Going onto private lands without getting permission first while hunting, fishing or performing any related activity is illegal. Private lands do not need to be posted or fenced, so it can be difficult to see boundaries. **Violators may be suspended for up to 5 years for trespassing.** This includes State Land Board properties not leased and signed by CPW, unless permission is given by the lessee.  
You must have permission from the landowner to enter private land to retrieve a harvested animal. First, you should try to contact the landowner on your own. If that effort fails, call the local CPW office (*inside front cover*).
- 2. Failing to make a reasonable attempt to track and kill animals you shoot at, wound or may have wounded,** including immediately going to the location where wildlife was located when it was fired upon. Remember that it's against the law to pursue wounded wildlife that goes on private property without first obtaining permission from the landowner or person in charge. You must still attempt to gain permission to enter and locate the animal.
- 3. Failing to reasonably dress, care for, prepare and provide edible wildlife meat for human consumption.** At a minimum, the four quarters, tenderloins and backstraps are edible meat. Internal organs are not considered edible meat.
- 4. Hunting without a proper license.** Anyone who hunts wildlife must have in their possession the appropriate and valid Colorado resident or nonresident license that includes their Customer Identification (CID) number, and must only harvest wildlife of the species and type indicated on the license.
- 5. Mistakenly killing wildlife.** You must report big game animals unintentionally killed, not due to carelessness or negligence, to a CPW office (*inside front cover*) (or the local Sheriff's office after CPW regular hours) before continuing to hunt and as soon as practical. Before contacting CPW, field dress the animal. CPW evaluates the circumstances, including shots fired, species and number of animals present, firearms, ammunition, etc. Big game accidentally killed does not count toward annual bag limits.
- 6. Not showing evidence of sex.** Be sure to leave evidence of sex naturally attached to the carcass. Evidence includes the testicles or penis of a male, or vulva of a female. See "Evidence of Sex" on page 5 for more details.
- 7. Carrying loaded firearms while in or on any motor vehicle.** Firearms must be unloaded in the chamber. Muzzleloading rifles are considered unloaded if the percussion cap or shotshell primer is removed, or if the powder is removed from flashpan. It is illegal for anyone to have a loaded electronic-ignition muzzleloader in or on a motor vehicle; the chamber must be unloaded or the battery must be disconnected and removed from its compartment. **Most accidents involving firearms occur in or near vehicles.**
- 8. Carrying loaded firearms (except handguns) on an OHV during deer, elk, pronghorn and bear seasons.** Firearms (except handguns) must be unloaded in the chamber and magazine. Firearms (except handguns) and bows must be fully enclosed in a hard or soft case. Scabbards or cases with open ends or sides are prohibited. *This does not apply to landowners or their agents who carry a firearm on an OHV to take depredated wildlife on property they own or lease.*
- 9. Improperly voiding and/or attaching a carcass tag.** You must sign and detach the carcass tag from your hunting license immediately following taking your animal. It is illegal to sign or tear the carcass tag before harvest. The tag must also be attached to the animal properly.
- 10. Hunting with rifles, handguns or shotguns firing a single slug, or archery equipment within an area 50 feet on each side of the center line of any state highway or municipal or county road,** as designated by the county. Before firing a shot, you must be at least 50 feet off a designated state or county road, and just off U.S. Forest Service or BLM roads. **You also cannot shoot across a road.**

### FELONY OFFENSES:

If convicted of a felony violation, you can face a lifetime license suspension:

- ▶ To kill and abandon big game. It is illegal to remove only the hide, antlers or other trophy parts and leave the carcass in the field.
- ▶ To sell, buy or offer to sell or buy big game.
- ▶ To solicit someone to illegally kill big game for commercial gain or provide outfitting services without required registration.

### IT IS ALSO AGAINST THE LAW TO:

- ▶ Hunt carelessly or discharge a firearm or release an arrow disregarding human life or property.
- ▶ Hunt outside of legal hunting hours (one-half hour before sunrise to one-half hour after sunset).
- ▶ Interfere with hunters. This includes distracting or frightening prey; causing prey to flee by using light or noise; chasing prey on foot or by vehicle; throwing objects; making movements; harassing hunters by using threats or actions; erecting barriers to deny access to hunting areas; intentionally injecting yourself into the line of fire. Violators face prosecution and may have to pay victim's damages and court costs.
- ▶ Hunt under the influence of alcohol or controlled substances.
- ▶ Operate or ride a snowmobile with a firearm unless it's completely unloaded and cased, or with a bow unless it's unstrung or cased. Compound bows must be cased, not unstrung.
- ▶ Shoot from or use a motor vehicle, motorcycle, off-highway vehicle, snowmobile or aircraft to hunt, intercept, chase, harass or drive wildlife.
- ▶ Use aircraft to hunt, to direct hunters on the ground or to hunt the same day or day after a flight was made to find wildlife.
- ▶ For two or more people on the ground, in a vehicle or vessel to use electronic devices to communicate information that violates any wildlife law or regulation.
- ▶ Use computer-assisted remote technology (any device, equipment or software used to remotely control a weapon, including the Internet) to hunt or fish. Hunters and anglers must be physically present in the immediate vicinity while hunting/ fishing.
- ▶ Use unmanned or remote-control drones to look for, scout or detect wildlife.
- ▶ Use live-action game cameras to locate, surveil, or aid/assist in locating/surveilling game wildlife in order to take/try to take wildlife during the same or following day. "Live-action game camera" is any device capable of recording and transmitting photographic/video data *wirelessly* to a remote device (such as a computer or smart phone). This doesn't include game cameras that record photographic/video data and store such data for later use, *as long as the device cannot transmit data wirelessly.*
- ▶ Use poison, drugs or explosives to hunt or harass wildlife.
- ▶ Fail to extinguish a campfire completely.
- ▶ Party hunt (i.e. harvest someone else's game or let someone harvest yours).
- ▶ Hunt big game over bait, whether or not the person hunting personally placed the bait. Bait means to put, expose, distribute or scatter salt, minerals, grain, animal parts or other food as an attraction for big game. Salt or mineral blocks used for normal agricultural purposes are not considered bait. Scent sticks that smell like food are illegal for bears.
- ▶ Post, sign or indicate that public lands, not under an exclusive-control lease, are private.
- ▶ Establish a permanent structure or plant vegetation on CPW-owned land or waters. Only portable blinds and tree stands for big-game hunting can be erected on CPW land, and no more than 30 days prior to the season during which they will be used. No nails can be driven into trees. Man-made materials for blinds or stands must be removed within 10 days after the season they are used in ends. The owner's CID number and dates of use must be visible on outside of portable blinds or underside of tree stands. Placement of blinds or stands does not reserve them for personal use: They may be used on first-come, first-served basis.
