RE: Chapter W-1 Final Regulations for the November 2020 Parks and Wildlife Commission Meeting
DATE: November 6, 2020

Final regulatory changes for Chapter W-1 are summarized below. If there are questions about the agenda item below, or if additional information is needed, please feel free to contact me at 303-866-3203 x4609 or krista.heiner@state.co.us.

Agenda Item 16: Chapter W-1 - "Fishing" 2 CCR 406-1 (Step 2 of 2)

These regulations amend Chapter W-1 - Fishing - of the Parks and Wildlife Commission Regulations. These regulations are designed to manage statewide aquatic resources and provide a diversity of angling recreation opportunities for resident and nonresident anglers throughout Colorado. They are the result of extensive public involvement and application of biological information on aquatic species. All regulation changes are based on the best available biological information and are designed to manage aquatic resources towards stated objectives. In addition to annual changes and non-substantive clean-up, these regulations specifically address the following:

- **Updating the criteria for establishing an emergency closure of fishing waters (p. 6)**
Regulation #104(F)(1) was changed to reflect updated state and national water quality standards, including those of the Colorado Department of Public Health and the Environment (CDPHE) and the US Environmental Protection Agency (EPA), as well as to provide uniform and consistent messaging to the public and ensure consistency in implementation across varied thermal regimes and environmental conditions across systems statewide. More specifically, for criterion "a," the previous daily maximum water temperature threshold of 74 degrees Fahrenheit and the daily average temperature threshold of 72 degrees Fahrenheit did not align with presently established standards by CDPHE and EPA aimed at protecting aquatic life and were not protective of all systems as temperature effects on aquatic life may be evident at levels outside of those thresholds. Similarly, for criterion "b," the previous threshold of "25% or less of the historical average low flow for the time period in question" was not protective enough across most systems statewide and resulted in measurement challenges because the phrase "the time period in question" was not well defined. For criterion "c," the previous description did not include the word "stress," which is important when describing fish that may be exhibiting additional signs of deterioration related to environmental conditions. For criterion "d," the previous daily minimum dissolved oxygen level of five parts per million was not adequately protective and did not align with presently established standards by CDPHE and EPA aimed at protecting aquatic life.
- **Establishing a limited harvest for mountain whitefish statewide (p. 10)**
Mountain whitefish are currently found in Colorado in the Yampa River drainage, the White River drainage, and the Colorado River drainage, including the Eagle and Roaring Fork rivers. Population declines in the Colorado River and Roaring Fork Rivers have been documented. Although mountain whitefish abundance is still relatively high in the White River, this species is sensitive to environmental stressors and staff are concerned that increased angling pressure, elevated summer water temperatures, entrainment of fish through irrigation diversions, and

habitat modifications could reduce mountain whitefish reproduction and recruitment success. To reduce harvest of mountain whitefish, a statewide bag limit of four fish and a possession limit of eight fish was established. This bag and possession limit corresponds to the bag and possession limit placed on mountain whitefish in the Yampa River drainage in 2009, which has proven to be an effective tool. Staff hope this statewide restriction will help to increase the persistence of mountain whitefish and convey the importance of this unique sportfish across the state.

- **Changing fishing regulation on selected streams to protect Colorado River cutthroat trout and Rio Grand cutthroat trout (throughout)**

Staff identified several streams in the Southwest Region that are inhabited by Colorado River cutthroat trout and Rio Grande cutthroat trout populations, but were not protected by special fishing regulations. As a result, regulations that allow fishing by artificial flies and lures only and specify that all cutthroat trout must be returned to the water immediately upon catch were adopted on the following waters:

- Anthracite Creek, North Fork (Gunnison County);
- Basin Creek (Gunnison County);
- Beaver Dams Creek (Ouray County);
- Chair Creek (Gunnison County);
- Clear Fork of Muddy Creek (Gunnison County);
- Cliff Creek (Gunnison County);
- Cunningham Creek (Delta County);
- Deep Creek (Gunnison County);
- Disappointment Creek (Dolores County);
- Disappointment Creek, South Fork (Dolores County);
- Escalante Creek, North Fork (Mesa County);
- Kaufman Creek (Gunnison County);
- Main Hubbard Creek (Delta County);
- Middle Hubbard Creek (Delta County);
- South Fork Minnesota Creek (Gunnison County);
- Points Creek (Mesa County);
- Priest Gulch (Montezuma County);
- Pryor Creek (Ouray County);
- Roaring Fork (Mineral County);
- Robinson Creek (Gunnison County);
- Rock Creek (Gunnison County);
- Second Creek (Gunnison County);
- Schaeffer Creek (Gunnison County);
- Slate Creek (Dolores County);
- Terror Creek, West Fork (Delta County);
- Twin Creek, North (Gunnison County);
- Twin Creek, South (Gunnison County);
- Wildcat Creek (Montezuma County); and
- South Fork Wolf Creek (Mineral County).

- **Restricting bass fishing and reducing the bag limits and minimum size limit for crappie and redear sunfish at Berthoud Reservoir (Larimer County) (p. 15)**

From 2017-2019, redear sunfish, black crappie, largemouth bass, and rainbow trout were stocked in Berthoud Reservoir, resulting in an exceptional fishery. To allow crappie and redear to naturally reproduce at least one season prior to being potentially harvested, a 10-inch minimum harvest restriction was installed for both crappie and redear sunfish. Additionally, the bag limit was reduced to 10 crappie and redear sunfish taken together, as the potential

harvest of both 20 crappie in addition to 20 redear sunfish (40 fish total) under general statewide regulations has the potential to severely limit long-term angling success. Finally, to ensure growth rates of panfish remains optimal, a catch and release regulation was installed for largemouth and smallmouth bass to create a quality bass fishing experience and maximize predation on small crappie and redear sunfish.

- **Implementing a minimum size limit for black and white crappie at Boedecker Reservoir (Larimer County) (p. 17)**
Boedecker Reservoir has had exceptional natural recruitment of crappie. To maintain the quality angling and bolster natural reproduction, a 10-inch minimum size limit for black and white crappie was implemented. This will help to ensure the crappie can naturally reproduce at least one season prior to being potentially harvested.
- **Changing fishing closure dates on the Colorado River below Shadow Mountain Reservoir (p. 22)**
The purpose of the regulation is to close the area to public fishing during CPW's annual kokanee salmon spawn collection operations. However, given the current timing and scope of the spawn operation, the date range was excessively wide and did not accurately reflect the period during which spawn collection occurs, and unnecessarily restricted public opportunity. As a result, the date range of the closure was shortened to October 15 through November 30.
- **Implementing special fishing regulations for walleye at Horseshoe Reservoir (Larimer County) (p. 35)**
Horseshoe Reservoir is just west of Boyd Lake. Given the limited public angling access, CPW generally limits stocked fish to walleye fry resulting in a marginal walleye fishery and general statewide regulations have historically applied. However, the lack of a special fishing regulation at Horseshoe Reservoir has resulted in confusion among anglers and a difficult situation for law enforcement personnel due to its proximity to Boyd Lake where there are restrictive walleye fishing regulations. Special fishing regulations have been implemented at Horseshoe Reservoir that mimic the existing Boyd Lake walleye regulations to help ease these law enforcement issues.
- **Eliminating the special regulation for largemouth and smallmouth bass at Lagerman Reservoir (Boulder County) (p. 39)**
Lagerman Reservoir no longer supports quality production and growth for largemouth and smallmouth bass and CPW does not stock these species in this water. As a result, the restrictions on the minimum size for largemouth and smallmouth bass harvest have been removed.
- **Implementing special fishing regulations for walleye at Lake Loveland (Larimer County) (p. 40)**
Lake Loveland is also in close proximity to Boyd Lake and Horseshoe Reservoir. The south and west shores offer public shore fishing. North Lake Park also offers additional public fishing opportunities. All publicly accessible areas are managed by the City of Loveland's Parks and Recreation Department while Colorado Parks and Wildlife (CPW) manages the fishery in this reservoir. Walleye are the dominant sport fish in this reservoir and become quite accessible to shore anglers as these fish attempt to spawn along rip-rap dams. To provide a better angling experience, for the control of white sucker and common carp, and for consistency among nearby reservoirs, special fishing regulations have been implemented that mimic the existing Boyd Lake walleye regulations.

- **Revising the bag and possession limit and minimum size requirements for tiger trout at Meadow Creek Reservoir (Grand County) (p. 42)**
 CPW has stocked tiger trout (a sterile hybrid) on three occasions (2014, '16, and '18) in Meadow Creek Reservoir in Grand County in an effort to establish a predator that will thin the stunted brook trout population in the lake. However, few tiger trout have grown to 14 inches in length and only minimal predation of brook trout has been observed. Staff believe that production of larger, predatory fish may currently be limited by angler harvest. For that reason, harvest restrictions have been placed on tiger trout to allow them to grow to predatory size.
- **Reducing the bag and possession limit for trout at Meadow Creek Reservoir (Jackson County) (p. 42)**
 CPW began stocking the Meadow Creek Reservoir in Jackson County annually in 2010 with sub-catchable rainbow trout at a very low rate, primarily to keep trout densities low enough to maintain a trophy fishery. Sampling results from 2019 showed high numbers of suckers, but the overall number of trout decreased drastically and no trout over twenty inches were sampled, suggesting a loss or substantial decrease of the trophy component to the fishery. Angler pressure has increased over the last decade and associated harvest increase has likely led to decreased overall trout abundance and trophy trout present in the reservoir. As a result, the bag limit has been reduced to two trout and the possession limit has been reduced to two trout.
- **Prohibiting angling at Webster Pond (Boulder County) (p. 47)**
 Prior to the September 2013 flood, Webster Pond provided angling for bass and sunfish. Flooding resulted in substantial sediment deposition in the pond and a breach in the pond's shoreline lowered the historic water level by approximately 10 feet. As a result, species management changed from warm water sportfish to native minnow species. The pond will be reclaimed during 2020 and restocked with the state endangered northern redbelly dace. To protect this pond as a native species refugia, angling has been prohibited in Webster Pond.
- **Adding East Fork Roaring Creek (Larimer County) to the current Roaring Creek regulation for cutthroat trout (p. 53)**
 Roaring creek has a naturally reproducing population of greenback cutthroat trout, which is protected under the Endangered Species Act as a federally threatened species. This designation allows catch and release only fishing of this species. To clarify that East Fork Roaring Creek is included under this regulation, the wording has been changed to say "Roaring Creek and tributaries."

FINAL REGULATIONS - CHAPTER W-1 FISHING

ARTICLE I - GENERAL PROVISIONS

#100 – DEFINITIONS

See also 33-1-102, C.R.S and Chapter 0 of these regulations for other applicable definitions.

- A. **"Artificial flies and lures"** means devices made entirely of, or a combination of, natural or synthetic non-edible, non-scented (regardless if the scent is added in the manufacturing process or applied afterward), materials such as wood, plastic, silicone, rubber, epoxy, glass, hair, metal, feathers, or fiber, designed to attract fish. This definition does not include anything defined as bait in #100.B below.
- B. **"Bait"** means any hand-moldable material designed to attract fish by the sense of taste or smell; those devices to which scents or smell attractants have been added or externally applied (regardless if the scent is added in the manufacturing process or applied afterward); scented manufactured fish eggs and traditional organic baits, including but not limited to worms, grubs, crickets, leeches, dough baits or stink baits, insects, crayfish, human food, fish, fish parts or fish eggs.
- C. **"Chumming"** means placing fish, parts of fish, or other material upon which fish might feed in the waters of this state for the purpose of attracting fish to a particular area in order that they might be taken, but such term shall not include fishing with baited hooks or live traps.
- D. **"Game fish"** means all species of fish except unregulated species, prohibited nongame, endangered and threatened species, which currently exist or may be introduced into the state and which are classified as game fish by the Commission. This includes, but is not limited to brown, brook, cutthroat, golden, lake (mackinaw), and rainbow trout; cutbow (rainbow trout x cutthroat trout hybrids), splake (lake trout x brook trout hybrids), and tiger trout (brown trout x brook trout hybrids); arctic char; grayling; kokanee salmon; whitefish; sculpin; smallmouth, largemouth, spotted, striped, and white bass; wipers (striped bass x white bass hybrids); carp; bullhead, blue, channel, and flathead catfish; black and white crappie; drum; northern pike; tiger muskie; sacramento and yellow perch; sauger; saugeye (walleye x sauger hybrids); speckled dace; rainbow smelt; tench; walleye; bluegill; bluegill hybrids (bluegill x green sunfish); green, redear and pumpkin-seed sunfish; gizzard shad; longnose and white suckers; and minnows.
- E. **"Float tube"** means a floating device which suspends a single occupant in the water from the seat down and is not propelled by oars, paddles or motors.
- F. **"Gig"** means a barbed fork with one or more tines which is attached to a handle.
- G. **"Jugs"** means floats to which are attached a line and common hook.
- H. **"Minnow"** means all members of the families of fish classified Cyprinidae (which includes but is not limited to Carp, Chub, Dace, Fathead Minnow, Shiner, Stoneroller, and Tench) Cyprinodontidae (including but not limited to Killifish) and Clupeidae (Gizzard Shad), except those designated as nongame, threatened, or endangered in Chapter 10 of these regulations, or those designated as Unregulated Wildlife in Chapter 11 of these regulations.

- I. **"Natural stream"** means an existing stream course where water naturally flows regularly or intermittently for at least part of the year. Ditches or other water conveyance channels which are man-made are not considered natural streams.
- J. **"Net"** means seine, dip net, gill net, cast net, trap net, hoop net or similar devices used to take or as an aid in taking fish, amphibians or crustaceans.
- K. **"Personally attended line"** means a rod and line, hand line, or tip up that is used for fishing and which is under the personal control of a person who is in proximity to it.
- L. **"Common hook"** means any hook or multiple hooks having a common shank. All hooks attached to a manufactured artificial lure shall be considered a common hook.
- M. **"Size" or "Length"** means the total length of a fish with head and tail attached measured from the tip of the snout to the tip of the tail.
- N. **"Seining"** means the capture of live fish with the use of a net that hangs vertically in the water and is used to enclose fish when its ends are pulled together, or are drawn ashore.
- O. **"Snagging"** means the taking of fish by snatching with hooks, gang hooks, artificial flies or lures, or similar devices where the fish is hooked in a part of the body other than the mouth.
- P. **"Trotline"** means a single, anchored line with a float at each end from which droplines are attached.

#101 - SEASON DATES AND HOURS

- A. Except as otherwise provided in these regulations, all waters of the state shall be open to fishing using all manners of take day and night, year around.

#102 - LICENSE AND STAMP REQUIREMENTS

See also 33-6-107 C.R.S. for general fishing license requirements

- A. **A valid commercial fishing license is required to take or possess bait fish, amphibians, or crustaceans for commercial purposes.**
 - 1. Commercial fishing licenses shall be available from the Division at a cost of forty dollars (\$40.00). Applications for licenses are available from the Division. Licenses issued by the Division can be restricted to specific waters, specific bag limits and times designated by the Division on the basis of the following criteria:
 - a. Negative impacts on sport fishing opportunity.
 - b. Effects of commercial harvest on populations of target species.
 - c. Detrimental effects of transplanting a species outside its current range.
 - d. Presence of threatened or endangered species and species of special concern.
 - 2. All commercial fishing license holders shall submit an annual report as specified on the commercial fishing license application to the Division within thirty (30) days of the expiration date of the license.
 - 3. All commercial fishing license holders shall be required to provide each purchaser of live fish with a written receipt stating the seller's name, the date of sale, the species, and the number sold.

4. The taking of mollusks listed in Chapter 10 is prohibited.
- B. Free fishing dates** - The following dates are open to fishing without a license or Habitat Stamp in all waters of the state: The first full weekend of the month of June.
- C. Second rod stamp** – Any person may use one additional (second) personally attended line statewide when a second rod stamp is purchased, as identified on the user's fishing license.
1. Any person under 16 years of age who is not required to have a fishing license must have a second rod stamp with their signature in possession in order to use a second personally attended line.
 2. Second rod stamps are not transferable to any other person, nor do they confer fishing privileges to any person other than the license-holder.
 3. A second rod stamp is not required when fishing with a trotline or jugs only.

#103 - MANNER OF TAKE

- A. The following are legal methods of take for species listed in this chapter. Any method of take not listed herein shall be prohibited, except as otherwise provided by statute or these regulations:
1. One personally attended line, except as otherwise authorized in these regulations.
 - a. Each line shall have no more than 3 common hooks attached.
 2. Trotlines
 - a. Trotlines may only be used on waters specified in regulation #108.
 - b. No one may use more than one trotline.
 - c. Trotlines shall be anchored, marked at each end by floats, be no more than 150 feet in length, have no more than 25 droplines, and shall be weighted to place the line a minimum of 3 feet beneath the surface of the water.
 - d. There shall be no more than 3 barbed hooks on a common hook on each dropline.
 - e. Trotlines shall be tagged with the user's customer identification number and date set. If the user does not have a customer identification number, trotlines must be tagged with the user's name.
 - f. All trotlines shall be personally checked at least once in each 24-hour period.
 3. Jugs
 - a. Jugs shall only be used only on waters specified in regulation #108.
 - b. No one may use more than 10 jugs, each of which shall not have more than a single line with one common hook attached.
 - c. Jugs shall be tagged with the user's customer identification number. If the user does not have a customer identification number, jugs must be tagged with the user's name.
 - d. Jugs shall be personally checked at least once every hour.
 4. Underwater spearfishing, archery, slingbows and gigs

- a. Underwater spearfishing, archery, slingbows and gigs may be used statewide for the taking of carp and northern pike, except as otherwise prohibited by these regulations or land management agencies. East of the Continental Divide, gizzard shad, and white or long-nose suckers may also be taken, unless otherwise prohibited in regulation #108. Other game fish species may only be taken when authorized in regulation #108 for a specific water.
 - b. The following additional restrictions apply to underwater spearfishing:
 - 1. CO₂ guns or cartridge-powered spears are prohibited.
 - 2. Guns must be loaded and unloaded while the gun is submerged.
 - 3. Divers must stay within a radius of 100 feet of a float bearing the National Divers' Symbol.
 - 4. Spears must be attached by a safety line.
 - c. Archery and slingbows may be used for the taking of kokanee salmon during times and in locations otherwise open to snagging of salmon, as established in #108 of these regulations.
 - d. Archery, slingbows and gigs may be used for the taking of bullfrogs.
 - e. The following additional restrictions apply to fishing with archery hand-held bows and slingbows:
 - 1. All archery hand-held bows and slingbows must have a reel, fishing line and arrow attached to the bow.
 - 2. All archery hand-held bows must have an arrow safety slide mechanism, which maintains the fishing line in front of the arrow rest at all times.
5. Snagging
- a. Snagging shall be used for the taking of kokanee salmon only, and only where specifically authorized in regulation #108.
 - b. Snagged fish species other than kokanee salmon must be returned to the water immediately upon catch.
6. Seines and cast-nets
- a. Seines shall be used only for fish taken in accordance with regulation #104(H), the gilled form aquatic tiger salamander larvae, and crayfish; or when authorized for emergency salvage.
 - b. Seines shall be made of one-fourth (1/4) inch or less non-metallic square mesh.
 - c. Seines shall not exceed 20 feet in length by 4 feet in depth
7. By hand or with the aid of dip nets
- a. Bullfrogs, crayfish, and the gilled form aquatic tiger salamander larvae may be taken by hand or with the aid of dip nets.
 - b. Fish may be taken by hand or with the aid of dip nets or any other method approved by the Director, when emergency public salvage of fish has been approved in accordance with regulation #104(G).
 - c. Hand held dip nets may be used for fish taken in accordance with regulation #104(H).
8. Livetraps
- a. Cage or box traps, including set pots, shall be used only for the taking of crayfish, snapping turtles, and fish taken in accordance with regulation #104(H). All cage or box traps, including set pots, shall be tagged with the user's customer identification number. If the user does not have a customer identification number, traps must be tagged with the user's name.
9. Artificial light
- a. Artificial light may be used as an aid in taking.

10. Bait
 - a. Bait may be used as an aid in taking, except by chumming, in accordance with regulation #104(H).

#104 - SPECIAL CONDITIONS AND RESTRICTIONS

- A. Any fish released upon catch must be released alive and into the same body of water from which it was taken. Transfer or transport of live fish is prohibited, except as otherwise permitted in the provisions of Article VII, #010 and Article I #104(H).
- B. When fishing through the ice, the following additional restrictions apply:
 1. Ice fishing holes shall not exceed 10 inches in diameter, or 10 inches on any side.
 2. All fires on the ice must be enclosed in a container.
 3. No litter may be left on the ice.
 4. On waters where only portable shelters are permitted, all ice fishing shelters must be removed from the ice at the end of the day.
 5. On waters where permanent ice fishing shelters are permitted; the name and customer identification number of the owner or user must be displayed on the outside, shore side, of the shelter, in legible, contrasting color letters at least 2 inches high.
- C. Only those persons designated by the United States Fish and Wildlife Service may take fish, amphibians, mollusks or crustaceans within the boundaries of any Federal fish hatchery or rearing unit.
- D. Molesting, disturbing, or damaging gill nets, traps, seines or trot-lines set by the Division is prohibited.
- E. Fishing may be prohibited as posted pending the adoption of water-specific regulations when necessary to:
 1. Protect threatened or endangered species.
 2. Protect spawning areas.
 3. Protect waters being used in Division research projects.
 4. Protect newly acquired access to fishing waters.
 5. Protect the integrity of sport fish, native fish or other aquatic wildlife populations.
- F. —Emergency Closure of Fishing Waters
 1. The Director may authorize emergency closure of fishing waters in the state for a period of up to 9 months when it is determined that environmental conditions in these waters are such that fishing could result in unacceptable levels of fish mortality. Such closures **may** be enacted when any one of the following criteria are met:
 - a. Daily maximum water temperatures exceeds 71.74 ° F ~~or the daily average temperature exceeds 72° F~~;
 - b. Measured stream flows are ~~50% or less of the daily average flow~~ 25% or less of the historical average low flow for the time period in question;
 - c. Fish condition is deteriorating such that fungus and other visible signs of deterioration and/or stress may be present;
 - d. Daily minimum dissolved oxygen levels are below six (6) ~~five (5)~~ parts per million (ppm).

- e. When a natural or man-caused environmental event such as wildfire, mudslides, oil spills or other similar event has occurred, resulting in the need for recovery time or remedial action for a fish population

When such determination has been made, public notice will be given, including posting at the site.

G. Emergency Public Salvage of fish

1. The Director may authorize emergency public salvage when substantial numbers of fish in waters of the state are found to be in imminent danger of being lost. Such loss is deemed to be imminent when the volume and depth of water, water temperature and/or oxygen content are such that fish cannot survive. Measurements shall be made of these criteria as a basis for making a judgment on the total loss of fish and when such loss will occur, and will include:
 - a. Water storage levels in lakes, reservoirs, or ponds of less than twenty-five (25) percent of total capacity or,
 - b. River or stream flow essentially eliminated with only pools left standing or,
 - c. Visual evidence of substantial numbers of sick or dying fish, or
 - d. Reclamation projects.
2. When such determination has been made; public notice will be given, including posting at the site, that fish may be taken by hand or by dip net, or any other method authorized by the Director. When practical the Director shall exercise this authority within fourteen (14) days of receipt of the information or at such earlier time as the emergency necessitates.
3. Numbers of fish to be salvaged and possessed by an individual shall be determined by Division personnel at the site.
4. Emergency salvage shall be permitted only during daylight hours.

H. Take, Possession and Use of Fish, Amphibians, and Crustaceans for bait, personal or commercial use

1. The seining, netting, trapping, and dipping of fish is prohibited statewide in all natural streams, springs, all waters in Adams, Arapahoe, Boulder, Broomfield, Clear Creek, Denver, Douglas, Gilpin, Elbert, Jefferson, and Park counties, and all public standing waters in Rio Grande, Saguache, Conejos, Costilla, Alamosa, Mineral and Hinsdale counties in the Rio Grande drainage.
 - a. Fish handled or produced on commercially licensed aquaculture facilities are exempt from this regulation.
2. The only fish species allowed to be taken and used for personal use as bait (either alive or dead) by fishing, seining, netting, trapping, or dipping are minnows, bluegill, hybrid bluegill, carp, sunfish, gizzard shad, sculpin, white and longnose suckers, yellow perch and rainbow smelt. Statewide bag limits apply to sunfish, bluegill, hybrid bluegills and yellow perch.
 - a. Restrictions on Live Fish Used as Bait.
 1. The collection, use, or possession of live fish for use as bait is prohibited in the following waters:
 - aa. All waters east of the Continental Divide above 7,000 feet elevation

- bb. The Arkansas River above Parkdale – Fremont and Chaffee counties
- cc. Watson Lake - Larimer County
- dd. All waters west of the Continental Divide, except in Navajo Reservoir.

2. Except as otherwise provided by these regulations, live fish collected for use as bait may only be used in the same body of water from which they were collected. In addition, collection and use is allowed in any man-made ditches and canals within one-half mile of the adjoining lake or reservoir. Use of any baitfish collected in those ditches and canals is restricted to only the water from which it was collected and the adjoining lake or reservoir. Baitfish collected under this provision may not be otherwise transported or stored for later use.
3. In Baca, Bent, Crowley, Kiowa, Otero and Prowers Counties, live fish collected for personal use as bait may be transported, stored or used anywhere within the listed counties. Transportation to or use of any such baitfish in any other county is prohibited,
4. All live baitfish acquired from a commercial source and transported by anglers must at all times be accompanied by a receipt from the source.
3. The only fish species allowed to be taken for commercial use are minnows, gizzard shad, white and longnose suckers and carp.
4. Bullfrogs and Salamanders. The taking, possession and use of bullfrogs and the aquatic gilled form of the tiger salamander for private and commercial use is permitted. Statewide bag limits apply.
5. Crustaceans.
 - a. The taking, possession and use of any crustacean under the authority of a commercial fishing license is subject to the following restrictions:
 1. The minimum size for crayfish taken for commercial food purposes shall be three (3) inches. (Measured from the tip of the acumen (bony spike between the eye) to the telson (last bony plate in the tail)).
 2. All crayfish taken with eggs attached must be returned to the water immediately.
 3. All set pots and traps shall be labeled with the user's customer identification number. If the user does not have a customer identification number, all set pots and traps must be labeled with the user's name.
 - b. In all waters west of the Continental Divide - All crayfish must be returned to the water of origin immediately or killed and taken into possession immediately upon catch with kill being effected by separating the abdomen from the cephalothorax (tail from body).
6. Mollusks. The taking of mollusks is prohibited.

#105 – VACANT

#106 - FISHING CONTESTS AND RELEASE OF TAGGED FISH

A. Fishing Contests using tagged or marked released fish

1. No person shall advertise, promote, conduct or offer to conduct any fishing contest where the object of such contest is to take marked or tagged fish released in any waters open to public fishing, except licensed commercial and private lakes, or release marked or tagged fish for this purpose, unless such contest is first approved by the Director.
 - a. Application shall be made on a form provided by the Division at least sixty (60) days prior to the proposed contest date. Such application shall be accompanied by a nonrefundable fee of forty dollars (\$40.00).
 - b. Approval shall be granted to any person meeting the requirements of this regulation unless the Director determines the proposed contest would be significantly detrimental to the wildlife resource. In such cases, approval may be granted if conditions can be placed on the conduct of the contest which will avoid such detrimental effects. When an application for a contest is denied the applicant shall be promptly notified with a written notice stating the reason(s) for such denial.
2. Contests involving tagged or marked trout will be permitted only on lakes and reservoirs greater than 200 surface acres and managed primarily as a catchable fishery by Colorado Parks and Wildlife. "Catchable fishery" means any lake or reservoir which is annually stocked with hatchery reared trout averaging eight (8) to ten (10) inches in length.
3. No tagged or marked fish contest shall be permitted on any stream, river or other flowing water or any water designated as a Gold Medal or Wild Trout water.
4. Written approval shall be obtained from the person(s) or agency(s) who owns or controls the land and water area involved prior to making application to the Division
5. All statutes and regulations including license provisions, manner of taking, size restrictions and daily bag and possession limits for fish shall remain in effect during any contest.
6. Any public fishing area shall remain open to public fishing without charge, regardless of any special contest fee or changes, during a fishing contest.
7. All fish obtained for use in any contest shall be certified disease free in accordance with #009, prior to release.
8. Contest sponsor(s) shall provide a written report to the appropriate Parks and Wildlife office within twenty (20) days of the close of such contest. Said report shall include an estimate of the number of participants, the average time spent by participants in fishing and the estimated total fish catch by species.

#107 - STATEWIDE DAILY BAG AND POSSESSION LIMITS AND SPECIAL SEASONS

A. Daily Bag, Possession Limits and size limits:		
1. Daily bag and possession limits – except as otherwise provided in these regulations for certain waters, the daily bag and possession limits will be as follows:		
Species	Daily Bag and Possession Limit (except as otherwise noted)	Special Conditions
a. Trout (Brook, Brown, Cutbow, Cutthroat, Golden, Lake, Rainbow, Splake, and Tiger); Arctic Char; Salmon (except kokanee); and Grayling; and Mountain Whitefish:	Daily Bag: 4 fish in the aggregate Possession Limit: 8 fish in the aggregate	Brook Trout - additional daily bag and possession limit: 10 fish, 8 inches or less in length

431.462. Watson Lake - Larimer County

- a. The minimum size for smallmouth bass is 12 inches in length.

432.463. West Creek - Mesa County

- a. From the Colo 141 Bridge downstream 5 miles to the confluence of Ute Creek:
 - 1. The bag and possession limit for trout is two fish.

433.464. West Cross Creek - Eagle County

- a. Fishing is by artificial flies and lures only.
- b. All cutthroat trout must be returned to the water immediately upon catch.

434.465. White River - Rio Blanco County

- a. From the confluence of the North and South Forks of the White River downstream to the Colo 13 Bridge below Meeker (excluding the Sleepy Cat easement, Wakara lease, and the Meeker Pasture State Wildlife Area):
 - 1. The bag and possession limit for trout is two fish.
- b. On the Sleepy Cat easement, Wakara Lease, and the Meeker Pasture State Wildlife Area east of Meeker:
 - 1. Fishing is by artificial flies and lures only.
 - 2. All trout must be returned to the water immediately upon catch.
- c. From the confluence of the North and South Forks of the White River downstream to Kenney Reservoir:
 - 1. There is no bag or possession limit for channel catfish, largemouth bass, smallmouth bass, northern pike, walleye, green sunfish, bluegill, bullhead, yellow perch or crappie.
- d. From Taylor Draw Dam downstream 400 yards:
 - 1. Fishing is prohibited, as posted, to protect native fish spawning.
- e. From Taylor Draw Dam downstream to the state line:
 - 1. There is no bag or possession limit for channel catfish, largemouth bass, smallmouth bass, northern pike, walleye, green sunfish, bluegill, bullhead, yellow perch or crappie.

435.466. White River, North Fork - Rio Blanco County

- a. From the headwaters downstream to confluence with the South Fork of the White River:
 - 1. The bag and possession limit for trout is two fish.

436.467. White River, South Fork - Rio Blanco County

- a. From the headwaters downstream to confluence with the North Fork of the White River:
 - 1. The bag and possession limit for trout is two fish.

468. Wildcat Creek – Dolores and Montezuma Counties

- a. Fishing is by artificial flies and lures only.
- b. All cutthroat trout must be returned to the water immediately upon catch.

437.469. Williams Fork Reservoir - Grand County

- a. Snagging of kokanee salmon is permitted from September 1 through December 31.

- b. All northern pike between 26 and 34 inches in length must be returned to the water immediately upon catch.
- c. From the buoy line at the Williams Fork River inlet upstream to the first Grand Co Rd bridge:
 - 1. Fishing and snagging are prohibited from September 15 through November 30.
- d. Use of spearfishing, archery, slingshots and gigs for the take of northern pike is prohibited.
- e. The bag and possession limit for lake trout is eight fish, only one of which may be greater than 30 inches in length.

438.470. Williams Fork River - Grand County

- a. From Williams Fork Dam downstream to the confluence with the Colorado River:
 - 1. Fishing is by artificial flies and lures only.
 - 2. All trout must be returned to the water immediately upon catch.

439.471. Williams Gulch - Larimer County

- a. From the headwaters downstream to the confluence with the Poudre River:
 - 1. Fishing is prohibited.

440.472. Willow Creek (Little Snake drainage) - Moffat County

- a. Fishing is by artificial flies and lures only.
- b. All cutthroat trout must be returned to the water immediately upon catch.

441.473. Willow Creek Reservoir - Grand County

- a. Ice fishing shelters must be portable.

442.474. Windsor Reservoir - Weld County

- a. The minimum size for largemouth and smallmouth bass is 15 inches in length.

443.475. Wolf Creek - Conejos County

- a. Fishing is by artificial flies and lures only.
- b. All cutthroat trout must be returned to the water immediately upon catch.

476. Wolf Creek, South Fork - Mineral County

- a. Fishing is by artificial flies and lures only.
- b. All cutthroat trout must be returned to the water immediately upon catch.

444.477. Wolford Mountain Reservoir - Grand County

- a. Public access, including fishing, is prohibited within 150 feet of any kokanee spawning trap or wing net from October 1- December 1.

445.478. Woods Lake State Wildlife Area - San Miguel County

- a. Fishing is by artificial flies and lures only.

- b. All cutthroat trout must be returned to the water immediately upon catch.

446.479. Wrights Lake - Chaffee County

- a. Fishing is by artificial flies and lures only.

447.480. Yampa River - Routt County

- a. From the headwaters to the confluence with Trout Creek (including tributaries):
 - 1. The bag limit for whitefish is four fish.
 - 2. The possession limit for whitefish is eight fish.
- b. From Stagecoach Dam downstream for 0.6 mile:
 - 1. Fishing is by artificial flies and lures only.
 - 2. All trout must be returned to the water immediately upon catch.
- c. From Stagecoach Dam downstream to Catamount Lake:
 - 1. Spawning areas (redds) are closed to fishing as posted to protect spawning fish.
- d. From 0.6 miles below Stagecoach Dam downstream to the confluence with Walton Creek, excluding Catamount Lake:
 - 1. Fishing is by artificial flies and lures only.
 - 2. The bag and possession limit for trout is two fish.
- e. From the confluence with Walton Creek downstream for 4.8 miles to the James Brown (Soul Center of the Universe) bridge, in Steamboat Springs:
 - 1. Fishing is by artificial flies and lures only.
 - 2. All trout must be returned to the water immediately upon catch.
- f. From the James Brown (Soul Center of the Universe Bridge) downstream to the Colo 394 bridge near Craig:
 - 1. The bag and possession limit for trout is two fish.
- g. From the headwaters of the Yampa River downstream to the confluence with the Green River:
 - 1. There is no bag or possession limit for channel catfish, largemouth bass, smallmouth bass, northern pike, walleye, green sunfish, bluegill, bullhead, yellow perch or crappie.

448.481. Youngs Creek Reservoirs #1, #2, and #3 - Delta County

- a. Fishing is by artificial flies and lures only.
- b. All cutthroat trout must be returned to the water immediately upon catch.

449.482. Yuma City Lake - Yuma County

- a. The minimum size for largemouth and smallmouth bass is 15 inches in length.
- b. The bag and possession limit for channel catfish is five fish.

450.483. Zimmerman Lake - Larimer County

- a. Fishing is by artificial flies and lures only.
- b. All trout must be returned to the water immediately upon catch.
- c. Fishing is prohibited in the inlet area as posted from January 1 through July 31.

Basis and Purpose:

These regulations amend Chapter W-1 - Fishing - of the Parks and Wildlife Commission Regulations. These regulations are designed to manage statewide aquatic resources and provide a diversity of angling recreation opportunities for resident and nonresident anglers throughout Colorado. They are the result of extensive public involvement and application of biological information on aquatic species. All regulation changes are based on the best available biological information and are designed to manage aquatic resources towards stated objectives. In addition to annual changes and non-substantive clean-up, these regulations specifically address the following:

Updating the criteria for establishing an emergency closure of fishing waters

Regulation #104(F)(1) was changed to reflect updated state and national water quality standards, including those of the Colorado Department of Public Health and the Environment (CDPHE) and the US Environmental Protection Agency (EPA), as well as to provide uniform and consistent messaging to the public and ensure consistency in implementation across varied thermal regimes and environmental conditions across systems statewide. More specifically, for criterion "a," the previous daily maximum water temperature threshold of 74 degrees Fahrenheit and the daily average temperature threshold of 72 degrees Fahrenheit did not align with presently established standards by CDPHE and EPA aimed at protecting aquatic life and were not protective of all systems as temperature effects on aquatic life may be evident at levels outside of those thresholds. Similarly, for criterion "b," the previous threshold of "25% or less of the historical average low flow for the time period in question" was not protective enough across most systems statewide and resulted in measurement challenges because the phrase "the time period in question" was not well defined. For criterion "c," the previous description did not include the word "stress," which is important when describing fish that may be exhibiting additional signs of deterioration related to environmental conditions. For criterion "d," the previous daily minimum dissolved oxygen level of five parts per million was not adequately protective and did not align with presently established standards by CDPHE and EPA aimed at protecting aquatic life.

Establishing a limited harvest for mountain whitefish statewide

Mountain whitefish are currently found in Colorado in the Yampa River drainage, the White River drainage, and the Colorado River drainage, including the Eagle and Roaring Fork rivers. Population declines in the Colorado River and Roaring Fork Rivers have been documented. Although mountain whitefish abundance is still relatively high in the White River, this species is sensitive to environmental stressors and staff are concerned that increased angling pressure, elevated summer water temperatures, entrainment of fish through irrigation diversions, and habitat modifications could reduce mountain whitefish reproduction and recruitment success. To reduce harvest of mountain whitefish, a statewide bag limit of four fish and a possession limit of eight fish was established. This bag and possession limit corresponds to the bag and possession limit placed on mountain whitefish in the Yampa River drainage in 2009, which has proven to be an effective tool. Staff hope this statewide restriction will help to increase the persistence of mountain whitefish and convey the importance of this unique sportfish across the state.

Changing fishing regulation on selected streams to protect Colorado River cutthroat trout and Rio Grand cutthroat trout

Staff identified several streams in the Southwest Region that are inhabited by Colorado River cutthroat trout and Rio Grande cutthroat trout populations, but were not protected by special

fishing regulations. As a result, regulations that allow fishing by artificial flies and lures only and specify that all cutthroat trout must be returned to the water immediately upon catch were adopted on the following waters:

- Anthracite Creek, North Fork (Gunnison County);
- Basin Creek (Gunnison County);
- Beaver Dams Creek (Ouray County);
- Chair Creek (Gunnison County);
- Clear Fork of Muddy Creek (Gunnison County);
- Cliff Creek (Gunnison County);
- Cunningham Creek (Delta County);
- Deep Creek (Gunnison County);
- Disappointment Creek (Dolores County);
- Disappointment Creek, South Fork (Dolores County);
- Escalante Creek, North Fork (Mesa County);
- Kaufman Creek (Gunnison County);
- Main Hubbard Creek (Delta County);
- Middle Hubbard Creek (Delta County);
- South Fork Minnesota Creek (Gunnison County);
- South Fork Wolf Creek (Mineral County);
- Points Creek (Mesa County);
- Priest Gulch (Montezuma County);
- Pryor Creek (Ouray County);
- Roaring Fork (Mineral County);
- Robinson Creek (Gunnison County);
- Rock Creek (Gunnison County);
- Second Creek (Gunnison County);
- Schaeffer Creek (Gunnison County);
- Slate Creek (Dolores County);
- Terror Creek, West Fork (Delta County);
- Twin Creek, North (Gunnison County);
- Twin Creek, South (Gunnison County); and
- Wildcat Creek (Montezuma County).

Restricting bass fishing and reducing the bag limits and minimum size limit for crappie and redear sunfish at Berthoud Reservoir (Larimer County)

From 2017-2019, redear sunfish, black crappie, largemouth bass, and rainbow trout were stocked in Berthoud Reservoir, resulting in an exceptional fishery. To allow crappie and redear to naturally reproduce at least one season prior to being potentially harvested, a 10-inch minimum harvest restriction was installed for both crappie and redear sunfish. Additionally, the bag limit was reduced to 10 crappie and redear sunfish taken together, as the potential harvest of both 20 crappie in addition to 20 redear sunfish (40 fish total) under general statewide regulations has the potential to severely limit long-term angling success. Finally, to ensure growth rates of panfish remains optimal, a catch and release regulation was installed for largemouth and smallmouth bass to create a quality bass fishing experience and maximize predation on small crappie and redear sunfish.

Implementing a minimum size limit for black and white crappie at Boedecker Reservoir (Larimer County)

Boedecker Reservoir has had exceptional natural recruitment of crappie. To maintain the quality angling and bolster natural reproduction, a 10-inch minimum size limit for black and white crappie was implemented. This will help to ensure the crappie can naturally reproduce at least one season prior to being potentially harvested.

Changing fishing closure dates on the Colorado River below Shadow Mountain Reservoir

The purpose of the regulation is to close the area to public fishing during CPW's annual kokanee salmon spawn collection operations. However, given the current timing and scope of the spawn operation, the date range was excessively wide and did not accurately reflect the period during which spawn collection occurs, and unnecessarily restricted public opportunity. As a result, the date range of the closure was shortened to October 15 through November 30.

Implementing special fishing regulations for walleye at Horseshoe Reservoir (Larimer County)

Horseshoe Reservoir is just west of Boyd Lake. Given the limited public angling access, CPW generally limits stocked fish to walleye fry resulting in a marginal walleye fishery and general statewide regulations have historically applied. However, the lack of a special fishing regulation at Horseshoe Reservoir has resulted in confusion among anglers and a difficult situation for law enforcement personnel due to its proximity to Boyd Lake where there are restrictive walleye fishing regulations. Special fishing regulations have been implemented at Horseshoe Reservoir that mimic the existing Boyd Lake walleye regulations to help ease these law enforcement issues.

Eliminating the special regulation for largemouth and smallmouth bass at Lagerman Reservoir (Boulder County)

Lagerman Reservoir no longer supports quality production and growth for largemouth and smallmouth bass and CPW does not stock these species in this water. As a result, the restrictions on the minimum size for largemouth and smallmouth bass harvest have been removed.

Implementing special fishing regulations for walleye at Lake Loveland (Larimer County)

Lake Loveland is also in close proximity to Boyd Lake and Horseshoe Reservoir. The south and west shores offer public shore fishing. North Lake Park also offers additional public fishing opportunities. All publicly accessible areas are managed by the City of Loveland's Parks and Recreation Department while Colorado Parks and Wildlife (CPW) manages the fishery in this reservoir. Walleye are the dominant sport fish in this reservoir and become quite accessible to shore anglers as these fish attempt to spawn along rip-rap dams. To provide a better angling experience, for the control of white sucker and common carp, and for consistency among nearby reservoirs, special fishing regulations have been implemented that mimic the existing Boyd Lake walleye regulations.

Revising the bag and possession limit and minimum size requirements for tiger trout at Meadow Creek Reservoir (Grand County)

CPW has stocked tiger trout (a sterile hybrid) on three occasions (2014, '16, and '18) in Meadow Creek Reservoir in Grand County in an effort to establish a predator that will thin the stunted brook trout population in the lake. However, few tiger trout have grown to 14 inches in length and only minimal predation of brook trout has been observed. Staff believe that production of larger, predatory fish may currently be limited by angler harvest. For that reason, harvest restrictions have been placed on tiger trout to allow them to grow to predatory size.

Reducing the bag and possession limit for trout at Meadow Creek Reservoir (Jackson County)

CPW began stocking the Meadow Creek Reservoir in Jackson County annually in 2010 with sub-catchable rainbow trout at a very low rate, primarily to keep trout densities low enough to maintain a trophy fishery. Sampling results from 2019 showed high numbers of suckers, but the overall number of trout decreased drastically and no trout over twenty inches were sampled, suggesting a loss or substantial decrease of the trophy component to the fishery. Angler pressure has

increased over the last decade and associated harvest increase has likely led to decreased overall trout abundance and trophy trout present in the reservoir. As a result, the bag limit has been reduced to two trout and the possession limit has been reduced to two trout.

Prohibiting angling at Webster Pond (Boulder County)

Prior to the September 2013 flood, Webster Pond provided angling for bass and sunfish. Flooding resulted in substantial sediment deposition in the pond and a breach in the pond's shoreline lowered the historic water level by approximately 10 feet. As a result, species management changed from warm water sportfish to native minnow species. The pond will be reclaimed during 2020 and restocked with the state endangered northern redbelly dace. To protect this pond as a native species refugia, angling has been prohibited in Webster Pond.

Adding East Fork Roaring Creek (Larimer County) to the current Roaring Creek regulation for cutthroat trout

Roaring creek has a naturally reproducing population of greenback cutthroat trout, which is protected under the Endangered Species Act as a federally threatened species. This designation allows catch and release only fishing of this species. To clarify that East Fork Roaring Creek is included under this regulation, the wording has been changed to say "Roaring Creek and tributaries."

The statements of basis and purpose for these regulations can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing dnr_cpw_planning@state.co.us. The statements of basis and purpose are not available at the Division of Parks and Wildlife headquarters due to the closure of these facilities to the public in light of the COVID-19 pandemic.

The statutory authority for these regulations can be found in § 24-4-103, C.R.S., and the state Wildlife Act, §§ 33-1-101 to 33-6-209, C.R.S., specifically including, but not limited to: §§ 33-1-106.

EFFECTIVE DATE - THESE REGULATIONS SHALL BECOME EFFECTIVE APRIL 1, 2021 AND SHALL REMAIN IN FULL FORCE AND EFFECT UNTIL REPEALED, AMENDED OR SUPERSEDED.

APPROVED AND ADOPTED BY THE PARKS AND WILDLIFE COMMISSION OF THE STATE OF COLORADO THIS 19TH DAY OF NOVEMBER, 2020.
