### Adjusting license fees according to adjustments to the Denver-Aurora-Lakewood Consumer Price Index

Following the passage of the Hunting, Fishing, and Parks for Future Generations Act (SB 18-143), the Colorado Parks and Wildlife Commission has the authority to adjust most wildlife licenses annually with the Consumer Price Index (CPI).

Consumer Price Indices for the Denver-Aurora-Lakewood metropolitan statistical area (successor to the Denver-Boulder-Greeley statistical area) are compiled by the United States Bureau of Labor Statistics. CPI figures are reported bimonthly, in addition to the average CPI for the first half of the calendar year, the average CPI for the second half of the calendar year, and the average CPI for the entire calendar year. The chart below shows the average CPI for the first half of each year.

Consumer Price Index - All Urban Consumers Denver-Aurora-Lakewood Metropolitan Area	
First Half 2018	260.790
First Half 2019	264.147
First Half 2020	271.264
First Half 2021	276.290
Annual Percentage Change (2020 Base Year)	1.9%
Cumulative Percentage Change (Rounded) (2018 Base Year)	5.9%

The CPI calculation above yields the following fees as adjusted in regulation. The fees shown in the highlighted column are the statutory caps for each license fee. The Parks and Wildlife Commission may reduce these as appropriate through the rule-making process. Those licenses with reduced fees are shown in the yellow highlighted rows.

License prices established in Appendix F of Chapter W-0 are the actual license price. The discounts applied from the statutory maximum price for select licenses have been provided in Chapters W-2 and W-3. The 2021 nonresident license fee comparison for other mountain states has also been included in the mailing for reference.

Updating retail agent commission rates according to inflationary increase in license prices

Previously adopted regulations set the retail agent commission at 4.75% of the license fee, except for those commissions that are fixed, as described below. Statutorily, the Commission may set these rates wherever feasible. Historically, the year-to-year Consumer Price Index (CPI) change has been used as a guideline for setting these rates. However, in 2019 CPW proposed fixed commission rates for different types of licenses (6.7% for fishing/small game, and 3.6% for nonresident big game). The fixed rates approved in 2019 yield the following retail agent commissions for the 2022 license year:

<b>Division Product Type</b>	<b>2021</b>	<b>2021</b>	<b>2022</b>	<b>2022</b>

In order to qualify for an annual low-income Colorado State Wildlife Area Pass, an individual must show photo identification and provide written proof, in the form of a federal or state income tax return from the immediately preceding calendar year, that the federal taxable income of such individual is at or below one hundred percent of the official poverty line for an individual or a family, as appropriate to the applicant, defined by the federal office of management and budget based on federal bureau of the census data. If said tax return is not available, a return for the year immediately preceding such year shall suffice. If a person's income is at a level where such person is not required to file an income tax return, such individual shall sign a statement under penalty of perjury in the second degree to such effect. No such affidavit shall be required to be notarized.

The federal taxable income of such individual cannot be greater than the applicable guideline set forth in the Annual Update of the HHS Poverty Guidelines, 86 Fed. Reg. 7732-01 (February 1, 2021) issued by the U.S. Department of Health and Human Services, Office of the Assistant Secretary for Planning and Evaluation, Room 422F.5, Humphrey Building, Department of Health and Human Services, Washington, DC 20201. **MAILING - 08/20/2021**  
**Basis and Purpose**  
**Chapter W-0 - General Provisions**

**Basis and Purpose:**

Following the passage of the Hunting, Fishing, and Parks for Future Generations Act (SB 18-143), the Colorado Parks and Wildlife Commission has the authority to adjust most wildlife licenses annually with the Consumer Price Index (CPI).

Consumer Price Indices for the Denver-Aurora-Lakewood metropolitan statistical area (successor to the Denver-Boulder-Greeley statistical area) are compiled by the United States Bureau of Labor Statistics. CPI figures are reported bimonthly, in addition to the average CPI for the first half of the calendar year, the average CPI for the second half of the calendar year, and the average CPI for the entire calendar year. The chart below shows the average CPI for the first half of each year.

<b>Consumer Price Index - All Urban Consumers</b>	
Denver-Aurora-Lakewood Metropolitan Area	
First Half 2018	260.790
First Half 2019	264.147
First Half 2020	271.264
First Half 2021	276.290
Annual Percentage Change (2020 Base Year)	1.9%
Cumulative Percentage Change (Rounded) (2018 Base Year)	5.9%

The CPI calculation above yields the following fees as adjusted in regulation. The fees shown in the highlighted column are the statutory caps for each license fee. The Parks and Wildlife Commission may reduce these as appropriate through the rule-making process. Those licenses with reduced fees are shown in the yellow highlighted rows.

While most resident and nonresident wildlife license fees may now be adjusted based on CPI, discounts have also been retained for nonresident black bear, resident black bear, youth black bear, nonresident mountain lion, and nonresident antlerless elk licenses to continue incentivizing the purchase of these licenses.

Discounts have also been retained for the resident senior combination fishing and small game hunting license and the resident senior lifetime fishing upgrade to annual combination fishing and small game hunting license. However, the nonresident furbearer license and the resident senior combination fishing and small game hunting license have increased in accordance with the CPI.

#### C. Wildlife Sanctuary Licenses

As provided in § 33-1-106, C.R.S., Wildlife Sanctuary licenses are issued to wildlife sanctuaries as defined in § 33-1-102, C.R.S.

##### 1. Types of Licenses

###### a. Provisional Wildlife Sanctuary

1. Issued to nonprofit entities for the conditional operation of a wildlife sanctuary as defined in 33-1-102, C.R.S. Provisional wildlife sanctuary licenses expire December 31<sup>st</sup> of the year issued and may be renewed for up to one additional year after which time the facility must meet the requirements to obtain and be issued a wildlife sanctuary license. In the event that a facility fails to meet this requirement, all wildlife in possession must be transferred from the facility according to the approved contingency plan and the facility must wait a minimum of 5 years before re-applying for a new provisional wildlife sanctuary license.
2. Except for the provisions of Reg # 1105.A.8, the Division shall determine that the applicant has met the following requirements prior to the issuance of a provisional wildlife sanctuary license:
  - aa. Documentation demonstrating experience in the care and handling of the type of wildlife for which the applicant is seeking authorization to possess on their license.
  - bb. Letter of recommendation from a currently licensed Colorado wildlife sanctuary acknowledging the applicant's qualifications in the care and handling of captive wildlife.

###### b. Wildlife Sanctuary

1. Prior to the annual issuance or renewal of a wildlife sanctuary license, the Division shall determine that the applicant possesses a current provisional wildlife sanctuary license or a current wildlife sanctuary license issued by the Division.
2. All Wildlife Sanctuary licenses may be issued only to nonprofit entities.
3. Wildlife sanctuaries must comply with all requirements of § 33-1-102(52) and § 33-4-102(14), C.R.S.
4. Except as provided herein, wildlife sanctuaries must be an accredited or certified "related facility" by the AZA or accredited or verified by the GFAS prior to and maintain such certification as a condition of the issuance of a wildlife sanctuary license. Facilities previously licensed by the Division as a commercial wildlife park prior to January 1, 2001, and incorporated as a 501(c)(3) non-profit which functioned as wildlife sanctuaries may continue to operate as wildlife sanctuaries under the wildlife parks facility requirements set forth in Regulation No. 1108. In addition, these existing facilities may expand operation onto contiguous property owned by them under those same facilities requirements and without AZA certification. Provided further that, when one of these existing facilities is impacted by an act of nature (e.g. fire or flood) that prevents it from reasonably continuing its operation at the present location, the facility may, with the approval of the Director, move to a new location and continue its operation without being subject to the generally applicable AZA certification requirement, provided the relocated facility complies with the wildlife parks facility requirements set forth in #1108 of these regulations, and all wildlife sanctuary operations at the present locations cease.
5. Wildlife possessed by a wildlife sanctuary shall be surgically sterilized within thirty days of arrival, except that pregnant animals shall be surgically sterilized immediately following weaning and animals eligible for participation in the AZA's Species Survival Plan ("SSP") need not be sterilized. However, documents supporting such SSP eligibility must be provided to the Division within 30 days of arrival at the wildlife sanctuary.

Any nonprofit sanctuary facility previously licensed by the Division as a commercial wildlife park prior to January 1, 2001, shall submit a sterilization plan for wildlife possessed by such facility for approval by the Division. Such plan shall be submitted to the Division by January 1, 2006 and shall provide for surgical sterilization of all wildlife possessed at such facility as of November 1, 2005, in an expeditious manner, but in no event later than May 1, 2007. Wildlife brought onto such a facility after November 1, 2005, shall be surgically sterilized within thirty days of arrival, except that pregnant animals shall be surgically sterilized immediately following weaning.

In lieu of surgical sterilization, wildlife sanctuaries may submit a birth control plan for animals located on the facility for approval by the Division. Such plans may be approved if they provide sufficient assurances against propagation of animals at the facility.

- D. Except as provided herein, no wildlife taken from the wild shall be possessed by any commercial wildlife park, noncommercial wildlife park or wildlife sanctuary in Colorado. Wildlife taken from the wild outside of Colorado may be possessed by a wildlife sanctuary provided:
  1. The wildlife has been determined by the wildlife management agency of the source state or country to be habituated and non-releasable and has otherwise authorized the export of the wildlife, and
  2. The wildlife has been held in captivity in the source state or country for no less than 24 months. However, the Director may authorize the importation of wildlife that does not

meet the captivity period requirement if he/she determines it is proper for management of the Division and otherwise beneficial to the management, preservation or conservation of wildlife resources. In making such determination, the Director shall consider:

- a. other placement or wildlife management options available to the exporting state or country,
- b. capacity and resources of the importing wildlife sanctuary,
- c. impact to state wildlife management programs, and
- d. any other wildlife management criteria.

Provided however, that no more than one such importation per calendar year (based on a three-year rolling average) may be approved for any wildlife sanctuary.

For the purposes of this regulation, wildlife born in captivity, even if born to wildlife taken from the wild, are not considered "taken from the wild."

Chapter W-11 - Wildlife Parks and Unregulated Wildlife

**Basis and Purpose:**

Following the passage of the Hunting, Fishing, and Parks for Future Generations Act (SB 18-143), the Colorado Parks and Wildlife Commission has the authority to adjust most wildlife licenses annually with the Consumer Price Index (CPI).

Consumer Price Indices for the Denver-Aurora-Lakewood metropolitan statistical area (successor to the Denver-Boulder-Greeley statistical area) are compiled by the United States Bureau of Labor Statistics. CPI figures are reported bimonthly, in addition to the average CPI for the first half of the calendar year, the average CPI for the second half of the calendar year, and the average CPI for the entire calendar year. The chart below shows the average CPI for the first half of each year.

<b>Consumer Price Index - All Urban Consumers</b>	
Denver-Aurora-Lakewood Metropolitan Area	
First Half 2018	260.790
First Half 2019	264.147
First Half 2020	271.264
First Half 2021	276.290
Annual Percentage Change (2020 Base Year)	1.9%
Cumulative Percentage Change (Rounded) (2018 Base Year)	5.9%

The CPI calculation above yields the following fees as adjusted in regulation. The fees shown in the highlighted column are the statutory caps for each license fee. The Parks and Wildlife Commission may reduce these as appropriate through the rule-making process.

**Basis and Purpose Statement:**

**Updating retail agent commission rates according to inflationary increase in license prices**

Previously adopted regulations set the retail agent commission at 4.75% of the license fee, except for those commissions that are fixed, as described below. Statutorily, the Commission may set these rates wherever feasible. Historically, the year-to-year Consumer Price Index (CPI) change has been used as a guideline for setting these rates. However, in 2019 CPW proposed fixed commission rates for different types of licenses (6.7% for fishing/small game, and 3.6% for nonresident big game). The fixed rates approved in 2019 yield the following retail agent commissions for the 2022 license year:

<b>Division Product Type</b>	<b>2021</b>	<b>2021</b>	<b>2022</b>	<b>2022</b>

**Basis and Purpose**  
**Chapter P-7 - Passes, Permits and Registrations**

**Basis and Purpose:**

**Updating retail agent commission rates according to inflationary increase in license prices**

Previously adopted regulations set the retail agent commission at 4.75% of the license fee, except for those commissions that are fixed, as described below. Statutorily, the Commission may set these rates wherever feasible. Historically, the year-to-year Consumer Price Index (CPI) change has been used as a guideline for setting these rates. However, in 2019 CPW proposed fixed commission rates for different types of licenses (6.7% for fishing/small game, and 3.6% for nonresident big game). The fixed rates approved in 2019 yield the following retail agent commissions for the 2022 license year:

Division Product Type	2021	2021	2022	2022
	Actual Price	Commission	Actual Price	Commission
Second Rod Stamp	\$9.36	\$0.63	\$9.53	\$0.64

## Mountain States License Fee Comparison

The following analysis compares big game license fees and opportunities for mountain states. Although general license stipulations and hunting opportunities vary by state and species, every effort has been made to compare licenses that address similar nonresident hunting opportunities. This analysis is not intended to be a comprehensive summary of all hunting opportunities in all states. For example, several states have programs closely comparable to Ranching for Wildlife, and most states issue special licenses, including disease management, auction/raffle and landowner licenses. This analysis is intended to compare licenses generally available to average non-residents on an over-the-counter or draw basis.
