ISSUE:	Should the private land only (PLO) antlerless elk licenses in game management unit (GMU)	
DIGGUIGGU	104 be changed from a list B to a list C?	
DISCUSSI	ON (FACTS AND FIGURES, EXPLANATION OF ISSUE):	
population 2,500 anim number of herd. The o and hunter addressing and hunter CPW staff	sis unit (DAU) E-51 has experienced a growing elk herd for the past several years. The is over the current provisional objective of 1,200 elk. Currently, this elk herd is estimated at als for 2022. In GMU 104 roughly 89% of the unit is private property and there has been a high andowner complaints over the past few years about property damage from this growing elk current PLO antlerless elk license in GMU 104 is a List B license, which limits both landowners is to harvesting one additional cow during the season, which is no longer adequate for the current level of game damage. Changing this license to a List C would allow landowners is the opportunity to purchase multiple tags and harvest more than one cow during the season. believes this change will alleviate more of the elk damage on private lands and help reduce the population back to objective.	
104 from a opportunity	we propose to change the PLO antlerless limited elk license (hunt code EF104P5R) in GMU List B to a List C license, given the same limited license quota. This change will provide more for landowners and hunters to harvest more cow elk helping reduce the elk herd in E-51, and me of the game damage.	
REGULAT	LDERS HAVE BEEN ADVISED OF AND INVITED TO PROVIDE INPUT ON THE ORY CHANGES PROPOSED IN THIS ISSUE PAPER: SUMED THAT ALL NECESSARY INTERNAL PARTIES HAVE BEEN NOTIFIED*.	
[List stake	holder groups and briefly summarize comments received]	
No formal of	rs and elk hunters in GMU 104. comments have been solicited. However, District Wildlife Officers have received numerous comments and complaints from landowners about too many elk.	
ALTERNA	TIVES: (POSSIBLE OUTCOMES or POSSIBLE REGULATIONS):	
	red Alternative*: Change the PLO antlerless elk license (EF104P5R) in GMU 104 from a o a List C license.	
A. De	ANNUAL BAG LIMITS AND MAXIMUM NUMBERS OF LICENSES PER PERSON er, elk, pronghorn, black bear, mountain lion, moose, rocky mountain bighorn sheep, and Intain goat lk	
C.	 Any Number of Licenses - A hunter may also obtain any number of the following elk licenses: 1. antlerless private land only license for GMUs 104, 391, or 461, 2. any over the counter either-sex license, except archery license, issued for GMUs 87, 88, 89, 90, 91, 92, 93, 94, 95, 96, 97, 98, 99, 100, 101, 102, 103, 105, 106, 107, 109, 110, 111,

ISSUE: Should hunt codes EF85101M and EF85103R be removed? DISCUSSION (FACTS AND FIGURES, EXPLANATION OF ISSUE): The Bosque del Oso is a 30,000 acre state wildlife area (SWA) located west of Trinidad in south central Colorado. It is comprised of bull elk winter range and has become a destination for elk hunters and wildlife watchers. When the Bosque del Oso SWA was established, a management advisory group was created to guide management decisions about hunting, grazing and recreation for the property. When they set the season framework little was known about how the elk and elk hunters would utilize the property. They worked from established successful hunting seasons based in the rest of the state. Electing to have several hunting seasons for antierless elk, including muzzleloader, 3rd rifle, and three late seasons to assist with harvest objectives. Since the property is primarily winter range for bull elk, antierless elk are not typically found on the property until snowfall depths force the animals east into the property. This has resulted in very low success rates and hunter satisfaction for the antierless muzzleloader and antierless of rifle hunting seasons. Staff have documented only 2 antierless lek being harvested during these sensons in the 27 years that CPW has owned the property. CPW would like to remove the two early antierless elk occupancy of the SWA, allowing for greater harvest opportunities and better hunter satisfaction. STATE LAW REQUIRES CPW TO SOLICIT INPUT FROM STAKEHOLDERS THAT MAY BE AFFECTED POSITIVELY OR NEGATIVELY BY THE PROPOSED RULES. THE FOLLOWING STAKEHOLDERS HAVE BEEN NOTIFIED*. [List stakeholder groups and briefly summarize comments received] CPW has had several conv			Date:	11/03/2023
