

I SPY A BEAUTIFUL SPRING COLOR

Take advantage of a nice spring day, when the flowers are in bloom and the insects are buzzing, to enjoy nature with your kids while they learn colors. This is a colorful (pun intended!) spin on the classic “I Spy” game.

What You Need:

- Paper
- Pen or pencil

Instructions:

1. Have your child write down all of the spring colors they can think of. Here’s a hint, every color is a spring color!
2. For each color, have your child make a list of all of the objects in nature that are that particular color. For example, Green: grass, frogs, leaves, bugs, etc. Don’t forget that some objects may be in more than one color group.
3. Now it’s time to play! Begin by heading out into your favorite park. Picking one color at a time, have your child try to find every object that is on their list. Remind them to also be looking for anything new that could be added to their list.
4. Continue playing by repeating step 3 for the rest of the color lists.

How many objects were they able to find?
