Hunter Education Safety Course:

Anyone born on or after January 1, 1949 must have completed an approved Hunters Education Course or Bow Hunter Education Course (for archery license only) sanctioned by a state or province before applying for or purchasing a license over the counter at a licensed agency. Colorado honors hunter education (safety) courses from other states and provinces. Photo copies of certifications or cards are not acceptable. You must carry the original education certifications (or have it verified on your license) when hunting and produce it when requested by an officer.

Fluorescent Orange or Hot Pink:

You must wear at least 500 square inches of solid daylight fluorescent orange material in an outer garment above the waist. Part of the fluorescent orange or Hot Pink must be worn as a hat/head covering visible from all directions while hunting deer, elk, antelope or bear during muzzle loading or rifle season. Camouflage orange does not meet this requirement. Mesh garments are not recommended.
