## COLOR CODED REFERENCE GUIDE TO THE DRAW RECAP REPORT

updated: 05-29-15

Prior to 2015, draw statistics were primarily designed for internal use by CPW staff to validate the draws and to manage hunting. However, hunters use the same information, so we make this data available to Colorado's hunters.

Redesign of the Draw Recap information combines pre-draw and post-draw information in an easy to read layout. Each report has a summary page which summarizes all applications and hunts in that draw and detail pages which summarize draw information for each quota. The report is broken out into zones to help organize the information. This color coded glossary explains each zone including descriptions and possible values for each field.

Remaining Balance	The quota remaining for the hunt code or group of hunt codes (float group) after the draw has been completed. <b>Note:</b> A remaining balance does not guarantee that number of licenses will be available for the leftover draw or when leftover licenses go on sale.	Same as Post-Draw Successful Balance.
