**New Business:** FY20 LK Ranch Sprinkler Pivot Planting: Lenny explained that the project site is located above his folks' house where they have two pivot sprinklers. One sprinkler irrigates 40 acres and the other covers 80 acres. Lenny is seeking a cost share on farming and seed needed to reestablish 60 acres for wildlife. They ran out of water last year and the vegetation was lost during the drought. Total cost of the project estimated at \$8,503.75 asking HPP for 50%. The committee approved \$4,251.88 out of FY20.

Bailey mentioned that he may have 3 future proposals to present to the committee soon. Two would be on Oak Creek and the other on Miller Ranch; he mentioned he needs to get internal approval on all of them first though.

**Adjournment:** Meeting was adjourned at 7:26pm.
