Introduction: Committee members were introduced. The remaining budget at the start of the meeting was \$3,369.37; however the 'Marolf Pond Project' approved for \$7,700.00 was unlikely to be implemented in FY22 which would return those funds to the committee budget.

Project Application Proposals and Reviews:

1. The committee reviewed a fencing proposal from Shannon Clark. The property is located in big game winter and transitional range, and is adjacent to BLM. The existing fence is degraded and does not properly contain livestock, and presents entanglement risks to deer and elk. The project involves removing approximately .5 miles old fence and replacing it with new wildlife-friendly fencing to HPP specs. This project is a continuation of work completed in FY21, and would be completed primarily along the northern boundary. The project was approved for \$4,429.07 for materials.
