- Jeff Outhier - USFS

Attendees Present:

Allen Vitt - CPW

Administrative Assistant Present:

Kimberly Berscheid

Introductions

Committee members and guests were introduced.

New Business

PH-20 HMP Presentation-

Allen Vitt presented the PH-20 Herd Management Plan that includes GMUs: 69, 84, 85, 86, 691, 851, & 861. Because the area has experienced exponential growth, which has caused a loss in pronghorn habitat, preferred post-hunt population objectives will expand to 2,040-2,760 to allow for changes. Post-hunt sex ratios will remain status quo at 30-40 bucks per 100 does. Allen is also considering adding a late-season doe license to manage the population. **The committee supports the PH-20 HMP as presented and will provide Allen with a letter of support.**

Remaining Committee Business

The next committee meeting is scheduled for June 6, 2023, and will be a site tour on the Spanish Peaks State Wildlife Area.

Adjourn

The meeting was adjourned at approximately 10:00 am.
