# 702 - COMMISSION AUTHORITY

1. The Commission may waive the requirement for a park pass, or it may close any state park or state recreation area, or portions thereof, whenever it finds the action necessary to protect and promote the health, safety and general welfare of the people of this state.

SPECIAL ACTIVITIES

# 703 - SPECIAL ACTIVITIES REQUIRING PERMITS

1. “Special activities” means those noncommercial events which have the potential for an adverse impact on park values or health, safety or welfare of park visitors or which may otherwise require special planning/scheduling for proper management. Special activities shall require prior approval in the form of a special-activities permit. Applications thereof generally shall be made to the Park Manager at least ninety (90) days prior to the event. Such application must be accompanied
by the appropriate application filing fee. This requirement for an
application to be filed ninety days prior to an event will be waived in
rare circumstances where arrangements can be made in a shorter time
without putting undue administrative burden on the Park Manager or
when no special arrangements are necessary.

2. The decision of whether to approve special activity permits will be made
by the Park Manager when it is determined that the special activities will
not involve the use of a park or recreation area by a group of persons
totaling more than the park or recreation area’s established carrying
capacity. Otherwise, the Regional Manager shall make the decision of
whether to approve the permits. The decision of whether to approve
special activities permits will be based on the impact on park values
and/or the health, safety and welfare of park visitors and other affected
persons, and also will be based on:
   a. The nature of the park or recreation area and the types of recreational
opportunities/resources it is intended to provide the public
   b. The carrying capacity of the facility or facilities to be utilized during the
special activity compared to:
      (1) The total number of park visitors (including participants and
spectators in the special activity) expected to utilize such facilities;
      and
      (2) The total number of vehicles, vessels or persons expected to
participate in or be attracted to such activities.
   c. The extent to which the special activity will contribute to the variety of
outdoor recreational opportunities available to the people of this state
and its visitors.
   d. The extent to which the activity places an administrative burden on the
staff of the park area.

3. Whenever it is determined that any special activity will involve the use
of a park or recreation area by a group of persons totaling more than
the park’s or recreation area’s established carrying capacity a thirty day
written public comment period and a public meeting shall be required
prior to the granting of a permit. The Park Manager shall publish notice
of both the written comment period and the meeting at least once in
a newspaper of general circulation in the county or counties wherein
said park or recreation area is located. The meeting shall be conducted
by the Division representative responsible for the permit issuance
decision and shall be held either at the park or recreation area, or
within a county in which the park or recreation area is located. Such
public meeting is not intended to be an adjudicatory licensing hearing
under the provisions of the Colorado Administrative Procedures Act,
but only as an opportunity for public comment.

4. An application for a permit shall be acted upon promptly, and the
applicant shall be notified immediately after the taking of action
on the application. If the application is denied, the applicant shall
be notified in writing within five working days of such action. Such
written notification shall include the basis for the denial. The applicant
may submit a written appeal of a denial to the Division Director within
sixty days of receipt of the denial, requesting a hearing pursuant to
section 24-4-104(9), C.R.S., if the date of the proposed special activity
is to occur within the sixty day appeal period, then the applicant shall
submit any written appeal as soon as practicable so as to allow a
reasonable time for the Director to act upon the appeal. Absent special
circumstances justifying a later submittal and depending upon the
nature of the proposed special activity and the amount of preparation
required on the part of the Division for such activity, generally an
appeal submitted less than twenty-five days prior to the proposed
special activity will be deemed untimely.

5. Upon written request, the Division shall waive the requirement for a parks
pass for those vehicles when all the occupants are entering state recreation
areas and state parks for the purpose of administering permitted special
activities and not for the purpose of their own recreation.

6. For special activities where the Division representative responsible
for the permit issuance decision determines it will be a greater
administrative ease for the Division to administer the activity, an
alternative fee of $2.00 per person per day may be charged for
admission of persons attending or participating in the special activity.
This permission shall apply only to groups of twenty or more persons.

7. Nothing in this regulation impairs the specific authority of the
Commission pursuant to 33-10-107(1)(d) C.R.S. to enter into cooperative
agreements for the development and promotion of Division programs,
or the general authority of the Commission pursuant to 33-10-106 C.R.S.
to manage all state recreation areas and state parks for both commercial
and noncommercial purposes. The authority granted to park managers
and regional managers is intended to allow them to address events of
limited and local impact, and is specifically intended to coexist with, and
to not exclude, the Commission’s statutory authorities.

   (1) Permit holders will be supplied a list of rules associated with the HUP upon issuance of the permit. Failure to comply with rules of the permit may result in permit revocation.

   (2) Nothing in this hunting management plan or in the rules of the special use permit shall imply or be construed to imply that HUP holders are exempt from any statute or regulation governing hunting, motor vehicle operation, conduct on a state park, or other activity in which the permit holder may engage while performing the activities allowed under the permit. These statutes and regulations include, but are not limited to:
   (a) Permit holders must possess a valid hunting license issued by CPW for the game management unit, species and season hunted.

   (b) Vehicle involved in hunting use on the Green Ranch are required to display a valid Colorado State Parks pass, unless the vehicle displays a disabled veteran license plate.

   c. “Alternate” system
   (1) Alternate hunters may be contacted in the event a permittee is unable to engage in the activities of the permit for any reason, including sickness, death, hunting license revocation, permit revocation, park eviction or simple changes in plans.

   (2) Alternates will be contacted in the following manner:
   (a) The park manager or his/her designee will attempt to contact the next individual on the alternate list by phone.

   (b) If the next individual is unable to be contacted upon the first call, the park manager or his/her designee will continue down the alternate list until an individual can be contacted and notified of the availability of an HUP for the Green Ranch.

   (c) If no hunter on the alternate list can be contacted, the park manager or his/her designee will return to the applicant pool of the individual season and randomly draw up to four more alternates. This process will be continued until the hunting slot is filled by a qualified applicant.

   (d) If no hunter can be contacted, no applicant is qualified, or none is available to hunt the remainder of the season, the availability of the HUP will be advertised by the park manager or his/her designee and the permit may be issued on a first-come, first-served basis.

   (e) Hunters who are contacted via the hunting list or alternate list and who obtain or decline a HUP for the Green Ranch will have their name removed from the applicant pool.

(2) Alternate permits shall not be valid until payment of the HUP and application fee are made by the new permittee.

d. Refund policy
(1) Refunds will only be provided according to the current pass refund policy of the Division and by relinquishing the HUP for the Green Ranch before the opening day of the season for which the permit is valid.

A. Aquatic Nuisance Species (ANS)

1. Aquatic nuisance species means exotic or nonnative aquatic wildlife or any plant species that have been determined by the Commission to pose a significant threat to the aquatic resources or water infrastructure of the state, including, but not limited to the following:

2. In addition to these species, the Director may jointly and temporarily designate a species as an aquatic nuisance species for a period not to exceed nine months when they determine that a species not listed herein poses a significant threat to Colorado's aquatic resources.

B. “Aquatic Plant” means a vascular plant (floating leafed, floating, submerged, or emergent vegetation) that naturally grows in water or saturated soils.

C. “Authorized Agent” means a person that has passed the Division's watercraft inspection and decontamination training course and is otherwise authorized by statute and regulation to perform inspections and decontaminations at authorized locations in Colorado, and is employed by or, as evidenced by written authorization, is otherwise acting on behalf and at the direction of a local, state or federal government or subdivision of government.

D. “Authorized location” means a location or an address where watercraft inspection and decontamination (WID) procedures are authorized and certified by the Division, and inspections are mandatory prior to launching or exiting, including, but not limited to, Division offices, government field stations, or non-governmental facilities as designated by the Division.
E. "Clean" means a vessel or other floating device that does not show visible ANS or attached vegetation, debris or surface deposits. This includes mussel shells or residue on the watercraft, trailer, outdrive, or equipment that could mask the presence of attached mussels or other ANS.

F. "Detected water" means a water body in which an aquatic nuisance species has been detected per #806D.

G. "Director" means the Director of the Division of Parks and Wildlife.

H. "Drain" means to the extent practical, all water is drained from all water holding compartments including live-well, bait-well, storage compartment, equipment lockers, bilge area, engine compartment, deck, ballast tanks or bags, water storage and delivery system, cooler or any other water storage area on the vessel or other floating device.

I. "Dry" means no visible sign of standing water, or wetness on or in the vessel or other floating device. Watercraft that has been out of the water long enough for attached mussels to desiccate.

K. "Vessels or other floating device" means watercraft of any and all kinds including their motors or engines, trailers, compartments, and any other associated equipment or containers that routinely or reasonably could be expected to contain or have come into contact with water. The term does not include hand-launched rafts, kayaks, belly boats, float tubes, canoes, windsurfer boards, sail-boards, paddle boards or inner tubes.

L. "Water Drain Plug" means a valve or device on or in a vessel or other floating device which is used to control the drainage of water from a compartment designed to hold water, including but not limited to, a bilge, well, compartment, locker, or ballast system.

M. "WID procedures" means Watercraft Inspection and Decontamination procedures, as set forth in these chapter 8 regulations and documented in the State Watercraft Inspection and Decontamination Training Curriculum.

N. O. "WID Seal Receipt" means the written or electronic documentation required to verify a WID seal is valid.

# 801 - POSSESSION OF AQUATIC NUISANCE SPECIES

A. Except as provided in these regulations or authorized by the Division or under Title 33 or Title 35 C.R.S., it shall be unlawful for any person to possess, import, export, ship, transport, release, place, plant, or cause to be released, placed, or planted into the waters of the state any aquatic nuisance species.

B. The Division's authorized personnel, authorized agents, qualified peace officers, private inspectors, and private decontaminators are permitted to possess and transport live or dead aquatic nuisance species samples for the purposes set forth in Article 10.5 of Title 33, C.R.S. and in these regulations.

C. It is unlawful for any person to, or to attempt to, launch onto, operate on or remove from any water of the state or vessel staging area any vessel or other floating device without first submitting the same to an inspection for aquatic nuisance species, and completing said inspection, if such an inspection is requested by any qualified peace officer or authorized agent. Further, it is unlawful for any person to fail to complete the removal and disposal of aquatic nuisance species if such removal and disposal is requested by any qualified peace officer.

D. It is unlawful for any person to, or to attempt to, launch onto, operate on or remove from any water of the state or vessel staging area any vessel or other floating device if they know the vessel or other floating device contains any aquatic nuisance species.

# 802 - PRIVATE INSPECTORS, AUTHORIZED AGENTS, TRAINING, CERTIFICATION, AND QUALITY ASSURANCE

A. The Division may certify private inspectors and/or decontaminators. Such persons shall not be authorized to stop, detain, or impound a vessel or other floating device, or order a vessel or other floating device to be decontaminated, impounded or quarantined. Such persons, once certified, are only authorized to provide inspections and/or decontaminations in accordance with WID procedures to persons transporting vessel or other floating device who voluntarily request their services.

B. Authorized agents shall be certified by the Division prior to providing any inspection or decontamination services. A description of training and certification requirements is available from the Division. After receiving proper training and written certification from the Division, authorized agents may stop, detain, inspect and decontaminate a vessel or other floating device. Authorized agents shall be authorized to perform decontaminations with the permission of the vessel owner, at the direction of a qualified peace officer, or at the voluntary request of any person transporting a vessel or other floating device. Authorized agents do not have any authority to order vessel or other floating device to be decontaminated, nor do they have the authority to impound or order the quarantine of any vessel or other floating device.

C. Prior to providing any inspection and/or decontamination services, authorized agents and private inspectors and/or decontaminators must successfully complete the Division's training course, must maintain active certification and must comply with all quality assurance requirements as listed herein.

D. Any authorized agent or private inspector and/or decontaminator may be certified by the Division to perform inspections and/or decontaminations based on the person's training and the equipment available at the authorized location.

E. The Division shall conduct quality assurance checks at all authorized locations, including but not limited to, inspection of facilities and records, and interviewing authorized location personnel to verify proper procedures are being utilized.

1. If the Division documents quality assurance violations, including, but not limited to, improper facilities, maintenance, equipment, records or failures to use proper WID procedures, then the Division may, at their discretion, issue a written warning notice, disallow aquatic nuisance species inspections, decontaminations, and/or training at the specific location or by the applicable agent or private inspector/decontaminator until the Division has documented compliance with all quality assurance checks, or decertify the applicable agent(s), private inspector(s)/decontaminator(s), location(s) or trainer(s) until they have been recertified in accordance with these regulations.

# 803 - INSPECTIONS

A. Inspections may be conducted by:

1. Any qualified peace officer;

2. Any authorized agent or private inspector and/or decontaminator who has been properly trained as required by the Division, who holds a valid, active certification and who is in good standing with the Division's quality assurance checks.

B. All persons transporting a vessel or other floating device from a detected water of the state, as determined in regulation #806 D, must be inspected prior to leaving the detected water, or if state authorized inspection facilities are not open or otherwise available, must be inspected prior to launching in any other water of the state. All detected waters shall be posted and a list of detected waters will also be available from the Division.

C. All persons transporting a vessel or other floating device must go to a state authorized inspection location and submit to and receive
documentation of an inspection prior to launching in any water of the state if the vessel or other floating device has been in another state’s waters in the last 30 days, or if the vessel or other floating device is not registered in Colorado.

D. All persons transporting a vessel or other floating device must submit to an inspection prior to launching and/or exiting at an Authorized Location.

E. Inspectors will determine if there is a reasonable belief that aquatic nuisance species are present by interviewing the person transporting the vessel or other floating device and using visual and/or tactile inspection methods and using appropriate forms supplied by the Division.

F. All vessels or other floating devices of any kind, are subject to inspection in accordance with WID procedures prior to launch onto, operation on or departure from any waters of the state or vessel staging areas. All compartments, equipment and containers that may hold water, including, but not limited to, live wells and ballast and bilge areas shall be drained as part of all inspections.

G. It is the responsibility of the vessel or other floating device operator to clean, drain water from all compartments and motors/engines in between launches and dry the vessel or other floating device in between launches.

H. Upon removal of a vessel or other floating device from waters of the state, and before leaving the boat launch or parking area, the operator is required to remove aquatic plants and water drain plug(s). It is prohibited to transport a vessel or other floating device over land with aquatic plants or water drain plugs in place.

I. Any vessel or other floating device found or reasonably believed to contain aquatic nuisance species shall be decontaminated by an authorized agent using WID procedures before said vessel or other floating device will be allowed to launch onto, operate on or depart from any waters of the state or vessel staging areas.

J. Compliance with the above aquatic nuisance species inspection and removal and disposal requirements is an express condition of operation of any vessel or other floating device on waters of the state. Any person who refuses to permit inspection of their vessel or other floating device or to complete any required removal and disposal of aquatic nuisance species shall be prohibited from launching onto or operating the vessel or other floating device on any water of the state. Further, the vessel or other floating device of any person that refuses to allow inspection or to complete any required removal and disposal of aquatic nuisance species prior to departure from any water of the state or vessel staging area where any aquatic nuisance species is known to be present is subject to impoundment until said aquatic nuisance species inspection and/or decontamination is completed.

K. Any person operating a vessel or other floating device may be ordered to remove the vessel or device from any water of the state by any qualified peace officer or authorized agent if they reasonably believe the vessel or other floating device was not properly inspected prior to launch or may otherwise contain aquatic nuisance species. Once removed from the water, the vessel or other floating device shall be subject to inspection for, and the removal and disposal of aquatic nuisance species.

L. Any authorized agent or private inspector or private decontaminator who, through the course of an inspection, determines there is a reasonable belief that aquatic nuisance species are present shall document the inspection, including but not limited to, type and number of aquatic nuisance species suspected and/or detected and identification of the vessel or other floating device, including license plate numbers and hull and/or vehicle identification numbers, if available. Further, the authorized agent or private inspector/decontaminator shall advise the operator that the vessel or other floating device is suspected of possessing aquatic nuisance species and that it must be decontaminated according to WID procedures as soon as possible. Only qualified peace officers have the authority to order decontamination, impound or quarantine of a vessel or other floating device.

M. Once a vessel or other floating device is inspected and/or decontaminated, a WID seal will be attached to the vessel or other floating device by a qualified peace officer, authorized agent, or private inspector/decontaminator. A receipt using the Division’s form shall accompany all WID seals. WID seals shall be attached to a vessel or other floating device as specified by the Division. A WID seal, once properly attached to a vessel or other floating device by a qualified peace officer, authorized agent, or a private inspector/decontaminator, and when accompanied by the proper receipt, documents an inspection or decontamination procedure.

N. If a vessel or other floating device contains live aquatic organisms in water as bait, then the owner or operator will be required to produce a receipt for the bait from a Colorado bait dealer with a purchase date clearly printed on the receipt per regulation 8 CCR 1201-21, VI. E and the purchase date is no more than 7 days previous. If the owner or operator does not have such a receipt, and the bait is allowed for use at the water body per regulation 2 CCR 406-1 #104.H.2, then they will be required to submit the bait for transfer into water from a known source and the bait container to decontamination as per the State ANS Watercraft Decontamination Manual available from the Division.

# 804 - DECONTAMINATION

A. The Division will only recognize the decontamination methods listed herein that are recognized as proper WID procedures. All decontaminations will be employed following all applicable laws, disposal methods, recommended safety precautions, and safety equipment and procedures.

B. To decontaminate water compartments, equipment or containers in a vessel or other floating device to address potential presence of larvae or waterborne aquatic nuisance species, the only acceptable methods will be rinsing and flushing with water of 120-140 degrees F.

C. To decontaminate the exterior of a vessel or other floating device, remove or destroy attached aquatic nuisance species, all visible mud, plants, and organisms. The entire exterior of the vessel or other floating device, including the trailer and all intakes will be thoroughly decontaminated with hot water (140 degrees F) and as necessary use high pressure water (between 2500-3000psi).

D. All interior vessel or other floating device compartments, equipment and containers that may hold water including, but not limited to live wells, ballast and bilge areas, will be flushed with hot water (up to, but no more than 120 degrees F) at low pressure. If a bilge pump is present, then it will be run until the bilge appears to be empty.

E. The lower unit of the motor or engine will be thoroughly flushed with hot water (140 degrees F).

F. After decontamination, authorized agents, private decontaminators, or qualified peace officers must re-inspect the vessel or other floating device to ensure complete decontamination prior to the release of the vessel or other floating device.

G. Proof for all decontaminations consists of a WID Seal and WID Seal Receipt. Proof of decontamination for an infested mussel boat consists of a WID seal and WID Seal Receipt, in addition to the form “ANS Documentation and Vessel Decontamination Form” provided by the Division. Such forms shall document the reasons for the decontamination, any aquatic nuisance species found, the date and location of the decontamination, and the type of decontamination performed. Authorized agents, private decontaminators, or qualified peace officers will also apply a WID seal to document decontamination procedures.
# 805 - IMPOUNDMENT

A. All vessels or other floating devices are subject to impoundment if:

1. The person in possession of the vessel or other floating device refuses to allow an inspection of the vessel or other floating device to be conducted by an authorized agent or qualified peace officer.

2. The person in possession of the vessel or other floating device refuses to allow a decontamination of the vessel or other floating device when decontamination is ordered by a qualified peace officer.

3. The vessel is unable to be fully decontaminated or the ANS are unable to be completely removed for any reason.

B. If the person in charge of the vessel or other floating device is not the registered owner then the registered owner shall be notified by mail, return receipt requested, within ten days of the location of the impounded vessel or other floating device. Such notification must also include contact information for the qualified peace officer ordering the impoundment. If the registered owner is present when the vessel or other floating device is ordered impounded, then the same information shall be provided to the registered owner at the time the order is issued.

C. All vessels or other floating devices will be held in impound at the risk and expense of the owner. A vessel or other floating device under impound for non-compliance with aquatic nuisance species laws may be released only after a qualified peace officer is satisfied by inspection or quarantine that the vessel or other floating device is no longer a threat to the aquatic resources and water infrastructure of the state. Only a qualified peace officer may authorize the release of the vessel or other floating device.

D. No vessel or other floating device impounded may be moved or released until an impound release form is signed and executed by a qualified peace officer. The Division will provide impound release forms.

# 806 - MONITORING AND IDENTIFICATION

A. All aquatic nuisance species sampling and monitoring will be coordinated with the Division.

B. Aquatic nuisance species sampling equipment, vessels or other floating devices, and gear will be decontaminated at the conclusion of each sampling event in compliance with WID procedures prior to launching on another water of the state.

C. Aquatic nuisance species sampling and specimen collection for plankton tows, substrate sampling, or shoreline surveys will be conducted using standards and procedures approved in writing by the Division in advance of sampling occurring.

D. To initially identify detected waters, the following standards will be applied before notifying the public of the existence of these aquatic nuisance species:

1. Zebra and quagga mussel veligers. A multi-phase testing process involving both visual and molecular identification methods on the same sample will be completed in accordance with the State ANS Sampling and Monitoring Manual available from the Division.

2. Zebra and quagga mussel adults or New Zealand mudsnails. Concurring identification by two or more mollusk identification experts.

3. Non-native crayfish and other crustaceans. Concurring identification by two or more crustacean identification experts.

4. Aquatic nuisance species plants. Concurring identification by two or more aquatic botanical experts.

# 807 - REPORTING ANS FINDINGS

A. Identification of an aquatic nuisance species through sampling and monitoring procedures at a location where that species has not been known to exist will be reported immediately to the Division.

B. If an aquatic nuisance species is suspected, but the identity is not known, for example a plant of unknown identity or organic material resembling juvenile mollusks, then the Division shall be contacted within 48 hours and collected samples will be submitted as stated in regulation # 806C.

C. Any person that becomes aware that an aquatic nuisance species is present at a specific location shall report the aquatic nuisance species presence to an authorized agent or a qualified peace officer of the Division's Invasive Species Program Office. Aquatic nuisance species reports should include the date and time of the detection of the aquatic nuisance species, the exact location of sighting (water body and specific location on the water body), the suspected species, and the name and contact information of the reporter.

D. Aquatic nuisance species or suspected aquatic nuisance species may be reported by:
