WHAT’S NEW: 2019
REGULATION CHANGES & NEW INFORMATION

- **FUTURE GENERATIONS ACT PASSED THE STATE LEGISLATURE:** Thank you to all of the hunters and anglers who helped support the Future Generations Act and Colorado Parks and Wildlife. This act is a huge step for funding wildlife conservation. You’ll see some changes for 2019, including a small fee increase for resident licenses and the Wildlife Education Fund. See full 2018/2019 fee comparison chart online: [cpw.state.co.us/feechanges](http://cpw.state.co.us/feechanges)

- **BIG GAME WALK-IN ACCESS HAS EXPANDED:** The Walk-In Access Program will now offer big-game hunting on many properties across eastern Colorado. There will be overlap in small-game and big-game seasons. Properties that allow big- and small-game hunting are now yellow polygons on the WIA maps in this brochure. Small-game-only properties are white polygons. Properties will be signed with WIA boundary signs. In 2019 these properties are open for big-game hunting to properly-licensed hunters during established big-game seasons from Sept. 1, 2019, through Dec. 31, 2019, and to small-game hunting from Sept. 1, 2019, through Feb. 29, 2020. Big-game hunters must possess a valid pronghorn, deer or elk license valid for the Game Manage-ment Unit (GMU) in which the Walk-In Access property lies. All normal WIA regulations apply. All big-game hunting regulations apply.

**WHAT YOU NEED TO BUY A LICENSE AND HUNT:**
1. **ID.** Secure and verifiable ID. *If you have questions about secure and verifiable identification, please call 303-297-1192, Mon–Fri 8 a.m.–5 p.m.* A Social Security number is required for new hunters ages 12 and older.
2. **PROOF of hunter education.** *(See below.)*
3. **PROOF of residency for Colorado residents.**
4. **HABITAT STAMP.** A 2019 Habitat Stamp is required prior to applying for the draw or buying a license. *(See below.)*

**HABITAT STAMPS ARE REQUIRED FOR HUNTERS**

Habitat Stamps are $10 and only one is required per person, per year for anyone ages 18–64. Stamps are valid April 1–March 31.

- You must purchase a stamp before buying a hunting license.
- A lifetime stamp is $300.25.
- Anyone buying a one-day or additional-day license for fishing and/or small game is exempt from purchasing the Habitat Stamp with the first two of these licenses. The habitat fee will be assessed when a third one-day or additional-day license is purchased for fishing or small game.
- Anyone who holds a free lifetime fishing license, a veteran’s lifetime combination small-game hunting/fishing license or are approved for the Big Game Mobility Impaired Hunting Program is exempt from the Habitat Stamp requirement. See [cpw.state.co.us/accessibility](http://cpw.state.co.us/accessibility).

**HUNTER EDUCATION**

**HUNTER EDUCATION (SAFETY) REQUIREMENTS**
1. Anyone born on or after January 1, 1949, must have a hunter education card to hunt in Colorado.
2. A hunter education card is needed to apply for or buy a license.
3. Your hunter education card must be carried while hunting, unless verified and marked with a “V” on your hunting license. To get your hunter education verified, take your hunter education card to a CPW office *(listed on inside front cover)* or state park.
4. CPW honors hunter education cards from other states, provinces and countries.

**HUNTER EDUCATION EXEMPTIONS**
1. Individuals over age 50 or active duty US military and veterans can obtain a hunter education certificate by testing out of hunter education: [cpw.state.co.us/HunterEdTestOut](http://cpw.state.co.us/HunterEdTestOut)
2. A one-time apprentice certificate can be obtained for hunters who are at least 10 years old and who must be accompanied by a mentor in the field: [cpw.state.co.us/apprenticecertificate](http://cpw.state.co.us/apprenticecertificate)

Please see the CPW website for more information: [cpw.state.co.us/HunterEd](http://cpw.state.co.us/HunterEd)
Thank you. Your hunting and fishing licenses pay to protect Colorado wildlife.

2019 Colorado REGULAR WALK-IN ATLAS

GENERAL

SPECIES IDENTIFICATION
A fully-feathered wing or head must be attached to all birds, except turkeys, doves and band-tailed pigeons, in transit to hunter’s home or commercial processor. For pheasants, a foot with a visible spur can be substituted.

NOTE: While in the field or during transport, all dressed (not fully-feathered) doves, including Eurasian collared-doves, count against the daily bag and possession limit for mourning and white-winged doves during the Sept. 1–Nov. 29 dove season. Eurasian collared-doves must be fully feathered while in the field or during transport at all other times. See more in “Hunting Invasive Species”.

HUNTING INVASIVE SPECIES
Eurasian collared-doves, European starlings and house (English) sparrows are considered invasive species in Colorado. Because of this designation, these species may be hunted year-round. No license or Habitat Stamp is required to hunt invasive species; however, hunters must have and carry with them a hunter education card.

Hunters may harvest any number of each of these species and by any method of take approved for big- or small-game hunting. These species may be taken at night with the use of artificial light and night vision equipment.

Commercial hunting of invasive species is prohibited, as is receiving or attempting to receive compensation by giving falconers, must sign up with HIP each year before their license is valid. You can get a 2019–2020 HIP number beginning on April 1, but can get a HIP number anytime after April 1, as long as it’s before you hunt small game during the 2019–2020 season. Write the new HIP number on your license. To sign up with HIP, call 1-866-265-6447 (1-866-COLOHIP), or go to www.colohip.com. You will be asked for basic information, including how many birds you harvested the previous season and the species you plan to hunt this year. A season means Sept. 1 through March 15 of the next year. This information helps CPW manage migratory bird and resident small-game species by improving harvest estimates.

BEWARE OF HITCHHIKING SEEDS
Many “noxious” weeds reproduce primarily by seed. These seeds are often transported by wind, birds, rodents and other animals, but they can also be carried on shoelaces or pant cuffs. Please help control their spread by taking a few minutes as you leave the field to clean your shoelaces and pant cuffs of any seeds that may have become attached. And don’t forget to give your hunting dog a quick brush over to remove any hitchhiking seeds before traveling to a new hunting spot!

HARVEST SURVEYS
CPW conducts harvest surveys annually to estimate harvest, hunter numbers and recreation days, in addition to assessing satisfaction and crowding. Past small-game surveys are available at cpw.state.co.us/small-game-stats, and updated reports are available after annual surveys conclude. Big- and small-game hunters are selected randomly to participate. Surveys are by telephone, by email or online. If contacted, your participation is not required, but responding — even if you did not hunt or harvest an animal — helps CPW set seasons and license numbers.

HARVEST INFORMATION PROGRAM (HIP)
Small-game, fur-bearer and migratory bird hunters, including falconers, must sign up with HIP each year before their license is valid. You can get a 2019–2020 HIP number beginning on April 1, but can get a HIP number anytime after April 1, as long as it’s before you hunt small game during the 2019–2020 season. Write the new HIP number on your license. To sign up with HIP, call 1-866-265-6447 (1-866-COLOHIP), or go to www.colohip.com. You will be asked for basic information, including how many birds you harvested the previous season and the species you plan to hunt this year. A season means Sept. 1 through March 15 of the next year. This information helps CPW manage migratory bird and resident small-game species by improving harvest estimates.

ENROLL YOUR PROPERTY
Interested in enrolling your land in the Walk-In Access program? CPW wants to enroll quality hunting lands across the state. To offer land for the 2019–20 season, please contact a CPW office for details. See office listings on inside cover.

NOVICE HUNTER PROGRAM
CPW has identified some properties as “Novice Hunter” Walk-In Access Properties. Please see the Late Cropland Walk-In Atlas for more details, or visit our website at cpw.state.co.us/novicehunterprogram.

BE A RESPONSIBLE HUNTER
The WIA program depends on private landowners enrolling property for walk-in hunting and maintaining good relations with those landowners and their neighbors. Here are some additional guidelines that, if followed, will improve the opportunities for all hunters and contribute to future WIA enrollments.

WHERE DESIGNATED PARKING AREAS ARE ESTABLISHED, USE THEM. Do not block gates or roads for the landowner or their agents who may need to work on the property. Do not park along highways. Do not park in tall grassy or weedy areas where your vehicle’s catalytic converter can cause a fire.

IF YOU SMOKE, make sure to completely extinguish cigarettes. Do not smoke or extinguish cigarettes in grassy or weedy areas where you could cause a fire.

DON’T LITTER OR CLEAN HARVESTED BIRDS ON WIA PROPERTIES OR ALONG ROADSIDES. If trash is present, please pick it up.

DON’T SHOOT NEAR OR TOWARDS HOUSES, farm buildings, livestock or equipment.

DON’T HUNT IF CATTLE ARE IN, or adjacent to, enrolled parcels.

Thank you. Your hunting and fishing licenses pay to protect Colorado wildlife.

GENERAL HUNTING LAWS

1. Colorado Parks and Wildlife (CPW) can post firing lines at its properties.
2. It is illegal to kill, capture, injure or harass wildlife from a motor vehicle or an aircraft. It is also illegal to operate aircraft with intent to injure, harass, drive or rally wildlife. It is illegal to discharge a firearm or release an arrow from a motor vehicle or an aircraft.
3. It is illegal to discharge a firearm or release an arrow from, on or across a public road. Hunting with rifles, handguns, shotguns firing a single slug and archery equipment is prohibited within 50 feet on each side of the center line of any public road. On a divided road, the prohibition includes the median, and the 50-foot requirement is measured from the center line of both roads.
4. It is illegal to carry or have a firearm, except a pistol or revolver, in or on a motor vehicle unless the chamber is unloaded. While using artificial light from a vehicle, it is illegal to have a firearm with cartridges in the chamber or magazine, or possess a strung bow unless the bow is cased.
5. You must take edible parts of game meat home to eat or provide it for human consumption. Do not leave wounded wildlife (or wildlife that might be wounded) without attempting to track and kill it.
6. Possession of wildlife is evidence you hunted.
7. Small-game and migratory bird hunters are not required to wear solid, fluorescent orange or pink clothes. However, CPW encourages you to wear fluorescent orange or pink clothes for safety.
8. You must stop at CPW check stations when told to do so.
9. Violations of Colorado wildlife laws carry point values. You can face suspension of license privileges for up to five years or more if you accumulate 20 or more points in five years.
10. During deer, elk, pronghorn and bear seasons, firearms (except handguns) must be unloaded in the chamber and magazine when carried on an off-highway vehicle (OHV). Firearms (except handguns) and bows carried on an OHV must be fully enclosed in a hard or soft case. Scabbards or cases with open ends or sides are prohibited. This regulation does not apply to landowners or their agents carrying a firearm on an OHV for the purpose of taking depredating wildlife on property owned or leased by them.

COLORADO DOVE IDENTIFICATION

There are three types of doves in Colorado.

Knowing how to identify each is important to avoid violating the law while hunting.

White-winged doves are not common in Colorado, and live mostly along the Front Range. The white-winged dove is pioneering new habitats north of its historic range in the southwest U.S. Eurasian collared-doves are sporadic throughout the state. It is an exotic introduced into the United States, and is considered an invasive species.

DOVE BANDING

Mourning doves are banded in Colorado and other states as part of a program to monitor their status.

Hunters should report banded mourning doves to the USGS Bird Banding Lab:

www.reportband.gov

MOURING DOVE

► 12 inches long from tip of beak to end of tail
► Grayish-brown color
► Long, pointed tail
► Rapid wing beat, erratic flight path
► Soft call — “cooAHoo” — followed by several coos

WHITE-WINGED DOVE

► Slightly larger than mourning dove
► Gray-brown color
► Long, moderately rounded tail
► White bar on upper wing surface
► Soft call — “hoo hoo hoo hoo” — with the last note descending

EURASIAN COLLARED-DOVE

► 15 inches from tip of beak to end of tail
► Larger, heavier than mourning dove
► Dark grayish-brown
► Long, squared tail
► Thin black band on neck with white upper border
► Gray belly and undertail coverts with black on tail
► Rapid, three-part cooing — “coo coo coo” — middle coo is longest
1. Lands are open for public access one hour before sunrise until one hour after sunset. When hunting waterfowl, deer, elk and pronghorn, public access is allowed two hours before sunrise until two hours after sunset.

2. Species of take will be restricted as follows:
   a. Lands enrolled and posted as Regular, Late Cropland or Extended Season Walk-In Access properties are open for the take of all small game, furbearers, migratory game birds and Eurasian collared-doves, except Gambel's quail, Gunnison sage-grouse and greater sage-grouse.
   b. Lands enrolled and posted as Big Game Walk-In Access properties are open for the take of deer, elk and pronghorn by hunters holding a valid license for the GMU in which the property lies.

3. Public access is allowed:
   a. From September 1 through the end of February annually for lands enrolled and posted as Regular Season Walk-In Access properties.
   b. From the opening day of pheasant season through the end of February annually for lands enrolled and posted as Late Season Cropland Walk-In Access properties.
   c. From September 1 through the end of the mountain sharp-tailed grouse season annually, for all lands enrolled and posted as Grouse Walk-In Access properties.
   d. From the opening day of pheasant season through the end of March annually for lands enrolled and posted as Extended Walk-In Access properties.
   e. From the opening day of pheasant season through the end of February annually for lands enrolled and posted as Novice Hunter Program Walk-In Access properties.
   f. From September 1 through the end of December annually for lands enrolled and posted as Big Game Walk-In Access properties.

4. Access shall be by foot only. Entry by horseback, motorized vehicle or other means is prohibited.

5. Access is allowed for small-game hunting only; all other activities are prohibited.

6. Access is prohibited as posted when the landowner is actively harvesting crops.

**WALK-IN PROPERTY LAWS**

**KNOW BEFORE YOU GO**

- Public access is allowed:
  1. Lands enrolled and posted as Regular, Late Cropland or Extended Season Walk-In Access properties are open for the take of all small game, furbearers, migratory game birds and Eurasian collared-doves, except Gambel’s quail, Gunnison sage-grouse and greater sage-grouse.
  2. Lands enrolled and posted as Big Game Walk-In Access properties are open for the take of deer, elk and pronghorn by hunters holding a valid license for the GMU in which the property lies.

- Public access is allowed:
  1. From September 1 through the end of February annually for lands enrolled and posted as Regular Season Walk-In Access properties.
  2. From the opening day of pheasant season through the end of February annually for lands enrolled and posted as Late Season Cropland Walk-In Access properties.
  3. From September 1 through the end of the mountain sharp-tailed grouse season annually, for all lands enrolled and posted as Grouse Walk-In Access properties.

- Public access is allowed:
  1. From the opening day of pheasant season through the end of March annually for lands enrolled and posted as Extended Walk-In Access properties.
  2. From the opening day of pheasant season through the end of February annually for lands enrolled and posted as Novice Hunter Program Walk-In Access properties.
  3. From September 1 through the end of December annually for lands enrolled and posted as Big Game Walk-In Access properties.

- Access shall be by foot only. Entry by horseback, motorized vehicle or other means is prohibited.

- Access is allowed for small-game hunting only; all other activities are prohibited.

- Access is prohibited as posted when the landowner is actively harvesting crops.

**WALK-IN PROPERTY SIGNS**

There are a variety of Walk-In Access program boundary signs. Knowing what to look for in the field will help during your hunt.

**ACCESS SIGNS** in the field will have an access date of Sept. 1 through the end of February that tells when the property is open for hunting.

**SAFETY ZONE SIGNS** designate where hunters should park at some walk-in areas. The majority of WIA properties do not have established parking areas. Instead, hunters should park along the road, taking care to stay out of the traveled portion of the road but also not park in tall weeds and grass where a fire hazard exists.

**WARNING! SIGNS**

When that happens, boundary signs are replaced with yellow warning signs to notify hunters the property is no longer available for walk-in hunting. When that happens, boundary signs are

**SAFETY ZONE SIGNS** common on or near WIA properties. These signs are used to delineate safety zones around buildings, homesteads, livestock corrals or neighboring landowners’ homes and properties. Please respect safety zone signs wherever you find them posted.

**WARNING! SIGNS**

This property is no longer available for walk-in access hunting.

**CLOSED! DO NOT HUNT IF FIELDS HAVE YELLOW “WARNING” SIGNS.**

Rarely, it is necessary to remove a property from the WIA program after this brochure is printed. When that happens, boundary signs are replaced with yellow warning signs to notify hunters the property is no longer available for walk-in hunting.

**PARKING SIGNS**

Designate where hunters should park at some walk-in areas. These signs are used to delineate safety zones around buildings, homesteads, livestock corrals or neighboring landowners’ homes and properties. Please respect safety zone signs wherever you find them posted.

**ACCESS SIGNS** have an access date of “The opening day of pheasant season” through the end of February. Properties that are posted to open on the opening day of pheasant season cannot be accessed prior to Nov. 9, 2019.

**EXTENDED ACCESS** properties are posted to close at the end of March, annually. These signs have an access date of “The opening day of pheasant season” through the end of March. These properties cannot be accessed prior to Nov. 9, 2019.

**WALK-IN HUNTING AREA**

Walking Access for Small Game Hunting Only

*September 1 – End of February*

**WALK-IN HUNTING AREA**

Walking Access for Small Game Hunting Only

*Opening Day of Pheasant Season – End of March*

**PARKING AREA**

No Vehicles Beyond This Point!

No Overnight Parking

**FOOT ACCESS ONLY**

**PARKING SIGNS**

Designate where hunters should park at some walk-in areas. These signs are used to delineate safety zones around buildings, homesteads, livestock corrals or neighboring landowners’ homes and properties. Please respect safety zone signs wherever you find them posted.

**SAFETY ZONE SIGNS**

Common on or near WIA properties. These signs are used to delineate safety zones around buildings, homesteads, livestock corrals or neighboring landowners’ homes and properties. Please respect safety zone signs wherever you find them posted.

**WARNING! SIGNS**

This property is no longer available for walk-in access hunting.

**CLOSED! DO NOT HUNT IF FIELDS HAVE YELLOW “WARNING” SIGNS.**

Rarely, it is necessary to remove a property from the WIA program after this brochure is printed. When that happens, boundary signs are replaced with yellow warning signs to notify hunters the property is no longer available for walk-in hunting.

Remember, if you find a WIA property listed in the brochure but boundary signs are not present at the field corners, please do not hunt that field!
SEASON DATES

Select big- and small-game season dates are included within this atlas for your convenience; however, all season dates are not listed.

A complete synopsis of the big-game hunting season dates can be found in the 2019 Colorado Big Game brochure, while the complete small-game hunting season dates can be found in the 2019 Small Game & Waterfowl brochure. These brochures are available at license agents, CPW offices and online in downloadable PDF and interactive, searchable formats at cpw.state.co.us/bg/brochure and cpw.state.co.us/sgwf/brochure.

SMALL-GAME SEASON DATES AND BAG LIMITS

- **COTTONTAIL RABBIT**
- **SNOWSHOE HARE**
- **JACKRABBIT: WHITE-TAILED, BLACK-TAILED**
  - **SEASON**: Oct. 1–end of Feb. 2020
  - **DAILY BAG LIMIT**: 10 of each species
  - **POSSESSION LIMIT**: 20 of each species
- **DOVE: MOURNING, WHITE-WINGED**
  - **SEASON**: Sept. 1–Nov. 29

  **AREA**: Statewide
  - **DAILY BAG LIMIT**: 15 singly or in aggregate for either species
  - **POSSESSION LIMIT**: 45 singly or in aggregate

  **NOTE**: See “Species Identification” on page 2 for transit requirements.

- **DOVE: EURASIAN COLLARED**
  - **SEASON**: Year-round
  - **AREA**: Statewide
  - **DAILY BAG**: Unlimited
  - **POSSESSION LIMIT**: Unlimited

  **NOTE**: See “Species Identification” on page 2 for transit requirements.

- **DUTY FROM OPENING AND CLOSING TIMES**

  **UNLESS OTHERWISE NOTED IN THE 2019 BIG GAME BROCHURE TABLES.** Please refer to the 2019 Big Game brochure for a detailed listing of all dates.

LEGAL HUNTING HOURS

Legal hunting times for big game are one-half hour before sunrise to one-half hour after sunset, unless specifically restricted. Legal times to hunt small game are one-half hour before sunrise to sunset. An exception is made for furbearers, which can be hunted from one-half hour before sunrise to one-half hour after sunset.

The sunrise/sunset chart below lists time in Denver. Subtract 1 minute from opening and closing time for each 12 1/2 miles east of Denver. Add 1 minute to opening and closing time for each 12 1/2 miles west of Denver.

(These changes assume that each degree of longitude equals 50 miles and a change of 1 degree of longitude equals a 4-minute change in sunrise and sunset times.)

DOVE HUNTING TIPS

10 TIPS FOR A SUCCESSFUL COLORADO DOVE HUNT

When it comes to small-game hunting, doves are arguably the greatest challenge for wingshooters. Although these fast flyers are Colorado’s most plentiful game bird, you’ll need to bring your “A” game to fill the 15-bird daily limit. The following tips and information will help you have more fun and put more doves in your game-bag when the season opens statewide Sept. 1:

1. TAKE THE LEAD

By far, the biggest mistake novice dove hunters make is shooting behind birds. Doves are strong fliers, capable of reaching speeds in excess of 55 MPH. Add a tailwind to the equation and it’s easy to see why the only things many dove hunters bring home after a long day in the field are empty shell boxes and bruised shoulders and egos. How much you lead will depend on how fast the bird is moving and the distance of your shot. Additionally, it’s important to swing the shotgun barrel past the bird and maintain your lead after you’ve pulled the trigger. In shooting terminology, this is known as “following through” on the shot. One of the best ways to prepare for dove season is to spend some time on a sporting clays range. Shooting fast-moving clay targets in simulated hunting scenarios will help you dust off your shotgun and fine tune your shooting skills before entering the field.

2. SELECT THE RIGHT CHOKE

Selecting the right choke for your shotgun is key for shooting accurately in the field. Some hunters prefer an improved cylinder and modified choke combination for a 12-gauge over/under. For the first shot, use the barrel fitted with the improved cylinder. If necessary, follow up with a second shot using the more restrictive modified choke. The tighter pattern of the modified choke is more effective at taking doves at longer distances. Some hunters prefer a full choke on the second barrel, but this may be overkill for doves. Not only does the extremely narrow shot pattern make it more difficult to hit birds, but the condensed birdshot typically results in badly damaged doves and breast meat. If you’re using a shotgun without interchangeable chokes, don’t worry. Most shotguns come standard with either improved cylinder or modified barrels, which are ideal for most applications. Grab a box of target or skeet loads (size 7 1/2 or 8 shot) and you’re ready to go.

3. USE DECOYS

Although dove hunting primarily involves pass-shooting birds that are flying to and from roosting and feeding sites, doves respond well to decoys. A spinning-wing Mojo decoy, along with three or four stationary decoys placed in a dead tree or on a fence row, can entice doves within shotgun range. Decoys become even more valuable as the hunting season progresses, and birds become increasingly wary of hunters. See “Do-It-Yourself Dove Decoys” on pages 7–8.

4. WEAR COLORED SHOOTING GLASSES

Try wearing a pair of colored shooting glasses to improve your vision and your ability to identify targets. Unlike standard sunglasses, which tend to make everything appear darker, rose or amber-tinted lenses make your surroundings more vibrant by reducing harsh shadows. In addition, colored lenses restrict your pupils, improving your depth perception and making it easier to separate targets from the background. As an added benefit, shooting glasses also protect your eyes from UV rays and errant birdshot. Amber, vermilion (rose) and orange are all popular choices among wingshooters. Experiment with different colors and see which ones work best for you.

5. STAY CONCEALED IN THE FIELD

Standing out in the open is a bad idea if you’re trying to bag a limit of doves. Sure, you might get away with this tactic on opening morning when naive birds are flying low and slow (for doves). But by mid-afternoon, doves wise up and quickly learn how to avoid shotgun-wielding hunters. It’s important to keep a low profile by crouching under trees or concealing yourself in tall grass. Use shaded areas and vegetation to break up your silhouette. Doves sense movement more than they sense color, so keep perfectly still until you’re ready to shoot.

Unlike turkey or waterfowl hunting, you don’t need to wear full camouflage when hunting doves. Lightweight plaid or drab-colored (brown or green) clothing works just fine. Some hunters prefer to wear a shooting vest or a lightweight hunting shirt that has some blaze-orange or blaze-pink trim. Although not required for small-game hunting in Colorado, the blaze-orange or blaze-pink is highly visible to other hunters, and landowners will appreciate knowing your exact location.
6. HUNT EARLY

Hunting doves in Colorado is an early-season endeavor. Although Colorado’s dove season opens Sept. 1 and continues into November, the window of opportunity for hunters is small. Since mourning doves migrate, most of the fair-weather birds flee the state after the first cold snap, which can happen as early as August in some years. For the best chance of success, you should hit the fields in the first days and weeks after the season opens. Depending on fall weather conditions, localized populations of doves can be found in southeast Colorado into the late season, but hunting is sporadic at best. According to harvest surveys, hunters in Weld, Morgan, Adams, Arapahoe, Logan, Larimer, Yuma, Pueblo, Otero and Prowers counties harvest the greatest numbers of doves each year. And most of these birds are harvested in the early part of September.

7. HUNT EURASIAN COLLARED-DOVES

In addition to native mourning and white-winged doves, Colorado is now home to non-native Eurasian collared-doves (ECDs). ECDs were inadvertently introduced to the United States in the 1970s when several of the birds escaped from a pet shop in the Bahamas. The birds soon made their way to Florida and, over the last four decades, have rapidly expanded across the Western United States and Canada. Unlike native doves, ECDs do not migrate and remain here throughout the winter. Because the birds are prolific breeders, wildlife managers are concerned that ECDs may out-compete native species for food and habitat. To manage populations, Colorado has classified ECDs as an invasive species and has implemented a year-round hunting season coupled with unlimited bag/possession limits. Although ECDs are extremely abundant, locating the birds in areas where hunting is allowed can be challenging. ECDs are primarily urban dwellers that congregate at suburban bird feeders or near busy agricultural centers like feedlots and farms. The birds are larger in size, yield more breast meat, and they don’t count toward the regular limit of mourning doves as long as they remain fully feathered in the field or during transport. And if you can locate them in the winter, ECDs provide a fun, year-round wing-shooting opportunity long after the regular dove season is just a memory.

8. HUNT WALK-IN ACCESS PROPERTIES

More than 115,000 acres are open to dove hunting through CPW’s Walk-In-Access program. Although not all properties support the habitat necessary to hold doves, many areas offer good hunting opportunities. For doves, you should do some preseason scouting and search for areas supporting food crops like wheat stubble, proso-millet stubble and sunflower fields. Areas located near water and roosting sites (dead trees) should also hold good numbers of birds. This Walk-In-Access brochure features detailed maps and GPS coordinates of enrolled properties. Keep in mind that all WIA properties are privately owned land that CPW has leased for public hunting. Please help maintain these areas by picking up empty shell casings and properly disposing of harvested birds.

9. READ THE SMALL GAME & WATERFOWL BROCHURE

The Colorado Small Game & Waterfowl brochure features a wealth of information for hunters. In addition to providing season dates and bag/possession limits, the brochure includes species profiles and general hunting tips. The online brochure also features video tutorials to help you get the most out of your experience this fall. It’s a must-read before entering the field.

10. DON’T FORGET YOUR HIP

One of the most common items that small-game hunters forget about every year is the Harvest Information Program (HIP) number. Yet, registering for an HIP number is fast and easy. Simply go to the Colorado HIP website at www.colohip.com, or call 1-866-COLOHIP to obtain a number. Be sure to write the HIP number in the space provided on your small-game license. The HIP helps wildlife managers establish harvest estimates for doves and other migratory birds. A small-game license AND HIP Number are required to hunt doves and other small-game species in Colorado.

DO-IT-YOURSELF DOVE DECOYS

Colorado’s dove season opens Sept. 1. Hunters seeking every advantage in the field understand the benefit of using decoys to attract doves. These DIY decoys are perfect for the budget-minded hunter. Simply photocopy the decoy images on page 9, increasing the size by 150%. Next, cut out the images and glue to a piece of thin cardboard like a cereal box or a thick file folder destined for the recycle bin. Cut them out again, following the outline of the bird. Finally, fold in half. For more protection, spray the assembled decoys with lacquer. Once in the field, attach the decoys to dead branches and fences using clothespins or binder clips. The 2019 season for mourning doves and white-winged doves runs through Nov. 29. The Eurasian collared-dove season is year-round with an unlimited daily bag and possession limit. See “Season Dates” on page 5 for season dates and bag/possession limits. For decoy images to download, go to: coloradooutdoorsmag.com/2013/08/26/diy-dove-decoys/

Reading the Maps

NEW! In this Walk-In Atlas, lands enrolled in the Walk-In Access program for small game hunting only are colored in WHITE.

Colorado Parks and Wildlife is offering a Big Game Access program on select Walk-In Access properties. Properties that allow big game hunting are colored in YELLOW.

Do not hunt on fields depicted in this atlas unless you also see Walk-In Access Program signs posted on the boundaries.
