**Annual stocking information to be provided for the period of January 1 to December 31.** List fish/eggs imported and/or stocked by total number for each species, size, originating and/or distributing facility, importation and/or stocking date, and destination facility and/or stocking location. Annual Stocking Report information is preferred to be submitted in electronic format (spreadsheet in MS Excel if possible). Clearly legible handwritten forms are acceptable.

**New import licenses and/or stocking authorizations will not be issued until Annual Reports are received.** Colorado Aquaculture permitted facilities must report where all fish came from (originating facilities) and their destinations (Colorado Aquaculture Facility, Colorado Aquaculture permittee transferred to, and/or stocking location). Out of state permitted facilities must report the destination facility of imported fish or the stocking location.

Originating Facility Name/Location	Date(s) Imported/stocked	Species (and strain when applicable)	Average size (list total number)			Destination (Colorado aquaculture facility name & location; or stocked water description & location) <b>STOCKING LOCATION: Attach marked map; GPS (UTM coordinates); or Colorado Atlas Page and coordinates; and/or Township, Range, Section, ¼ Section and County</b>
			Eggs/Fry	Subcatchable (<9 inch)	Catchable (>9 inch)	

Originating Facility Name/Location	Date(s) Imported/ Stocked	Species (and strain when applicable)	Average size (list total number)			Destination (Colorado aquaculture facility name & location; or stocked water description & location) STOCKING LOCATION: Attach marked map; GPS (UTM coordinates); or Colorado Atlas Page and coordinates; and/or Township, Range, Section, ¼ Section and County
