No permit will be required for the transportation of dead prairie dogs to raptor rehabilitation facilities or black-footed ferret facilities provided that the prairie dogs were euthanized at the prairie dog town before being transported. However, a donation report must be submitted to the District Wildlife Manager for the capture site **within 5 working days**. **The donation report must be signed by someone who represents the receiving facility verifying that the number of prairie dogs on the report form were delivered to the facility on the date specified.**
