F. Special Licenses for Nuisance Turkeys

1. The Director shall have the authority to establish special hunting seasons for turkeys, between December 1 and March 31 on an annual basis, when necessary to control nuisance turkeys. The Area Wildlife Manager will determine the type of license(s) (either-sex or hen only) most appropriate to control the conflict.
 - a. Nuisance turkey hunts are limited to a maximum of 50 licenses per landowner, per year.
 1. The Area Wildlife Manager shall provide the landowner with special application forms for distribution to individuals of their choice. Participants shall submit the completed application form with payment to the Division office indicated on the application. Nuisance turkey licenses shall be sold at the fall season license price.
 - b. Prior to approving the hunt, the Division shall:
 1. Verify that conflicts are occurring.
 2. Designate what area shall be open to hunting.
 3. Determine the manner of hunting that will be permitted.
 4. Determine the number of hunters allowed to hunt in each designated area.
 - c. Hunting will be done under the direction of a District Wildlife Manager, following approval by the owner of land where such conflict is occurring.
 - d. Hunters shall hunt in designated areas and on the dates indicated on the license.
 1. A map or a written description of the designated area open to hunting (which would include, but would not be limited to landowner(s) name, game management unit, township, range and section(s) and/or identification of landmarks such as roads, rivers, or fence lines which coincide

with boundaries), will be provided to each licensed hunter by the Division.

- e. Any person who purchases a license for a nuisance turkey season shall be required to complete a Division harvest survey form and return it to the Area office that is nearest the location of the hunt no later than 5 days after the season ends.

Basis and Purpose:

Turkey regulations have been revised to update harvest limit quota numbers and season dates for 2025. Turkey harvest limit quotas and seasons are established to maintain healthy populations while at the same time providing recreational opportunity. Ongoing population analysis and management necessitates or makes possible reductions in turkey harvest in some Game Management Units and additional turkey hunting opportunities in others. These regulations have been modified to promote healthy turkey populations and provide for proper turkey management and recreational opportunities in accordance with the best available science.

Correcting the HIP phone number

These regulations correct the phone number for completing the Harvest Information Program or HIP.

Adding game management unit 63 to the list of valid units for the fall over-the-counter turkey licenses

Game management unit (GMU) 63 is located in the Southwest Region of Colorado, and is one of only three GMUs in the Region that is currently not open to fall over-the-counter (OTC) turkey hunting. GMU 63 was originally excluded from the OTC fall hunting season after a turkey reintroduction effort occurred more than a decade ago. Hunting opportunity was originally limited to protect the growing turkey population and allow for successful reestablishment. Now there is a stable number of turkeys spread throughout GMU 63 and neighboring units. At this time, the population is now robust and healthy enough to sustain an OTC fall hunting season, which is also consistent with the surrounding GMUs.

The statements of basis and purpose for these regulations can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing dnr_cpw_planning@state.co.us or by visiting the Division of Parks and Wildlife headquarters at 6060 Broadway, Denver, CO, 80216.

EFFECTIVE DATE - THESE REGULATIONS SHALL BECOME EFFECTIVE JANUARY 1, 2025, AND SHALL REMAIN IN FULL FORCE AND EFFECT UNTIL REPEALED, AMENDED, OR SUPERSEDED.

APPROVED AND ADOPTED BY THE PARKS AND WILDLIFE COMMISSION OF THE STATE OF COLORADO ON THIS 14TH DAY OF NOVEMBER 2024.
