Spinney Mountain State Park is nestled in the southeast corner of South Park at the foot of Spinney Mountain. Spectacular views of the acclaimed Collegiate Peaks in the Sawatch Range to the west and Thirty-nine Mile Mountain to the southeast make the park an isolated retreat. Thanks to its 2,500 surface-acre reservoir and prime locations along the South Platte River, the park offers visitors exceptional boating, picnicking and waterfowl hunting; but the prized attraction is its nationally-renowned fishing.

Wildflowers are abundant. Deer, coyote and pronghorn roam the region. Ducks, Canada geese, grebes, rails and pelicans are common. Bald and golden eagles make cameo appearances in the park.

Built in 1982, its season lasts approximately April 15th to November 15th. The park closes on November 15 to ice-off annually.

From Colorado Springs take Highway 24 west for 55 miles. Turn left on Park County Road 23, go 2.8 miles. Turn right on County Road 59 and go 1.1 miles to the park entrance. Spinney Mountain State Park is located 8.8 miles west of Eleven Mile State Park off of County Road 59.

Fishing

Spinney Mountain is designated a “gold medal water” and is home to trophy-size cutthroat, rainbow and brown trout as well as northern pike. Fishing is by artificial fly and lure only. Bait fishing and snagging are prohibited. For a complete listing of fishing regulations and definitions, please consult the current Colorado Fishing Regulation Brochure. Different bag and possession limits apply on the reservoir; the river upstream from the reservoir; and the river below the dam.

The area within the chain-link fence below the dam and the Homestake Diversion Channel are closed to fishing.

All islands and the face of the dam are closed to all public use.

Picnicking

Spinney Mountain offers approximately 20 picnic areas.

Hunting

Waterfowl, big game, small game can be hunted at Spinney through the operating season, during lawful seasons, in areas that are not closed to hunting.

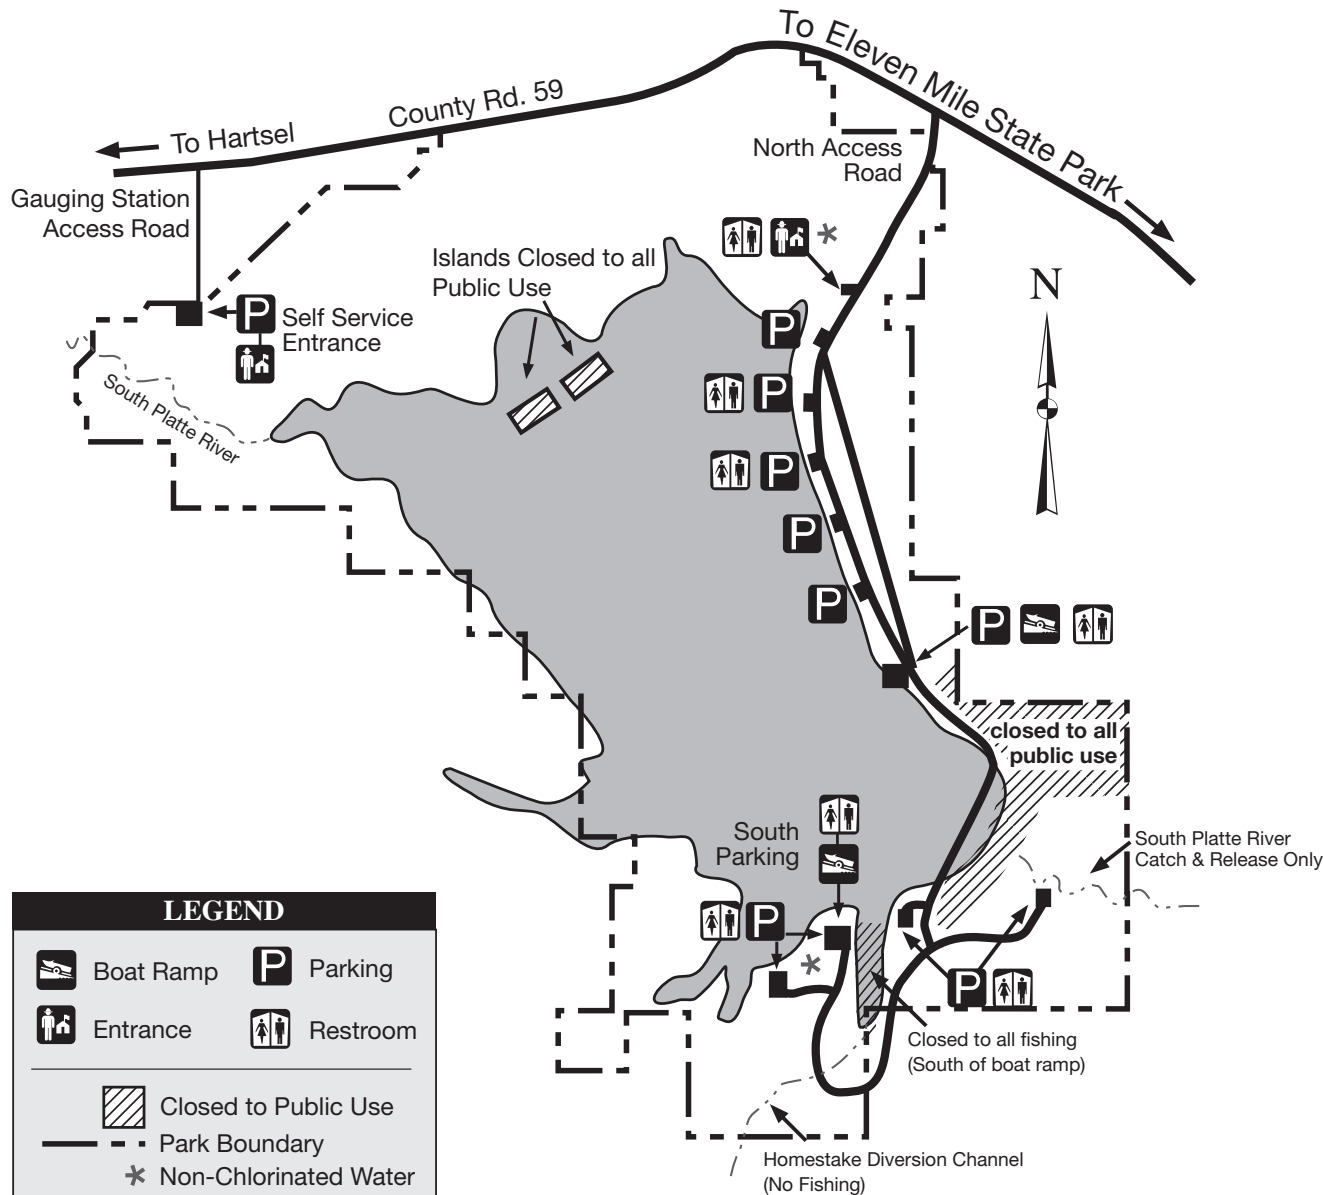

Boating/Windsurfing

South Park winds can blow in gusts of 30-40 miles per hour and create five-foot waves on Spinney so, for safety, the bigger the boat the better.

Boat ramps are located on both the north and south sides of the reservoir. Boaters must observe Colorado boating statutes and regulations. Wind surfing is allowed, A full-body wetsuit is recommended.
