RE: Chapter W-5 Final Regulations for the March 2021 Parks and Wildlife Commission Meeting
DATE: March 5, 2021

Final regulatory changes for Chapter W-5 are summarized below. If there are questions about the agenda item below, or if additional information is needed, please feel free to contact me at 303-866-3203 x4609 or krista.heiner@state.co.us.

Agenda Item 12: Chapter W-5 - "Migratory Birds" 2 CCR 406-5 (Step 2 of 2)

These proposed regulations reflect the upcoming 2021-2022 migratory bird seasons and are the result of an annual review of the entire chapter related to migratory birds. The established seasons are necessary to manage migratory bird populations in Colorado in accordance with federal laws regulating migratory birds. These regulations allow migratory birds to be harvested in a manner, which helps maintain the biological integrity of the migratory bird population while at the same time providing recreational opportunity for hunters and wildlife viewers. The regulations are also consistent with Federal guidelines provided by the U.S. Fish and Wildlife Service and the Migratory Bird Treaty Act.

Eliminating the Northern Front Range goose zone and combining it with the Balance of the Central Flyway goose zone

The annual Northern Front Range goose zone season was previously split into a short, early segment and a longer, later segment. The purpose of the early season was to provide opportunity to harvest resident Canada geese, which have a well-established, year-round population along the Front Range. However, opportunities to harvest resident Canada geese during the early season segment are declining on the Front Range due to development, and this trend is expected to continue. To help simplify hunting regulations and reduce confusion, the Northern Front Range goose zone has been eliminated and combined with the Balance of Central Flyway zone. There is no loss in overall hunting opportunity, as the days have simply been shifted later. Furthermore, staff anticipates no measurable impact on harvest of resident geese along the Front Range, as resident geese are harvested throughout the later segment of the season.

4. Nothing in this regulation shall prohibit the taking of any migratory game bird, except waterfowl, coots, and cranes, on or over the following lands or areas that are not otherwise baited areas:

ARTICLE VI - FALCONRY

#518 – SPECIAL FALCONRY REGULATIONS

- A. Falconry is a permitted means of taking migratory game birds during regular or extended seasons.
 - 1. Regular Seasons
 - a. General hunting regulations prescribed in this chapter, including seasons and hunting hours, apply to falconry. General season bag and possession limits do not apply to falconry.
 - b. Daily bag and possession limits for all permitted migratory game birds shall not exceed 3 and 9 birds, respectively, singly or in the aggregate. The falconry bag limit is not in addition to gun limits.
 - 2. Extended Seasons

a. There are no extended seasons.

Basis and Purpose:

These proposed regulations reflect the upcoming 2021-2022 migratory bird seasons and are the result of an annual review of the entire chapter related to migratory birds. The established seasons are necessary to manage migratory bird populations in Colorado in accordance with federal laws regulating migratory birds. These regulations allow migratory birds to be harvested in a manner, which helps maintain the biological integrity of the migratory bird population while at the same time providing recreational opportunity for hunters and wildlife viewers. The regulations are also consistent with Federal guidelines provided by the U.S. Fish and Wildlife Service and the Migratory Bird Treaty Act.

Eliminating the Northern Front Range goose zone and combining it with the Balance of the Central Flyway goose zone

The annual Northern Front Range goose zone season was previously split into a short, early segment and a longer, later segment. The purpose of the early season was to provide opportunity to harvest resident Canada geese, which have a well-established year-round population along the Front Range. However, opportunities to harvest resident Canada geese during the early season segment are declining on the Front Range due to development, and this trend is expected to continue. To help simplify hunting regulations and reduce confusion, the Northern Front Range goose zone has been eliminated and combined with the Balance of Central Flyway zone. There is no loss in overall hunting opportunity, as the days have simply been shifted later. Furthermore, staff anticipates no measurable impact on harvest of resident geese along the Front Range, as resident geese are harvested throughout the later segment of the season.

The statements of basis and purpose for these regulations can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing dnr_cpw_planning@state.co.us. The statements of basis and purpose are not available at the Division of Parks and Wildlife headquarters due to the closure of these facilities to the public in light of the COVID-19 pandemic.

The primary statutory authority for these regulations can be found in § 24-4-103, C.R.S., and the state Wildlife Act, §§ 33-1-101 to 33-6-209, C.R.S., specifically including, but not limited to: §§ 33-1-106, C.R.S.

EFFECTIVE DATE - THESE REGULATIONS SHALL BECOME EFFECTIVE MAY 1, 2021 AND SHALL REMAIN IN FULL FORCE AND EFFECT UNTIL REPEALED, AMENDED OR SUPERSEDED.

APPROVED AND ADOPTED BY THE PARKS AND WILDLIFE COMMISSION OF THE STATE OF COLORADO THIS 17TH DAY OF MARCH, 2021.
