Denver, CO 80216  
P 303.866.3203

**TO:** Members of the Colorado Parks and Wildlife Commission  
**FROM:** Krista Heiner, Regulations Manager  
**RE:** May 4-5, 2022 Parks and Wildlife Commission Meeting, Regulatory Items  
**DATE:** April 22, 2022

The regulatory items detailed below are scheduled to be addressed at the Colorado Parks and Wildlife Commission's May 4-5, 2022 meeting.

If there are questions about any of the agenda items below, or if additional information is needed, please feel free to contact Krista Heiner at 303-291-7625 or [krista.heiner@state.co.us](mailto:krista.heiner@state.co.us).

### FINAL REGULATIONS

#### **Agenda Item 12: Chapter W-2 - "Big Game" - 2 CCR 406-2 (Step 1 of 1)**

Open for final consideration of regulations, including but not limited to, the following:

- Adoption of all limited license numbers for black bear, deer, elk, pronghorn and moose for all Game Management Units in the state that have limited licenses for these species for the 2022 big game seasons.

#### **Agenda Item 13: Chapter W-0 - "General Provisions" - 2 CCR 406-0 (Step 1 of 1)**

Open for final consideration of the following regulations:

- Updating the common name of *Ptychocheilus lucius*.

#### **Agenda Item 14: Chapter W-10 - "Nongame Wildlife" 2 CCR 406-10 (Step 1 of 1)**

Open for final consideration of the following regulations:

- Removing rubber buckshot and rubber slugs from the list of authorized hazing techniques codified in W-1000.A.10.a.
- Repealing and restating emergency regulation W-1005.1.a to remove rubber buckshot and rubber slugs from the list of authorized hazing techniques.
- Updating the common name of *Ptychocheilus lucius* codified in W-1003.A.1.
- Updating the common name of *Ptychocheilus lucius* codified in W-1004.A.1.

#### **Agenda Item 15: Chapter P-1 - "Parks and Outdoor Recreation Lands" - 2 CCR 405-1 (Step 2 of 2)**

Open for final consideration of regulations including, but not limited to, the following:

- Pilot testing a timed entry reservation system at Eldorado Canyon State Park.

### MEMORANDUM

TO: Colorado Parks and Wildlife Commissioners

FROM: Dan Prenzlów, Director

DATE: April 22, 2022

SUBJECT: Limited license recommendations for deer, elk, pronghorn, moose, and black bear

This letter is a summary and explanation of the enclosed Colorado Parks and Wildlife (CPW) annual limited big game license recommendations for the 2022 big game hunting season. The sum of these recommendations is 269,000 limited licenses, for 2,800 individual hunt code quotas, that represent the majority of the hunting opportunity for over 800,000 big game animals.

Additional details are included in both regulation form and in a series of table summaries titled 2022 Big Game License Recommendations Summary. The summary tables were sent to the Parks and Wildlife Commissioners and posted to the CPW Commission webpage. They can be found at the following link:

<https://cpw.state.co.us/aboutus/Pages/CommissionMeeting2022-5.aspx>

Information in these tables, hereafter referred to as Summary Tables, transitions from a high-level summary to increasingly species-specific. Page 1, which has bulleted highlights, and Page 2 with Regional and Statewide totals for all species are particularly informative. After that, each species has a table with license totals and changes for every population as well as figures and data demonstrating factors important to license setting.

The 2022 license recommendations are based on evaluation of previous harvest, age and sex classification data, survival estimates from radio-collared animals, population estimates, herd performance and trends, hunter distribution, Big Game Season Structure (BGSS) dates and timing, past licensing trends, and social considerations for each big game herd in Colorado.

The Colorado Parks and Wildlife Commission publicly approves each Herd Management Plan (HMP), Bear Management Plan, BGSS dates, and all limited license recommendations. The HMP for each herd incorporates the capability of the habitat to support big game populations, other social and biological limiting factors, and input from the public, organizations, and other agencies about their issues and concerns regarding hunting management and herd objectives. Annual harvest objectives and the resulting license recommendations for all hunts

are designed to achieve the management objectives approved in the HMP. Female license increases are recommended in herds that are performing well and are within or above population objective ranges and female license reductions are recommended in herds that are within or below population objective ranges. CPW staff use previous 3-year averages of hunter success rates to predict current year harvest rates for setting license recommendations necessary to achieve harvest objectives.

A Data Analysis Unit (DAU) is the geographic area and identifying number of a relatively discrete big game population or herd. DAUs can contain multiple Game Management Units (GMUs), which are geographic areas delineated to distribute hunters.

## Deer

Approximately 218,000 hunters applied for Colorado deer licenses in 2022. The majority of deer hunting in Colorado is managed by limited licenses; the only exceptions are over-the-counter (OTC) white-tailed deer licenses available in the Southeast Region.

CPW staff are recommending a similar statewide total deer license number as last year; all changes result in a decrease of 500 deer licenses (-<1%) to 102,000 limited licenses.

Plains deer quota recommendations are similar to last year with a total quota recommendation of 20,500 (-94, -<1%) for 2022.

For all rifle seasons statewide, we are recommending a total decrease of 520 (-1%) buck licenses and no change in either-sex licenses. Buck license recommendations were reduced in herds that are now within or below HMP sex ratio objective ranges (examples include D-9 Middle Park, D-24 Groundhog, D-40 Cimarron, and D-52 Hermosa).

Buck license recommendations were increased in herds that are within or above HMP sex ratio objectives (examples include D-3 North Park, D-29 Mesa Verde, and D-34 Wet Mountains, and D-51 South Grand Mesa). Twenty-four of 54 (44%) of the state's deer herds have sex ratios above their HMP sex ratio objective ranges.

In DAUs where CWD prevalence is greater than 5%, management actions have been implemented to reduce prevalence, including buck license increases to manage sex ratios to the lower end of HMP sex ratio objectives for several herds (examples include D-3 North Park (9% prevalence), D-41 Logan Mountain (6% prevalence) and D-51 South Grand Mesa (7% prevalence)).

HMP sex ratio objectives, observed sex ratios, and CWD prevalence estimates for each herd are included in the Deer Table, which is page 6 of the Summary Tables.

The statewide total rifle antlerless license recommendation is 19,320, up from 19,150 (+170, +1%). Antlerless license increases are recommended in herds that are performing well and are within or above population objective ranges, and to address or prevent game damage. Alternatively, these recommendations keep regular season doe licenses at the minimum of 10 licenses per hunt code for all deer DAUs west of I-25 that are below population objective. In

these below-objective herds, the majority of doe licenses are private-land-only licenses to address game damage. Private-land-only licenses and licenses with special restriction to address deer conflicts near towns make up over 80% of the doe licenses in below-objective herds.

Antlerless license reductions are recommended in herds that are within or below HMP population objective ranges (examples included D-7 White River, D-34 Wet Mountains, and D-55 Arickaree).

Antlerless license increases are recommended in herds that are within or above HMP population objective ranges (examples included D-21 West Elk, D-22 Taylor River, D-25 Powderhorn, D-29 Mesa Verde, and D-30 San Juan).

The statewide post-hunt 2021 deer population estimate is 416,000, down from 428,000 last year. The sum of statewide population objective ranges is 438,000-520,000 for all 54 deer herds combined. In 2021, 26 of 54 (48%) deer DAUs are within their population objective ranges. The statewide deer population has averaged 420,000 over the last 11 years. The decade prior to that was marked by significant declines in the some of the large westernmost herds in the state. Diverse habitat types and environmental conditions around the state create considerable geographic variability in population performance.

CPW annually monitors well over 1,000 radio-collared mule deer in five Intensive Mule Deer Monitoring Areas to estimate survival. CPW also conducts post-hunt herd inventories, primarily with helicopters, to estimate the sex ratios of males/100 females and the age ratios of young/100 females. In addition to survival rates, these ratios are needed to estimate population size using population models. The Summary Tables include the number of animals classified and sex ratios by DAU, Region, and statewide.

The average of sex ratio objectives for deer herds statewide is approximately 30 bucks/100 does, the averages of HMP sex ratio objective range minimums and maximums is 27 and 31 bucks/100 does respectively. During the post-hunt herd inventories in 2021, CPW staff classified 78,000 deer and observed an average sex ratio of 29 bucks/100 does. The statewide average observed age ratio from helicopter inventory was 59 fawns/100 does, the same as observed in 2020.

Many deer herds are performing well and others are stable but at much lower population sizes than desired. Colorado remains a premier destination for deer hunters.

## **Elk**

In 2022, approximately 238,000 hunters applied for Colorado limited elk licenses. All rifle antlerless, muzzleloader, first, fourth, and late season elk licenses are limited. Archery licenses and second and third rifle bull seasons in many GMUs are also limited.

CPW is recommending 123,100 limited elk licenses, down 800 (-<1%) licenses from last year.

Archery hunting in elk DAU E-32 Lower Rio Grande was limited starting in 2022. Converting what were previously over-the-counter unlimited licenses to limited licenses results in an increase of 2,000 limited archery licenses, which masks the magnitude of the actual reduction in total limited licenses.

Continuing with an 18-year trend, antlerless elk license recommendations are reduced from last year by 1,300 (-2%) to 64,500. The statewide total for antlerless elk licenses is now less than half of what it was at its peak in 2004 of 132,500, see Page 4, Quota Breakdown History. Antlerless elk license reductions are the result of a combination of herds achieving HMP population objectives through antlerless harvest, low calf/cow ratios reducing population productivity, and increases in HMP population objective ranges.

The 2021 post-hunt estimate of 309,000 is up from the 294,000 in 2020. The statewide elk population is increasing, elk populations are responding to reductions in antlerless harvest. The sum of Colorado's post-hunt HMP population objective ranges for elk statewide is 252,000-306,000 for all 42 elk herds combined. The sum of statewide objective ranges is partially based on historic HMPs. Plans written before 2001 were written with outdated population models that underestimated elk numbers; as we update plans, we expect population objectives to change. Because season and license setting is designed to use antlerless harvest to bring elk populations to herd objectives, further reductions in antlerless licenses are anticipated in the future as more elk populations reach objectives or population objectives increase.

As we've intentionally reduced elk populations to achieve population objectives, hunters and outfitters increasingly have expressed concern that elk populations are becoming too low in some herds, despite the fact that 20 of 42 (48%) elk herds are above their current population objective ranges. Nonetheless, public perception of the desired number of elk in Colorado varies. CPW gives serious consideration to changing population objectives in herds as HMPs are updated and tries to balance public interests of landowners, local communities, public land management agencies, and hunters. Long-term experience with balancing these interests has informed CPW on the upper and lower social thresholds for elk population size in many herds, which benefits us greatly in herd management planning efforts.

The average of post-hunt sex ratio objectives in totally limited elk DAUs and expected sex ratios in over-the-counter DAUs for elk herds statewide is approximately 24 bulls/100 cows. In 2021, during the post-hunt herd inventories, CPW staff used primarily helicopter surveys to classify 108,000 elk and observed a statewide average sex ratio of 21 bulls/100 cows, compared to 20 bulls/100 cows in 2020.

During these surveys over the past decade, CPW has documented declining calf/cow ratios in the southern half of the state. Northern Colorado historically has had higher calf ratios by about 10 calves/100 cows. In 2021, we observed 40 calves/100 cows during post-hunt herd inventories compared to 39 calves/100 cows in 2020. Elk research and continued management changes are necessary since calf production remains low in many herds. Low calf ratios reduce the number of elk licenses CPW can issue.

The 2022 reductions in antlerless licenses are consistent with licensing trends of the last 18 years because many herds are near the desired population size and some have lower calf ratios. Having a combination of units that are limited in all seasons and units with both limited and over-the-counter hunting seasons allows us to offer a wide range of hunting opportunities on the nation's largest elk population.

## **Pronghorn**

In 2022, approximately 93,000 hunters applied for Colorado limited pronghorn licenses. The majority of pronghorn licenses are limited, with the notable exception of over-the-counter archery licenses available in 70% of GMUs.

CPW is recommending 22,200 limited pronghorn licenses, down 1,400 (-6%) licenses from last year.

Recommended license reductions are in the Southeast and Northeast Regions (examples include PH-1 Escarpment, PH-5 Haswell, PH-7 Thatcher, PH-12 Cheyenne, and PH-13 Tobe).

Pronghorn license reductions are the result of both new HMP's with increases in population objective ranges and lower fawn/doe ratios due to drought reducing population productivity. Many of these herds are within, but at the bottom of new HMP population objective ranges. We consistently observe lower pronghorn fawn production and survival in drought years such as 2021.

The estimated statewide post-hunt pronghorn population is 78,000, up from 77,000 in 2020. The sum of statewide population objective ranges for hunted pronghorn herds is 69,000-81,000 combined. Seven of 29 (24%) pronghorn DAUs are within HMP population objective ranges.

Pronghorn license reductions account for lower fawn production resulting from poor forage conditions and drought. Herds should respond quickly when we receive better moisture in the future. Colorado offers some excellent hunting for one of North America's most iconic animals.

## **Moose**

Demand far exceeds allocation; 54,000 individuals applied for moose in 2022.

For 2022, we are continuing the trend of increasing license recommendations with a total of 592 limited moose licenses, an increase of 60 (+11%) from last year.

These recommendations include 251 (+17, +7%) bull and either-sex licenses and 341 (+43, +14%) antlerless licenses.

Antlerless moose license recommendations are designed to manage moose populations toward HMP population objectives and keep moose populations within the capability of their habitat. Almost half of the antlerless license increases are in M-1 North Park. Additionally, antlerless licenses have considerably lower success rates than antlered licenses.

The estimated statewide 2021 post-hunt moose population is 3,500, up from 3,200 in 2020.

We now have moose hunting in 74 GMUs, up from 39 GMUs in 2013. We are fortunate our moose populations continue to do well because many other states are experiencing declines in moose. The growing number and distribution of moose in Colorado have resulted in greater hunting and viewing opportunities.

## **Black Bear**

In 2022, CPW is recommending 20,700 limited licenses for all seasons and methods of take for black bear. This is the same as last year's quota and therefore represents no change. In 2022, statewide harvest is projected to be about 1,500 bears with a statewide total mortality of approximately 2,000 bears. As in 2021, the availability of add-on OTC bear licenses in half of Colorado's 17 DAUs is expected to continue to help reach harvest objectives in those specific units.

Bear season structure changes implemented as part of the BGSS in 2020 were designed to remove unnecessary barriers to bear hunting whenever possible to achieve DAU harvest objectives, while still managing bear hunter crowding during the early seasons or in quality deer and elk units.

Current management objectives are to reduce bear populations in 9 DAUs and stabilize populations at present levels in the remaining 8 DAUs. These DAU objectives are what guided managers' selection between one of the two bear licensing strategies that are available to structure hunting opportunity under the 2020-2024 BGSS. Over-the-counter licenses will be available during archery, muzzleloader and concurrent rifle seasons in 9 DAUs (plus B-99 Eastern Plains), as well as all statewide PLO hunts.

Continuation of the non-resident bear license fee reduction implemented in 2019, coupled with the availability of OTC bear licenses in many DAUs, contributed to an increase of 3,000 more licenses sold in 2021 over 2020. This increase in hunters in DAUs selected for the unlimited add-on license strategy successfully generated additional harvest towards management goals.

## **Conclusion**

The 2022 big game license recommendations are biologically sound, based on management plans, and provide for an economically significant and diverse amount of big game hunting throughout Colorado. These recommendations and the associated OTC licenses provide the opportunity for more than 300,000 hunters to enjoy the incredible big game resources of the State. They also represent thousands of hours of employees' collective efforts to conduct herd inventories, obtain harvest estimates, incorporate this information into predictive models, and finally to set limited license recommendations. I am pleased to present these recommendations as a testament to the incredible wildlife resources CPW manages for the enjoyment of the people of Colorado and its visitors.

If you have any questions on this information, or anything else about limited license numbers, feel free to give me a call prior to the Commission meeting. Thank You.

# 2022 BIG GAME LICENSE RECOMMENDATION SUMMARY BY SPECIES

April 21, 2022

## DEER

- CPW staff are recommending a similar statewide total deer license number as last year; all changes result in an decrease of 500 deer licenses (-0.4%) to 102,000 limited licenses.
- For all rifle seasons, we are recommending a statewide total decrease of 520 (-1%) buck, no change in either-sex, and increase of 170 (+1%) antlerless licenses.
- Buck license recommendations were reduced in herds that are now within or below Herd Management Plan (HMP) sex ratio objective ranges (examples include D-9 Middle Park, D-24 Groundhog, D-40 Cimarron, and D-52 Hermosa).
- In DAUs where CWD prevalence is greater than 5%, management actions were taken to reduce prevalence, including buck license increases for several herds (examples include D-3 North Park (9% prevalence), D-41 Logan Mountain (6% prevalence) and D-51 South Grand Mesa (7% prevalence)).
- Antlerless license increases are recommended in herds that are within or above HMP population objective ranges (examples included D-21 West Elk, D-22 Taylor River, D-25 Powderhorn, D-29 Mesa Verde, and D-30 San Juan).
- Antlerless license reductions are recommended in herds that are within or below HMP population objective ranges (examples included D-7 White River, D-34 Wet Mountains, and D-55 Arickaree)

# 2022 BIG GAME LICENSE RECOMMENDATION DEFINITIONS

April 21, 2022

**Add-on Black Bear License:** Archery and muzzleloader unlimited OTC black bear licenses only available to purchase by hunters who have a deer or elk license for the same manner of take and GMU.

**Age Ratio:** Number of young-of-the-year per 100 females in a herd. Age ratios are observed during big game surveys and provide an estimate of the number of young that were born in summer and survived until the survey. Age ratios are a measure of herd productivity and are used in population modeling.

**Antlered License:** A deer, elk, or moose license that is valid for the take of any animal with an antler or antlers of at least five inches in length.

**Antlerless License:** A deer, elk, or moose license that is valid for the take of any animal without antlers or with antlers of less than five inches in length.

**Black Bear Age and Gender Composition:** Metrics used as indicators of black bear population trajectory in relation to harvest levels. Harvested black bears are divided into 4 age-sex classes (adult male, adult female, subadult male, and subadult female).

**% Adult Male in Harvest:** The adult male segment of a population is the first to be reduced under increasing hunter pressure, therefore proportions of adult males (>5 yr old) in the harvest can indicate stability, increase or decrease in the population.

**% Female in Harvest:** As harvest levels increase and additional adult and sub-adult males are removed, the proportion of females of all ages in the harvest begins to increase. Therefore, proportions of females of all ages in the total harvest can indicate stability, increase or decrease in the population.

**% Adult Females in Female Harvest:** With increasing harvest, younger females are removed and older females (>5 yr old) become more common in the harvest. Thus, the proportion of adult females in the female harvest should rise with increasing harvest rates, indicating stability, increase or decrease in the population.

**Classified Animals:** During big game surveys, animals are categorized by age and sex. That is, animals are identified as adult males, adult females and young-of-the-year. These classifications are then used to calculate sex and age ratios.

**Concurrent Rifle Season:** Limited and unlimited black bear seasons that occur during the regular deer and elk rifle seasons. There are both regular concurrent and PLO concurrent black bear seasons.

**Chronic Wasting Disease (CWD):** A fatal neurological disease that attacks the brains of deer, elk and moose.

**Data Analysis Unit (DAU):** The geographic area that represents the year-round range of a specific big game herd/population. Each DAU is composed of one or more Game Management Units (GMUs). DAUs are used to monitor distinct herds/populations.

**Either-sex License:** A license that is valid for the take of either male or female animals.

**Established Hunts:** Ranching for Wildlife and Auction & Raffle hunts or hunts approved annually by PWC.

**Game Management Unit (GMU):** A defined geographic area that provides a practical framework where management goals can be refined and applied on a finer scale than a DAU, typically through hunting regulations. GMUs are used to monitor hunter distribution.

**Leftover Draw:** Deer and elk applicants unsuccessful in the primary draw have the first chance at the limited licenses that are remaining after the primary draw by selecting Leftover Draw on their application.

**Limited Licenses:** A set (limited) number of licenses are available for specific units and dates for each species, and are initially issued through an application and draw process.

**Manner of Take:** Colorado hunting seasons are based on hunting methods (i.e., archery, muzzleloader and rifle/associated) permissible during each season.

**Modeled Estimates:** Mathematical models that integrate observed data (e.g., sex ratios, age ratios, population estimates, survival estimates, harvest estimates) are used to estimate the population size and demographic composition of each herd. Estimates derived from these models are referred to as modeled estimates.

**Non-Established Hunts:** Hunts and quota not specified in regulation and approved by PWC, or Ranching for Wildlife or Auction & Raffle hunts. Non-Established hunts include game damage, dispersal, youth and novice outreach, etc.

**Over-the-Counter (OTC) Season:** In contrast to limited seasons, licenses in OTC seasons are not available through the draw. They do not require buying/having a qualifying license, do not use preference points and may be purchased any time through the end of the season. Prior to 2020, the number of licenses available in OTC seasons were either unlimited or capped at a predetermined number. Starting in 2020, there are no longer OTC with caps seasons.

**Plains Units:** GMUs east of Interstate I-25 except unit 140.

**Private Land Only (PLO) License:** Licenses that are only valid on private land.

**Population Estimate:** The estimate of the number post-season (winter) animals in a herd. CPW estimates the size of each herd annually based on population models.

**Population Objective:** The target number of animals in a herd. Population objectives are expressed as ranges and are established in the Herd Management Plan (HMP) for each herd. License numbers and hunting strategies are designed to reach or maintain the population objective of each herd.

**Post-hunt:** The period after the hunting seasons. Most big game populations are surveyed post-hunt (in the winter), when they are concentrated at lower elevations in open terrain by snow, in order to estimate winter population levels and demographics.

**Pre-hunt:** The period before the hunting season. Many pronghorn surveys are conducted pre-hunt (in the summer) to estimate summer population levels and demographics.

**Primary Draw:** The first, main big game draw of the year for hunters applying for limited hunting licenses.

**September Rifle Season:** Limited rifle black bear seasons that occur during the month of September (before the regular deer and elk rifle seasons). The majority of black bear harvest occurs during these seasons and, therefore, they have the largest effect on black bear management.

**Sex Ratio:** Number of males per 100 females in a herd. Sex ratios are observed during big game surveys and used in population models. Sex ratio objectives are established for each herd in a Herd Management Plan. Hunting licensing numbers and strategies are established to achieve and maintain these objectives.

**Unlimited Licenses:** Licenses that are not restricted in number. They are not available through the draw.

**Weighted Average:** An average that is calculated taking population size into account, so that larger populations contribute more to the average than smaller populations (i.e., populations influence the average in proportion to their size).

**West of I-25 Units:** GMUs west of Interstate I-25 and unit 140.

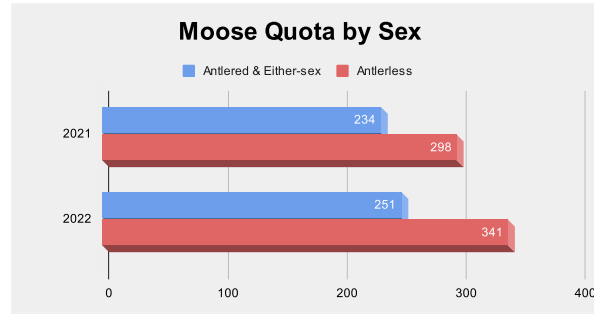

**2022 MOOSE**

Colorado Parks and Wildlife  
April 21, 2022

positive % change = increase in licenses  
negative % change = decrease in licenses

# 2022 BEAR

Colorado Parks and Wildlife  
April 21, 2022

\*The 2020-2024 Big Game Season Structure created unlimited OTC black bear licenses in DAUs which have a management strategy of reducing bear populations and where harvest objectives are not being met.

positive % change = increase in licenses  
negative % change = decrease in licenses

\* Each incident report may be counted in more than one category.

#### #240 - VACANT

#### #241 - SPECIAL RESTRICTIONS

- A. No person shall hunt, take or harass a bear in its den.
- B. No cubs shall be killed nor shall any black bear accompanied by one (1) or more cubs be killed. As used herein a "cub" shall mean any black bear less than one (1) year of age.
- C. Inspection and Seal Required.
  - 1. Black bear taken by licensed hunters shall be personally presented to the Division or other official designated by the Division for inspection and sealing within 5 working days after the taking thereof. Bear heads and hides must be unfrozen when presented for inspection. If not unfrozen, the Division may retain heads and hides as necessary for thawing sufficient to extract a premolar tooth. No fee shall be required for the inspection and issuance of a legal possession seal, which shall remain attached to the hide until such hide is tanned.
  - 2. Black bears shall not be transported, shipped or otherwise taken out of Colorado until the hide and skull are inspected and sealed by authorized personnel of the Division. Possession of any bear hide not having a seal attached within the 5 working days shall be unlawful and such hide shall become the property of the State.
  - 3. Inspection and sealing shall be arranged by contacting the Division Officer or the Division office.
  - 4. A mandatory check report shall be completed at the time of inspection.

5. At the time of the mandatory check, the Division shall be authorized to extract and retain a premolar tooth.
- D. Individuals taking black bear under authority of §33-3-106(3) shall report the bear within five (5) days after the taking thereof as required by said statute and the carcass, hide and other parts of the bear shall remain the property of the state.

**ARTICLE VI - MOUNTAIN LION**

**#242 - RIFLE AND ASSOCIATED METHODS MOUNTAIN LION SEASONS**

- A. General and Extended Seasons
1. Dogs may be used to hunt mountain lion. However, the pack size shall be limited to no more than eight (8) dogs.
  2. The hunter that takes a mountain lion shall be present at the time and place that any dogs are released on the track of a mountain lion and must continuously participate in the hunt until it ends. After a mountain lion has been pursued, treed, cornered or held at bay, a properly licensed person shall take or release the mountain lion immediately. No person shall in any manner restrict or hinder the mountain lion’s ability to escape for the purpose of allowing a person who was not present at the time and place that any dogs were released, to arrive and take the mountain lion.
  3. Electronic calls are prohibited for use in the taking of big game species, except:
    - a. Starting April 1, 2021, mountain lions during open seasons only and for Game Management Units 43, 44, 45, 60, 61, 70 west of Colo 141, 72, 73, and 444 only.
  4. Hunt Type, Dates, Units (as described in Chapter 0 of these regulations), and Harvest Limit Quotas.
    - a. Mountain Lion, Either-sex Season and Harvest Limits – In Game Management Units, as follows, with seasons as specified starting April 1, 2021:

<b>Units</b>	<b>Seasons</b>	<b>Lion Harvest Limit</b>

461	April 1 – April 30 annually Mid November* – March 31 of the following year, annually	7
511	April 1 – April 30 annually	4

Units	Seasons	Lion Harvest Limit
	Mid November* – March 31 of the following year, annually	
<b>TOTAL</b>		<b>654</b>

\* The November opening date is the day after the close of the final combined deer and elk rifle season annually.

**B. Licenses and GMU Harvest Limit Status**

1. A valid mountain lion license is required to hunt any mountain lion.
2. Except as provided in 33-3-106 C.R.S., it is unlawful for any person to purchase or obtain a mountain lion hunting license or hunt mountain lions unless the person obtains a mountain lion education certificate issued by the Division attesting to the person's successful completion of the Division's certified mountain lion education and identification course. Any person required to obtain such a certificate shall have the certificate on his or her person while hunting or taking mountain lion.
3. Prior to each hunting trip in any game management unit, but not earlier than 5:00 p.m. of the day before hunting, lion hunters must check the *Available Lion Harvest Limit Report* on the Division website or any Division office to determine which game management units have not reached the unit harvest limit and are open to hunting. It shall be unlawful to hunt in a unit after it is closed.

**C. Special Restrictions**

1. Reporting and Sealing
  - a. The taking of mountain lions by licensed hunters shall be reported to the Division within 48 hours after the taking thereof, and except as provided in these regulations, the lion shall be personally presented by the hunter for inspection and sealing within five (5) days after the taking thereof. Mountain lion heads and hides must be unfrozen when presented for inspection. If not unfrozen, the Division may retain heads and hides as necessary for thawing sufficient to extract a premolar tooth. A mandatory check report shall be completed at the time of inspection.
  - b. At the time of the mandatory check, the Division shall be authorized to extract and retain a premolar tooth.
2. The legal possession seal when attached to the mountain lion skull or hide shall authorize possession, transportation, tanning or mounting thereof. No fee shall be required for the inspection and issuance of a legal possession seal which shall remain attached to the skull or hide until processed. Mountain lions shall not be transported, shipped or otherwise taken out of Colorado until the hide and skull are inspected and sealed.
3. Lions with Kittens – No person shall kill a mountain lion accompanied by one or more kittens or kill a kitten.
4. "Kitten" shall mean a lion with spots.

**ARTICLE VIII – DEER**

**E. Private-Land-Only Deer Seasons**

**1. Private Land Only, Season Dates, Units (as described in Chapter 0 of these regulations), Limited Licenses.**

- a. All applicants for "Private Land Only" licenses must obtain permission to hunt from at least one private landowner within the game management unit prior to hunting.
- b. Private land only licenses are valid on all private land within the game management unit upon which the license holder has permission to hunt.

**#251-#253 - VACANT**

**ARTICLE IX - ELK**

**#254 - ANTLER POINT RESTRICTIONS BY UNIT - ELK**

- A. All antlered elk taken in the following game management units during any established season, including archery, muzzle-loading rifle or rifle seasons, shall have four (4) or more points or a brow tine on one antler: GMU's 3, 4, 5, 6, 7, 8, 9, 11, 12, 13, 14, 15, 16, 17, 18, 19, 21, 22, 23, 24, 25, 26, 27, 28, 30, 31, 32, 33, 34, 35, 36, 37, 38, 41, 42, 43, 44, 45, 47, 52, 53, 54, 55, 59, 60, 62, 63, 64, 65, 66, 67, 68, 70, 71, 72, 73, 74, 75, 77, 78, 79 (except as referenced in 254.D), 80, 81, 82 (except as referenced in 254.D), 83, 85, 86, 131, 140, 161, 171, 181, 191, 211, 214, 231, 301, 361, 371, 411, 421, 441, 444, 471, 511, 521, 551, 581, 591, 681, 691, 711, 741, 751, 771, 851, and 861.
- B. There are no antler point restrictions for elk taken during any established season, including archery, muzzle-loading rifle or rifle seasons, in the following game management units: 1, 2, 10, 20, 29, 39, 40, 46, 48, 49, 50, 51, 56, 57, 58, 61, 69, 76, 84, 201, 391, 461, 481, 500, 501, 561, 591, 682, 791, or in any unit east of I-25 except 140.
- C. There are no antler point restrictions for elk on Wildlife Ranching properties during Wildlife Ranching seasons.
- D. There are no antler point restrictions for elk licenses issued for the following hunt codes: EF682P5R, EM682P5R, EM682P6R.

**#255 - ARCHERY ELK SEASONS - ONLY LAWFUL HAND HELD BOWS MAY BE USED TO HUNT OR TAKE ELK DURING THE FOLLOWING SEASONS:**

### #257.5 - SPECIAL RESTRICTIONS

#### A. Unit 512 - Air Force Academy

Hunters must apply in person, no later than May 31 annually to participate in a random drawing to be placed on a priority list of hunters. Applications along with a non-refundable application fee not to exceed \$10.00 will be accepted at the Academy's Outdoor Recreation Center, Building 5136 - Community Center Drive, AFA, Colorado Springs.

The first 15 hunters drawn will be placed on the list and will be notified of their placement by June 15 annually. When elk are available to be hunted, up to 4 hunters will be called. After obtaining a license, paying a fee not to exceed \$30.00 to the Academy and receiving a safety briefing, hunters will be escorted on the hunt. Hunters may decline one opportunity to hunt and hold their place on the list. Hunts will continue when possible until (30) antlerless elk have been taken.

#### B. Units 79 (south of Colo 112), 82, 682 and 791 – San Luis Valley Damage Elk Hunts

1. The purpose of these hunts is to provide flexibility in managing damage by elk and maintain landowners' rights to determine who may enter their property. Most license vouchers may be issued to friends and family of the landowner. Opportunities for non-associated public hunters may exist and will be selected from a list of interested hunters.
2. License vouchers may be transferred one time only, and shall only be transferred by the landowner to the hunter that will use the voucher to purchase the license. Third-party brokering of landowner vouchers is not permitted. Violation of this subsection shall invalidate the applicable landowner voucher and any license purchased with it.
3. Public hunters must apply no later than July 15 annually, to participate in a random drawing to be placed on a priority list of hunters. Applications will be accepted at the Monte Vista Service Center at 0722 S Rd. 1 E, Monte Vista.
4. Hunters drawn will be placed on the list and the top 10 hunters on the list will be notified of their placement no later than August 15 annually. When elk are available to be hunted, up to 4 hunters will be called. Hunters may decline one opportunity to hunt and hold their place on the list. Hunts will be conducted on an as-needed basis to alleviate game damage.

C. Units 80, 82, and 83 – San Luis Valley US Fish and Wildlife Refuge Permits

1. The United States Fish and Wildlife Service (USFWS) allows a maximum of five (5) elk hunters to access and hunt on the Alamosa (GMU 83) and Monte Vista (GMU 80) National Wildlife Refuges at any one time. This application and drawing process creates a hunter list for each season identifying the first five (5) hunters and the position of the others on the list. As elk are harvested, hunters from the list are given permits to hunt. To be eligible for an access permit, hunters must hold an elk license that is valid for the season and refuge for which they wish to apply. The following seasons are currently open to permitted hunting on each of these refuges:
  - a. Archery;
  - b. Muzzleloader;
  - c. First rifle;
  - d. Second rifle;
  - e. Third rifle;
  - f. Fourth rifle.
2. To be entered into the drawing, eligible hunters must email the following address starting the day after left-over license day: [montevista.wildlife@state.co.us](mailto:montevista.wildlife@state.co.us). Hunters will receive an automatic email response with a link to the Refuge Access Permit Application Form. Hunters must provide the following information to apply:
  - a. The hunter's name, phone number and email address. The email address of another person will be accepted as long as the hunter can be contacted directly via the phone number provided.
  - b. The hunter must have purchased a license that is valid for both the unit and the refuge prior to submitting the application.
  - c. The hunt code for the license with which they wish to hunt.

d. The hunter's customer identification number (CID).

Hunters will need to complete the Application Form and select the correct refuge for which their license is valid in order to be entered. Applications will be accepted for five days starting the day after the left-over license day. Permits for the refuges will be issued via email after a random drawing held under the direct supervision of the area wildlife manager and no later than August 25.

3. The Baca National Wildlife Refute (GMU 82) is open to hunters who have purchased a valid regular season public land elk license for GMU 82. Contact the Monte Vista office for refuge-specific rules and information.

E. Special Restrictions

1. All moose licensees shall complete and return a harvest questionnaire provided by the Division within 30 days after the close of their hunting season. Any moose licensee who does not complete and return the mandatory questionnaire as required shall not be considered for any future moose license.
2. All moose harvested through hunting shall be submitted for inspection to an employee of the Division on or before the 5th working day after the taking thereof. Any licensee who takes an antlered moose shall personally present the head, with antlers attached, to any Division office. Any licensee who takes an antlerless moose shall personally present a front incisor tooth or the entire head to any Division office. Moose heads must be unfrozen when presented for inspection. If not unfrozen, the Division may retain heads as necessary for thawing sufficient to extract the incisor teeth. A mandatory check report shall be completed at the time of inspection.
3. At the time of the mandatory check, the Division shall be authorized to extract and retain the incisor teeth.

**Special Seasons**

**ARTICLE XII - SPECIAL HUNTING SEASONS/LICENSES FOR BIG GAME**

**#271 - BIG GAME ANIMALS CAUSING DAMAGE AND BIG GAME POPULATIONS OVER OBJECTIVE**

A. Special Population Management Seasons for Big Game Ungulates

1. The Director shall have the authority to establish special management seasons for antlerless or female big game ungulates in specific game management units or portions thereof which significantly exceed the population objective, when the anticipated harvest from the current year's archery, muzzle-loading and regular rifle seasons did not occur. Provided further that the Director shall have the authority to establish these hunts between November 16 and February 28, to specify a time period for each of these hunts but not to exceed ten days each, and shall authorize hunters to use designated unfilled big game licenses for these hunts and units.
2. The Director shall have the authority to allocate antlerless deer and/or elk licenses on existing Ranching for Wildlife properties located in game management units where deer or elk populations significantly exceed the population objective. These licenses shall be in addition to the number of licenses allocated to each ranch pursuant to the Cooperative Agreement established in #210(A)(2). The additional allocation and use of the antlerless licenses provided for in this section shall be in the same proportion, by species (not sex), as established in the ranch's respective Cooperative Agreement and subject to the following provisions:
  - a. No ranch shall be required to accept any additional antlerless licenses.
  - b. The public allocation of such additional antlerless licenses shall only be offered to hunters who have successfully drawn antlered, either-sex or antlerless licenses for the same species on the ranch. Public hunters who choose to purchase one additional antlerless license from the Division shall be required to use the

additional license during the season established for the license for which they drew. No more than one additional antlerless license will be available to any public hunter.

B. Special Game Damage Seasons for Big Game Ungulates

1. The Director shall have the authority to establish special hunting seasons for big game ungulates, between August 15 and February 28, when necessary to control damage to property. Seasons shall be for the taking of antlerless or female animals unless the Director has determined that the taking of antlered animals is necessary in order to alleviate the damage.
  - a. Game damage hunts are limited to a maximum of 50 licenses per species per Game Management Unit or 30 percent of the antlerless, either-sex, or doe licenses issued for the DAU (whichever is greater), unless a distribution management plan establishing a different percentage has been approved by the Parks and Wildlife Commission or additional permits are approved by the Director or his designee.
  - b. On private lands and Russell Lakes, Rio Grande and Higel State Wildlife Areas, the Area Wildlife Manager (AWM) is authorized to conduct these seasons based upon the following criteria:
    1. The AWM finds that such a season would be consistent with the distribution management plan approved by the Parks and Wildlife Commission.
    2. When there is no approved distribution management plan, the AWM finds that a season will reduce or eliminate damage for which the Division is liable, and that holding a season would be desirable considering
      - a. The species and number of animals involved.
      - b. The number of animals that would have to be removed to reduce or eliminate damage.
      - c. The location of the damage problem.
      - d. The type and extent of damage.
      - e. The time of year and its relationship to the life history of the animals.
      - f. The length of time such damage will continue without big game removal.
      - g. Management closures, hunting seasons and other public use.
      - h. The effect on population objectives for the GMU and DAU.
      - i. Whether landowner operations (e.g., harvesting) or critical wildlife biological activities (e.g., fawning) would be interrupted.

- j. Safety risks.
    - k. Any other pertinent factors.
  - 3. The Area Wildlife Manager shall provide the landowner with special application forms for distribution to individuals of their choice. Participants shall submit the completed application form with payment to the Division office indicated on the application.
  - 4. In the event the landowner cannot secure enough people to effect an adequate harvest the Division can assist in locating individuals.
- c. The Division shall
  - 1. Verify that damage or conflicts are occurring or can reasonably be anticipated to occur.
  - 2. Designate what area shall be open to hunting.
  - 3. Determine the manner of hunting that will be permitted.
  - 4. Determine the number of hunters allowed to hunt in each designated area.
- d. Hunting will be done under the direction of a District Wildlife Manager, following approval by the owner of land where such damage is occurring.
- e. Hunters shall hunt in designated areas and on the dates indicated on the license.
  - 1. A map or a written description of the designated area open to hunting (which would include, but would not be limited to landowner(s) name, game management unit, township, range and section(s) and/or identification of landmarks such as roads, rivers, or fence lines which coincide with boundaries), will be provided to each licensed hunter by the Division.
- f. Any person who purchases a license for a game damage season shall be required to complete a Division harvest survey form and return it to the Area office that is nearest the location of the hunt no later than 5 days after the season ends.

C. Special Game Damage Licenses for Bear and Mountain Lion

- 1. The Director shall have the authority to establish special hunting licenses for mountain lion and bear, which allow for take in excess of the otherwise applicable limited license numbers or quotas, when necessary to control damage to private property.
  - a. AWMs are authorized to issue these bear and mountain lion licenses to address specific animals determined after an investigation to be causing damage to private property.
    - 1. Bear or mountain lion licenses above the established limited license numbers or quota for the area may be issued only where necessary to

take specific animals determined after an investigation to be causing damage to private property.

2. Bear hunting authorized under this provision will be conducted between September 2 and the end of the fourth regular rifle season annually.
3. Mountain lion hunting authorized under this provision will be conducted during established lion seasons.
4. Licenses will be issued only if licenses are not otherwise available for purchase under standard license distribution methods or where mountain lion quotas have been reached in the area.
5. License will be restricted by manner of take, period of time within the dates specified above, and location within the GMU(s) or DAU(s) in question as necessary to ensure the offending animal is appropriately targeted.
6. Hunting will be conducted under the direction of a District Wildlife Manager.

b. Any person who purchases a license shall be required to complete a Division harvest survey form and return it to the Area office that is nearest the location of the hunt no later than 5 days after the end of the hunting period authorized by the license.

c. Bear and mountain lion taken pursuant to a license issued under this provision shall not be counted against the annual bag and possession limit for the species in question.

D. Special Hunting Season In Game Management Unit 20 For Cow Elk Normally Not Available For Harvest During Regular Or Late Big Game Seasons:

1. Season dates, license types, permit numbers will be established by the Director or his designee.
2. The Division will designate the area open to hunting, manner of take, and season dates which are necessary to achieve its population management objective for this population of elk. Hunting shall occur only during the designated time periods indicated on the hunter's license and only in those areas specifically designated on the map provided by the Division. Special Unit 20 cow elk hunts shall be established based on the following criteria: (a) the hunt does not fall within the criteria established for game damage hunts; (b) snow ground cover and/or other conditions favor are expected to favor successful hunting; (c) elk must be available to hunters in portions of Unit 20 which are open to hunter access; and (d) no special season will be created under this regulation which would extend beyond February 15th.
3. Eligible hunters will be selected in the following priority: a) from the list of hunters who applied for a Unit 20 limited elk license and were unsuccessful; and b) from a new list of hunters established by the Division Northeast Regional office pursuant to notice in local newspapers. Such list will be established on a first-come, first-served basis.

4. Individuals who participate in this special hunt may also participate in any other season for elk if otherwise eligible to do so.

E. Special Hunting Licenses and Seasons For Deer and Elk in Urbanized Areas:

1. The Division Director (or designee) shall have the authority to establish special deer and elk hunting seasons between August 15 and February 28 annually to achieve population management objectives as specified in Division approved county or municipal management plans. Seasons shall be for the taking of antlerless animals unless the Director determines that the taking of antlered animals is necessary per the issues and goals brought forth in the Division approved management plan.
2. Counties or municipalities must submit a proposed management plan to the Division, which includes the following:
  - a. Explanation of the need and scope of the issues (i.e. habitat degradation, human conflicts, human health and safety issues, etc);
  - b. Estimated population of deer or elk creating the issue and a target population number being sought post removal;
  - c. Season dates;
  - d. Manner of take;
  - e. Numbers of licenses and projected harvest;
  - f. Geographic location and description of hunting area(s); and
  - g. Method for selecting eligible hunters.
3. Management plans will be evaluated on the merits of furthering goals for suburban deer or elk management and in relation to the appropriate Division Big Game Herd (DAU) Management Plan. The Director (or designee) shall provide the county or municipality with special application forms for distribution to individuals as specified within the submitted and approved management plan. Participants shall submit the completed application to the Division to obtain the appropriate hunting license.
4. The participating county or municipality will assume full responsibility for the plans and elements therein. The Division will be available to provide technical assistance to the county or municipality in preparing the management plan.
5. The county or municipality may not charge hunters a fee beyond what is required to cover their administrative costs to run the program.
6. All participating counties, municipalities and individuals are required to follow all applicable state statutes and regulations. No county or municipality will allow, encourage, or otherwise promote violations thereof.
7. The Division can unilaterally, without prior notification, terminate or void any applications given to a county or municipality prior to their redemption for a license for issues related to human health, safety, or any wildlife related violations associated with the management plan implementation, or documented deviation from the management plan as it was submitted to the Division. Management plans may be amended with Division approval.
8. Individuals who participate in these special hunts may also participate in any other season for deer or elk if otherwise eligible to do so.
9. Any county or municipality receiving licenses for a special hunting season for deer and elk in urbanized areas shall be required to complete a Division harvest survey form and return it to

the Area office that is nearest to the location of the hunt no later than 5 days after the season ends.

**#272 BIG GAME DISEASE/ANIMAL HEALTH SEASONS**

1. Special Hunting Seasons for Disease Management in Big Game
  - a. The Director shall have the authority to establish special hunting seasons for big game, when hunting harvest has not been adequate to reduce the incidence of disease, to reduce emigration of infected animals, or to otherwise control expansion of the disease.
    1. No more than 200 licenses per species shall be issued annually per Game Management Unit (GMU) unless authorized by the Director
    2. Seasons shall be for the taking of antlerless or female animals unless the Director has authorized the issuance of male (antlered) licenses. No more than 10% of the licenses shall be issued for male (antlered) animals unless authorized by the Director.
    3. Licenses will be valid only in the unit(s) specified on the license. Licenses may be restricted to specific properties or areas as determined by the Area Wildlife Manager.
    4. License fees may be reduced when authorized by the Director, when necessary to ensure sufficient hunter participation, provided that no license is to be sold for less than \$5.00. License fees shall be set to ensure recovery of the cost of the retail and system agent commissions.
    5. Multiple carcass tags may be issued with each license, as authorized by the Director. Provided further that the payment of separate license fees shall be required if licenses for more than one species are to be sold.
    6. Any licensee who takes deer or elk during any such season for the purpose of Chronic Wasting Disease (CWD) management shall submit the head from all animals taken when required to do so as a condition of the license, to the testing site specified at the time the license is issued, within 5 days after harvest. Hunters must complete the special survey tag available at any head collection site and attach it to the animal's head. Antlers and capes from harvested deer may be removed by hunters before submitting heads for sampling.

**ARTICLE XIII - VACANT**

**ARTICLE XIV - VACANT**

**Basis and Purpose:**

These regulations amend Chapter W-2 - Big Game - of the Parks and Wildlife Commission regulations and are necessary to properly manage big game populations in Colorado. They establish limited license numbers for deer, elk, pronghorn, moose, and black bear during seasons, which were adopted in January 2022; and include licenses for archery, muzzleloading, early, regular, plains, late rifle and private land only seasons with respect to each species. Limited license numbers are set for specific game management units or groups of units. Limited license numbers are established to maintain big game herds at or near long-term population objectives, and, in the case of antlered deer, antlered elk, buck pronghorn and moose they are also set to achieve sex ratio objectives. The herd objectives are intended to maintain healthy populations, provide a diversity of hunting opportunities for residents and nonresidents, allow and maintain public recreational opportunity, minimize or control local game damage situations on private land and provide opportunity for landowners to cooperatively manage wildlife with the Division through the Ranching for Wildlife program. These resulting limited license numbers take into account harvest estimates and hunter success rates, wildlife counts and surveys, as well as impacts of winter weather and predation on big game populations.

As is the case each year, this effort represents the culmination of numerous hours of work by various Division employees involved in the accumulation and analysis of data and a great deal of time spent with interested publics explaining both the recommendations and the rationale behind them. Further information regarding specific highlights of these annual changes are provided below.

**Deer**

Approximately 218,000 hunters applied for Colorado deer licenses in 2022. The majority of deer hunting in Colorado is managed by limited licenses; the only exceptions are over-the-counter (OTC) white-tailed deer licenses available in the Southeast Region.

CPW staff are recommending a similar statewide total deer license number as last year; all changes result in a decrease of 500 deer licenses (-<1%) to 102,000 limited licenses.

Plains deer quota recommendations are similar to last year with a total quota recommendation of 20,500 (-94, -<1%) for 2022.

For all rifle seasons statewide, we are recommending a total decrease of 520 (-1%) buck licenses and no change in either-sex licenses. Buck license recommendations were reduced in herds that are now within or below Herd Management Plan (HMP) sex ratio objective ranges (examples include D-9 Middle Park, D-24 Groundhog, D-40 Cimarron, and D-52 Hermosa).

Buck license recommendations were increased in herds that are within or above HMP sex ratio objectives (examples include D-3 North Park, D-29 Mesa Verde, and D-34 Wet Mountains, and D-51 South Grand Mesa). Twenty-four of 54 (44%) of the state's deer herds have sex ratios above their HMP sex ratio objective ranges.

In Data Analysis Units (DAUs) where CWD prevalence is greater than 5%, management actions have been implemented to reduce prevalence, including buck license increases to manage sex ratios to the lower end of HMP sex ratio objectives for several herds (examples include D-3 North Park (9% prevalence), D-41 Logan Mountain (6% prevalence) and D-51 South Grand Mesa (7% prevalence)).

HMP sex ratio objectives, observed sex ratios, and CWD prevalence estimates for each herd are included in the Deer Table, which is page 6 of the Summary Tables.

The statewide total rifle antlerless license recommendation is 19,320, up from 19,150 (+170, +1%). Antlerless license increases are recommended in herds that are performing well and are within or above population objective ranges, and to address or prevent game damage. Alternatively, these recommendations keep regular season doe licenses at the minimum of 10 licenses per hunt code for all deer DAUs west of I-25 that are below population objective. In these below-objective herds, the majority of doe licenses are private-land-only licenses to address game damage. Private-land-only licenses and licenses with special restriction to address deer conflicts near towns make up over 80% of the doe licenses in below-objective herds.

Antlerless license reductions are recommended in herds that are within or below HMP population objective ranges (examples included D-7 White River, D-34 Wet Mountains, and D-55 Arickaree).

Antlerless license increases are recommended in herds that are within or above HMP population objective ranges (examples included D-21 West Elk, D-22 Taylor River, D-25 Powderhorn, D-29 Mesa Verde, and D-30 San Juan).

The statewide post-hunt 2021 deer population estimate is 416,000, down from 428,000 last year. The sum of statewide population objective ranges is 438,000-520,000 for all 54 deer herds combined. In 2021, 26 of 54 (48%) deer DAUs are within their population objective ranges. The statewide deer population has averaged 420,000 over the last 11 years. The decade prior to that was marked by significant declines in the some of the large westernmost herds in the state. Diverse habitat types and environmental conditions around the state create considerable geographic variability in population performance.

CPW annually monitors well over 1,000 radio-collared mule deer in five Intensive Mule Deer Monitoring Areas to estimate survival. CPW also conducts post-hunt herd inventories, primarily with helicopters, to estimate the sex ratios of males/100 females and the age ratios of young/100 females. In addition to survival rates, these ratios are needed to estimate population size using population models. The Summary Tables include the number of animals classified and sex ratios by DAU, Region, and statewide.

The average of sex ratio objectives for deer herds statewide is approximately 30 bucks/100 does, the averages of HMP sex ratio objective range minimums and maximums is 27 and 31 bucks/100 does respectively. During the post-hunt herd inventories in 2021, CPW staff classified 78,000 deer and observed an average sex ratio of 29 bucks/100 does. The statewide average observed age ratio from helicopter inventory was 59 fawns/100 does, the same as observed in 2020.

Many deer herds are performing well and others are stable but at much lower population sizes than desired. Colorado remains a premier destination for deer hunters.

## **Elk**

In 2022, approximately 238,000 hunters applied for Colorado limited elk licenses. All rifle antlerless, muzzleloader, first, fourth, and late season elk licenses are limited. Archery licenses and second and third rifle bull seasons in many Game Management Units (GMUs) are also limited.

CPW is recommending 123,100 limited elk licenses, down 800 (-<1%) licenses from last year.

Archery hunting in elk DAU E-32 Lower Rio Grande was limited starting in 2022. Converting what were previously over-the-counter unlimited licenses to limited licenses results in an increase of 2,000 limited archery licenses, which masks the magnitude of the actual reduction in total limited licenses.

Continuing with an 18-year trend, antlerless elk license recommendations are reduced from last year by 1,300 (-2%) to 64,500. The statewide total for antlerless elk licenses is now less than half of what it was at its peak in 2004 of 132,500, see Page 4, Quota Breakdown History. Antlerless elk license reductions are the result of a combination of herds achieving HMP population objectives through antlerless harvest, low calf/cow ratios reducing population productivity, and increases in HMP population objective ranges.

The 2021 post-hunt estimate of 309,000 is up from the 294,000 in 2020. The statewide elk population is increasing, elk populations are responding to reductions in antlerless harvest. The sum of Colorado's post-hunt HMP population objective ranges for elk statewide is 252,000-306,000 for all 42 elk herds combined. The sum of statewide objective ranges is partially based on historic HMPs. Plans written before 2001 were written with outdated population models that underestimated elk numbers; as we update plans, we expect population objectives to change. Because season and license setting is designed to use antlerless harvest to bring elk populations to herd objectives, further reductions in antlerless licenses are anticipated in the future as more elk populations reach objectives or population objectives increase.

As we've intentionally reduced elk populations to achieve population objectives, hunters and outfitters increasingly have expressed concern that elk populations are becoming too low in some herds, despite the fact that 20 of 42 (48%) elk herds are above their current population objective ranges. Nonetheless, public perception of the desired number of elk in Colorado varies. CPW gives serious consideration to changing population objectives in herds as HMPs are updated and tries to balance public interests of landowners, local communities, public land management agencies, and hunters. Long-term experience with balancing these interests has informed CPW on the upper and lower social thresholds for elk population size in many herds, which benefits us greatly in herd management planning efforts.

The average of post-hunt sex ratio objectives in totally limited elk DAUs and expected sex ratios in over-the-counter DAUs for elk herds statewide is approximately 24 bulls/100 cows. In 2021, during the post-hunt herd inventories, CPW staff used primarily helicopter surveys to classify 108,000 elk and observed a statewide average sex ratio of 21 bulls/100 cows, compared to 20 bulls/100 cows in 2020.

During these surveys over the past decade, CPW has documented declining calf/cow ratios in the southern half of the state. Northern Colorado historically has had higher calf ratios by about 10 calves/100 cows. In 2021, we observed 40 calves/100 cows during post-hunt herd inventories compared to 39 calves/100 cows in 2020. Elk research and continued management changes are necessary since calf production remains low in many herds. Low calf ratios reduce the number of elk licenses CPW can issue.

The 2022 reductions in antlerless licenses are consistent with licensing trends of the last 18 years because many herds are near the desired population size and some have lower calf ratios. Having a combination of units that are limited in all seasons and units with both limited and over-the-counter hunting seasons allows us to offer a wide range of hunting opportunities on the nation's largest elk population.

## **Pronghorn**

In 2022, approximately 93,000 hunters applied for Colorado limited pronghorn licenses. The majority of pronghorn licenses are limited, with the notable exception of over-the-counter archery licenses available in 70% of GMUs.

CPW is recommending 22,200 limited pronghorn licenses, down 1,400 (-6%) licenses from last year.

Recommended license reductions are in the Southeast and Northeast Regions (examples include PH-1 Escarpment, PH-5 Haswell, PH-7 Thatcher, PH-12 Cheyenne, and PH-13 Tobe).

Pronghorn license reductions are the result of both new HMP's with increases in population objective ranges and lower fawn/doe ratios due to drought reducing population productivity. Many of these herds are within, but at the bottom of new HMP population objective ranges. We consistently observe lower pronghorn fawn production and survival in drought years such as 2021.

The estimated statewide post-hunt pronghorn population is 78,000, up from 77,000 in 2020. The sum of statewide population objective ranges for hunted pronghorn herds is 69,000-81,000 combined. Seven of 29 (24%) pronghorn DAUs are within HMP population objective ranges.

Pronghorn license reductions account for lower fawn production resulting from poor forage conditions and drought. Herds should respond quickly when we receive better moisture in the future. Colorado offers some excellent hunting for one of North America's most iconic animals.

## **Moose**

Demand far exceeds allocation; 54,000 individuals applied for moose in 2022.

For 2022, we are continuing the trend of increasing license recommendations with a total of 592 limited moose licenses, an increase of 60 (+11%) from last year.

These recommendations include 251 (+17, +7%) bull and either-sex licenses and 341 (+43, +14%) antlerless licenses.

Antlerless moose license recommendations are designed to manage moose populations toward HMP population objectives and keep moose populations within the capability of their habitat. Almost half of the antlerless license increases are in M-1 North Park. Additionally, antlerless licenses have considerably lower success rates than antlered licenses.

The estimated statewide 2021 post-hunt moose population is 3,500, up from 3,200 in 2020.

We now have moose hunting in 74 GMUs, up from 39 GMUs in 2013. We are fortunate our moose populations continue to do well because many other states are experiencing declines in moose. The growing number and distribution of moose in Colorado have resulted in greater hunting and viewing opportunities.

## **Black Bear**

In 2022, CPW is recommending 20,700 limited licenses for all seasons and methods of take for black bear. This is the same as last year's quota and therefore represents no change. In 2022, statewide harvest is projected to be about 1,500 bears with a statewide total mortality of approximately 2,000 bears. As in 2021, the availability of add-on OTC bear licenses in half of Colorado's 17 DAUs is expected to continue to help reach harvest objectives in those specific units.

Bear season structure changes implemented as part of the Big Game Season Structure (BGSS) in 2020 were designed to remove unnecessary barriers to bear hunting whenever possible to achieve DAU harvest objectives, while still managing bear hunter crowding during the early seasons or in quality deer and elk units.

Current management objectives are to reduce bear populations in 9 DAUs and stabilize populations at present levels in the remaining 8 DAUs. These DAU objectives are what guided managers' selection between one of the two bear licensing strategies that are available to structure hunting opportunity under the 2020-2024 BGSS. Over-the-counter licenses will be available during archery, muzzleloader and concurrent rifle seasons in 9 DAUs (plus B-99 Eastern Plains), as well as all statewide PLO hunts.

Continuation of the non-resident bear license fee reduction implemented in 2019, coupled with the availability of OTC bear licenses in many DAUs, contributed to an increase of 3,000 more licenses sold in 2021 over 2020. This increase in hunters in DAUs selected for the unlimited add-on license strategy successfully generated additional harvest towards management goals.

## **Conclusion**

The 2022 big game license recommendations are biologically sound, based on management plans, and provide for an economically significant and diverse amount of big game hunting throughout Colorado. These recommendations and the associated OTC licenses provide the opportunity for more than 300,000 hunters to enjoy the incredible big game resources of the State. They also represent thousands of hours of employees' collective efforts to conduct herd inventories, obtain harvest estimates, incorporate this information into predictive models, and finally to set limited license recommendations. I am pleased to present these recommendations as a testament to the incredible wildlife resources CPW manages for the enjoyment of the people of Colorado and its visitors.

The statements of basis and purpose for these regulations can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing [dnr\\_cpw\\_planning@state.co.us](mailto:dnr_cpw_planning@state.co.us) or by visiting the Division of Parks and Wildlife headquarters at 6060 Broadway, Denver, CO, 80216.
