### Adjusting license fees according to adjustments to the Denver-Aurora-Lakewood Consumer Price Index

Following the passage of the Hunting, Fishing, and Parks for Future Generations Act (SB 18-143), the Colorado Parks and Wildlife Commission has the authority to adjust most wildlife licenses annually with the Consumer Price Index (CPI).

Consumer Price Indices for the Denver-Aurora-Lakewood metropolitan statistical area (successor to the Denver-Boulder-Greeley statistical area) are compiled by the United States Bureau of Labor Statistics. CPI figures are reported bimonthly, in addition to the average CPI for the first half of the calendar year, the average CPI for the second half of the calendar year, and the average CPI for the entire calendar year. The chart below shows the average CPI for the first half of each year.

<b>Consumer Price Index - All Urban Consumers</b> Denver-Aurora-Lakewood Metropolitan Area	
First Half 2018	260.790
First Half 2019	264.147
First Half 2020	271.264
First Half 2021	276.290
First Half 2022	300.002
Annual Percentage Change (2022 Base Year)	8.6%
Cumulative Percentage Change (Rounded) (2018 Base Year)	15.0%

The CPI calculation above yields the following fees as adjusted in regulation. The fees shown in the highlighted column are the statutory caps for each license fee. The Parks and Wildlife Commission may reduce these as appropriate through the rule-making process.

License prices established in Appendix F of Chapter W-0 are the actual license price. The discounts applied from the statutory maximum price for select licenses have been provided in Chapters W-2 and W-3. The 2022 nonresident license fee comparison for other mountain states has also been included in the mailing for reference.

**Updating retail agent commission rates according to inflationary increase in license prices**

Previously adopted regulations set the retail agent commission at 4.75% of the license fee, except for those commissions that are fixed, as described below. Statutorily, the Commission may set these rates wherever feasible. Historically, the year-to-year Consumer Price Index (CPI) change has been used as a guideline for setting these rates. However, in 2019 CPW proposed fixed commission rates for different types of licenses (6.7% for fishing/small game, and 3.6% for nonresident big game). The fixed rates approved in 2019 yield the following retail agent commissions for the 2023 license year:

If said tax return is not available, a return for the year immediately preceding such year shall suffice. **MAILING - 08/26/2022**  
**Basis and Purpose**  
**Chapter W-0 - General Provisions**

**Basis and Purpose:**

Following the passage of the Hunting, Fishing, and Parks for Future Generations Act (SB 18-143), the Colorado Parks and Wildlife Commission has the authority to adjust most wildlife licenses annually with the Consumer Price Index (CPI).

Consumer Price Indices for the Denver-Aurora-Lakewood metropolitan statistical area (successor to the Denver-Boulder-Greeley statistical area) are compiled by the United States Bureau of Labor Statistics. CPI figures are reported bimonthly, in addition to the average CPI for the first half of the calendar year, the average CPI for the second half of the calendar year, and the average CPI for the entire calendar year. The chart below shows the average CPI for the first half of each year.

<b>Consumer Price Index - All Urban Consumers</b> Denver-Aurora-Lakewood Metropolitan Area	
First Half 2018	260.790
First Half 2019	264.147
First Half 2020	271.264
First Half 2021	276.290
First Half 2022	300.002
Annual Percentage Change (2022 Base Year)	8.6%
Cumulative Percentage Change (Rounded) (2018 Base Year)	15.0%

The CPI calculation above yields the following fees as adjusted in regulation. The fees shown in the highlighted column are the statutory caps for each license fee. The Parks and Wildlife Commission may reduce these as appropriate through the rule-making process.

## 4. Preference Systems

Note: see also §33-4-103, C.R.S.

- a. Landowner Preference: General Provisions
  1. Preference for hunting licenses under the Landowner Preference Program shall only be given to eligible landowners who apply using the Landowner registration form(s) provided by the division. Only complete and correct registration forms will be accepted. Except for the carryover registration provided in § 33-4-103(2)(c), C.R.S., registration in the Landowner Preference Program is valid for 5 years. All landowners shall re-register their properties every 5 years (or on or before July 1, 2016 for carryover registrations) to continue participation, if desired, in the Landowner Preference Program.
  2. As a condition of registration and participation in the Landowner Preference Program, landowners shall provide and maintain accurate ownership information with the division for all lands registered in the

Program. During the statutory period of carryover registration provided in §33-4-103(2)(c), C.R.S., and any five-year registration period, landowners shall notify the division of any changes to required registration information in writing within 30 days.

3. Landowner preference is species specific and available only in units that are totally limited for all rifle licenses for deer, elk or pronghorn and vouchers will be allocated to eligible landowners by unit, species, sex and season. In units where vouchers remain after the initial allocation, eligible landowners may apply for the unused vouchers and shall pay \$25 for each reallocated female (antlerless/doe) and \$40 for each either-sex or male (antlered/buck) voucher. Unsuccessful applicants will receive a refund check.
4. Vouchers not otherwise allocated to landowners as part of the Landowner Preference Program shall be made available as licenses to the general public in the remaining limited licenses draws or sales.
5. All landowners and hunters participating in the Landowner Preference Program shall file reports using the forms provided by the division. Reports must be complete and correct, and submitted to the Division by within 30 days after the close of the season.
6. Landowners and their registered properties may be audited for compliance with eligibility requirements of the Landowner Preference Program during any carryover or 5-year registration period. Notice of any noncompliance will be provided in writing to the landowner and the landowner shall have 30 days to resolve the noncompliance or withdraw the property from the Landowner Preference Program.

b. Landowner Preference: Voucher Requirements and Restrictions

1. Vouchers shall only be transferred by the landowner or the landowner's land manager, if any, directly to an individual to be used by that individual for the purchase of a license. Landowners may only designate one land manager for all lands registered in the Landowner Preference Program in any one unit.
2. The transfer of any voucher must include permission to access and hunt all lands in the unit registered in the Landowner Preference Program for the entire season for which the voucher was awarded. Such access shall be allowed without discrimination between hunters accessing the property, and without restriction other than manner of access restrictions (foot, horseback, vehicular) that are reasonably necessary to prevent damage to property.
3. The transfer of a voucher by any person other than the landowner or the landowner's land manager to any person other than an individual for purchase of a license is prohibited. Violation of this prohibition shall void the voucher and any license purchased with it.
4. No person shall broker a voucher on behalf of any landowner or person, or use or possess any brokered voucher. Violation of this prohibition shall void the voucher and any license purchased with it.

c. Landowner Preference: Disqualification

1. Landowners, or the landowner's land manager, who fail to comply with any requirements of the Landowner Preference Program, may be disqualified from participation in the Program from one to five years. Disqualification of a joint or co-owner of property registered with the Landowner Preference Program shall disqualify all other joint or co-owners of the registered properties from participation in the Program.
  2. Disqualification of a landowner from the Landowner Preference Program shall invalidate all preference points associated with property registered by the landowner in the Program.
  3. Any landowner, or the landowner's land manager, that has been disqualified from the Landowner Preference Program shall not register properties, apply for vouchers or acquire or use any vouchers during the term of disqualification. Landowners that have been disqualified from participation in the Landowner Preference Program shall be required to re-register at the end of their period of disqualification and prior to further participation, if desired, in the Program.
  4. Any other person that fails to comply with any requirements of the Landowner Preference Program may also be disqualified from participation in the Landowner Preference Program from one to five years. Any person disqualified shall not participate in the Landowner Preference Program in any manner, including, but not limited to, as a landowner, as a landowner's land manager, enrolling properties in any name, submitting applications for vouchers, receiving vouchers, transferring vouchers, redeeming vouchers or using licenses obtained with vouchers.
  5. Any person convicted of a violation of the Landowner Preference Program will be given notice in writing of their possible disqualification from the Landowner Preference Program and the opportunity to appear and show cause why they should not be disqualified from participation in the Program. Any such disqualification hearing shall be held in the Denver office of the division, or at another location acceptable to the division. Notice of any resulting disqualification shall be sent to the person by certified mail, return receipt requested.

5. Antlered or either-sex licenses for deer or elk and buck pronghorn licenses will be private land only licenses and will be available for hunt codes requiring four or fewer resident preference points to draw in the previous year in all game management units with a total allocation of more than 100 antlered or either-sex deer, 100 antlered or either-sex elk, or 50 buck pronghorn during the rifle seasons described in #250, #257 and #262 of these regulations. Licenses issued for military installations will be exempted from these preference point and minimum license requirements.   2. A request for a Dream Hunt license must be made, in writing, by a sponsoring organization, documenting the individual's life-threatening or terminal condition, desired, hunt experience, desired location, time frame and logistical considerations. Requests should be sent to the Division of Parks and Wildlife, Hunter Outreach Coordinator, 6060 Broadway, Denver, Colorado 80216.
  3. Requested dates for hunting events must occur between August 15 and January 31 each year, with preferred dates occurring during an existing season for the requested species. However, alternate dates may be approved by the Director on a case-by-case basis as an applicant's condition requires.

4. Written landowner permission must be obtained prior to issuance of a license under this subsection if the individual will be hunting on private land.

j. Preference Points and Chances

1. Preference will be given for qualifying applications for first choice hunt codes only and shall be subject to the following provisions:
  - a. Deer, Elk, Pronghorn, and Bear: one preference point will be awarded to each person who qualifies for and fails to draw a limited license for deer, elk, pronghorn, or bear as a first choice in the regular drawing or who applies using a first choice hunt code established for the purpose of accumulating a preference point only. Preference points will be used in future drawings for the same species and will accumulate until the applicant obtains a first choice license. When an applicant obtains a first choice license, all accumulated preference points for that species become void. If an applicant both fails to apply for a species and has not purchased a license for that same species during any given 10-year period, all accumulated preference points for that species become void. If an applicant accepts a first choice license that has been returned and reissued manually, all accumulated preference points for that species become void. No preference points are required for purchasing a returned license placed on the leftover list. In those hunt codes requiring 10 or more resident preference points to draw, up to 20 percent of available licenses for deer, elk, pronghorn and bear shall be issued through a random drawing. The number of preference points required to draw shall be determined by a three-year average for the 2007, 2008, and 2009 limited license draws. A minimum of five individual preference points is required for an applicant to participate in the random drawing. Group applications shall not be eligible to participate in the random drawing.
  - b. Rocky Mountain Bighorn Sheep, Mountain Goat, and Moose: One preference point will be awarded to each person who qualifies for and fails to draw a first choice license, until three preference points have been accumulated. Each time an applicant with three (3) points qualifies for and fails to draw a first choice license for rocky mountain bighorn sheep, mountain goat or moose the applicant will be awarded one (1) weighted preference point to be used in future drawings for that species. Applicants with at least three (3) preference points or any number of weighted preference points will be given weighted preference during the license drawings for each applicable species. Weighted preference is calculated by converting the applicant's original application number into a new random application number, then dividing that random application number by the number of weighted preference points the applicant currently has for that species plus one. The resulting number is the applicant's final and only application number. Final application numbers are sorted from lowest number to highest number, with licenses awarded to applicants starting on the top of the list (lowest number), working down the list until no licenses for that species remain. When an applicant obtains a first choice license, all accumulated preference points for that species become void. If an applicant both fails to apply for a species and has not purchased a license for that same

species during any given 10-year period, all accumulated preference points for that species become void. If an applicant accepts a first choice license that has been returned and reissued, all accumulated preference points for that species become void.

- c. In addition to the ~~\$7.13~~ application fee, [found in the price structure in Chapter W-0 Appendix F](#), a resident applicant who is unsuccessful on their first choice (except youth as defined by 33-4-117 C.R.S., lifetime license holders, and Colorado resident military personnel on active duty outside Colorado), or a resident who applies using a first choice hunt code established for the purpose of accumulating a preference point or weighted preference point only, for moose, Rocky Mountain bighorn sheep, or mountain goat will be assessed a \$50 fee to receive a preference point or weighted preference point. In addition to the ~~\$9.17~~ application fee, [found in the price structure in Chapter W-0 Appendix F](#), a nonresident applicant who is unsuccessful on their first choice (except youth as defined by 33-4-117 C.R.S.), or a nonresident who applies using a first choice hunt code established for the purpose of accumulating a preference point or weighted preference point only, for moose, Rocky Mountain bighorn sheep, or mountain goat will be assessed a \$100 fee to receive a preference point or weighted preference point. The fee, per species, shall entitle the hunter to preference points or weighted preference points for any unsuccessful first choice moose, Rocky Mountain bighorn sheep, or mountain goat application in that year. If the applicant chooses to not pay the preference point fee, the applicant will not receive a preference point or weighted preference point for that application.
- d. Applications receiving preference points will be given priority over all applications with fewer points. Group applications will receive preference at the level of the group member with the fewest accumulated preference points, and, where applicable, the fewest accumulated chances, except that group applications will not be successful, regardless of preference point level or number of chances, when there are fewer licenses remaining in the hunt code quota than the number of applicants in the group.
- e. In lieu of applying through the regular limited license draw, any active duty member of the United States Armed Forces who is stationed at any military facility in Colorado and actively deployed outside the United States, or any active duty member of the United States Armed Forces who is a Colorado resident and is deployed outside the United States, shall, upon their return to the United States, be eligible to apply for preference points for any regular limited license draw that occurred during their absence. Applications for preference points shall be made on forms provided by the Division and filed within six months upon the member's return to the United States.

## 5. Drawing Processes

- a. Applications using landowner preference and youth preference shall be drawn, in that order, prior to drawing general public applications for the same species.

- b. Except as otherwise provided, applicants who applied properly for deer, elk, or pronghorn in the regular drawing and are unsuccessful will be given the option to apply for a leftover drawing.
  - c. Unsuccessful applicants will be notified of their accumulated preference points on their on-line account.
  - d. Nonresident hunter drawing limitations (first choice applications only)
    - 1. Nonresidents hunters shall receive no more than 10% of available moose, bighorn sheep and mountain goat licenses for all hunt codes. In the event there are an insufficient number of nonresident applications for the allocated number of moose, bighorn sheep or mountain goat licenses in any hunt code, the excess nonresident licenses will be issued to residents through the regular drawing process. These drawing limitations do not apply to the issuance of Bighorn Sheep Access Program (BSAP) licenses.
    - 2. Unless there is an insufficient number of resident applications, nonresident hunters shall receive no more than 35% of available deer and elk licenses for hunt codes requiring fewer than six preference points for resident hunters to draw in the regular drawing, and no more than 20% of available deer and elk licenses for hunt codes requiring six or more preference points for resident hunters to draw in the regular drawing as calculated using a three-year average for the 2007, 2008, and 2009 limited license draws. These drawing limitations do not apply to the issuance of Private Land Only and Ranching for Wildlife licenses.
6. Secondary Draw, Leftover Licenses, Drawing Provisions and Restrictions
- a. Elk, deer, pronghorn and bear licenses which are not issued through the regular drawing will be issued through a secondary drawing process if the number of remaining licenses is sufficient to justify the administrative cost, except the following licenses will not be issued through a secondary drawing process:
    - 1. Any license that required five (5) or more resident preference points to draw as determined by the current year's limited license draw unless the license cannot be manually reissued to one of the first five (5) people on the regular draw list prior to the opening of the secondary drawing application period, and
    - 2. Public Ranching for Wildlife licenses.
  - b. Any eligible hunter, ages 12 – 17 shall receive preference for the secondary draw for elk, deer, pronghorn and bear licenses.
  - c. There is no landowner preference for the secondary draw.
  - d. Any active duty member of the United States Armed Forces stationed at any military facility in Colorado and actively deployed outside the United States, or any active duty member of the United States Armed Forces who is a Colorado resident and is deployed outside the United States, shall be allowed a preference for the purchase of leftover licenses prior to their sale to the general public.
  - e. Group applications are not accepted for the secondary draw.

- f. Applicants for the secondary draw must apply on-line or over the phone following the regular drawing.
- g. Secondary draw applications must be submitted no later than 8:00 PM Mountain Time the last business day in June. Applications not submitted by this deadline are void.
- h. Secondary draw applications not submitted by 8:00 PM Mountain Time the last business day in June will become void.
- i. Except for Ranching for Wildlife licenses, any licenses remaining after the secondary draw, will be placed on the leftover license list and will become available through the standard over-the-counter leftover process. For information regarding the availability of leftover Ranching for Wildlife licenses available on a first-come, first-served basis, please refer to the big game drawing brochure or call the Division at (303) 297-1192.

A. Implementation Authority

- 1. The Director is authorized to implement the Bighorn Sheep Access Program (BSAP), including the authority to determine private land enrollment status, enter into cooperative agreements with legal landowners, establish and modify public and private season dates on each property, and establish and modify license allocations to each property including the subsequent distribution of licenses to the public and private share, and may establish additional BSAP operating guidelines subject to the following provisions. All new or renewed contracts must be signed by the Director by October 15 in order to participate in the program the following year.

B. Property Enrollment Constraints

- 1. Properties must have a minimum of 5,000 acres of privately owned land.
- 2. Except under the provisions of regulation #211(E)(5), there must be a sustainable population of Rocky Mountain bighorn sheep that are predictably present on the private lands and at times for which public hunting seasons may be set. All sheep on the property must be a part of a single bighorn sheep herd (DAU). Land under contract may not cross sheep herd boundaries. At least 60% of the sheep herd within the bighorn sheep game management unit to be hunted must be located on private land or State Trust Land.
- 3. Properties may not charge public hunters an access fee for hunting.
- 4. Except as agreed to in writing by the Division, enrolled properties must provide for equality of access in terms of geographical area and mode of transportation for both public and private hunters. No closure or restriction of land or roads shall apply to public hunters that do not also apply to private hunters.
- 5. Public hunts must be established at a time when sheep are present and available for harvest. No public seasons shall be established during times when normal winter conditions would prevent access to most of the property, nor when normal migration patterns would result in sheep having migrated off the property.

6. Ranches that establish coinciding or overlapping public and private hunts may not exclude public hunters from any portion of the property due to the presence of private hunters.
7. The private landowner(s) will provide to each public hunter a property information packet which includes, but is not limited to, property maps showing access routes and camping areas, and landowner contact information.
8. Enrolled properties shall not be eligible for game damage payments or materials for damage caused by Rocky Mountain bighorn sheep.

C. Cooperative Agreements, Enrollment, Termination of Enrollment

1. The Division is authorized to enter into cooperative agreements with private property owners. Multiple private property owners may participate in the program under a single contract as long as all legal owners agree to the same terms and requirements.
2. The Division shall establish minimum performance standards or requirements for properties enrolled in the program. Such performance standards shall be incorporated into the cooperative agreement with each property owner(s). Each cooperative agreement will include an option to renew at the end of the contract period if agreed to by both the Division and private landowner.
3. Each cooperative agreement will also contain a termination clause. Potential termination will be based on public hunter satisfaction that is within the control of the property owner or manager. No future private ram licenses will be allocated to a property after their contract is terminated.

D. Season Structures, Manner of Take, License Restrictions

1. Public and private seasons opening and closing date parameters
  - a. Ram seasons may not begin before August 1 and may not extend beyond December 31.
  - b. Ewe seasons may not begin before September 1 and may not extend beyond January 15.
  - c. Public ram seasons shall always precede private ram seasons. When necessary for private and public seasons to be conducted in the same year, public ram seasons will occur prior to private seasons.
2. Private season length
  - a. Private ram seasons shall not be less than 20 days nor greater than 60 days.
3. Public season length
  - a. Public ram seasons shall be equal or greater in length to the private ram seasons, but not less than 30 days nor greater than 60 days. If multiple ram seasons are necessary to spread out hunting pressure, then season length may be shortened to not less than 20 days per season.
  - b. Ewe seasons shall be not less than 10 days in length with no more than a 5 day overlap with public ram seasons.

4. Method of take for ram hunting will be hunter's choice in accordance with regulation #203 of this chapter. Method of take for ewe hunting will be determined by contract negotiation.
5. License Restrictions
  - a. BSAP licenses are the only licenses valid for hunting sheep on the property, except that auction and raffle licenses may be used when there is not a public season in progress on the property.

E. License Allocation

1. Division staff recommendations regarding license allocations for each property shall be approved by the Director.
2. All ewe licenses allocated are public licenses. The Division shall determine if ewe hunting is needed or desired for sheep management on the property.
3. The public share of the licenses in the following distribution table represents the minimum number of licenses provided to the public. Fractions of licenses shall be rounded up for public distribution licenses.

ROCKY MOUNTAIN BIGHORN SHEEP				
Private Share of Licenses			Public Share of Licenses	
% of total allocation to each enrolled property			% of total allocation to each enrolled property	
Option	Ram	Ewe	Ram	Ewe
A	67	0	33	100
B	75	0	25	100
C	50	0	50	100

4. Enrolled properties with a sustainable Rocky Mountain bighorn sheep population already present will have the choice between two license distribution options (option A or B). In order to receive the license allocation percentages listed in option B, a competent, skilled guide will be provided for free to the public ram hunter. The guide must be competent and knowledgeable of the property and of bighorn sheep behavior and use patterns on the property. The guide provided to the public ram hunter must be the same guide provided to the private ram hunter, unless otherwise agreed to in writing by the Division. Notice of interest must be submitted in writing to the local district wildlife manager by April 1 annually. If the Division approves the transplant and property enrollment, the Division and landowner will share the costs of the trap and transplant operation. When the Division and property owner determine that the transplanted herd can sustain hunting harvest, the property will be opened to hunting under option C. Properties enrolled in the BSAP under option C will be enrolled for a 10-year period with bighorn sheep ram licenses being

issued at a 1:1 public/private ratio during that period. After 10 years of hunting, the landowner may choose to withdraw from the program or re-enroll in a new contract under option A or B.

**Basis and Purpose:**

**Differential pricing for nonresident black bear, resident black bear, youth black bear, nonresident mountain lion and nonresident antlerless elk licenses**

Following the passage of the Hunting, Fishing, and Parks for Future Generations Act (SB 18-143), the Colorado Parks and Wildlife Commission has the authority to adjust most wildlife licenses annually with the Consumer Price Index (CPI). While most resident and nonresident wildlife license fees may now be adjusted based on CPI, differential pricing has been retained for nonresident black bear, resident black bear, youth black bear, nonresident mountain lion, and nonresident antlerless elk licenses to continue incentivizing the purchase of these licenses. However, all of these licenses prices have increased in accordance with the CPI.

The statements of basis and purpose for these regulations can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing [dnr\\_cpw\\_planning@state.co.us](mailto:dnr_cpw_planning@state.co.us) or by visiting the Division of Parks and Wildlife headquarters at 6060 Broadway, Denver, CO, 80216.

**EFFECTIVE DATE - THESE REGULATIONS SHALL BECOME EFFECTIVE JANUARY 1, 2023 AND SHALL REMAIN IN FULL FORCE AND EFFECT UNTIL REPEALED, AMENDED OR SUPERSEDED.**

F. Special Licenses for Nuisance Turkeys

1. The Director shall have the authority to establish special hunting seasons for turkeys, between December 1 and March 31 on an annual basis, when necessary to control nuisance turkeys. The Area Wildlife Manager will determine the type of license(s) (either-sex or hen only) most appropriate to control the conflict.
  - a. Nuisance turkey hunts are limited to a maximum of 50 licenses per landowner, per year.
    1. The Area Wildlife Manager shall provide the landowner with special application forms for distribution to individuals of their choice. Participants shall submit the completed application form with payment to the Division office indicated on the application. Nuisance turkey licenses shall be sold at the fall season license price.
  - b. Prior to approving the hunt, the Division shall:
    1. Verify that conflicts are occurring.
    2. Designate what area shall be open to hunting.
    3. Determine the manner of hunting that will be permitted.
    4. Determine the number of hunters allowed to hunt in each designated area.
  - c. Hunting will be done under the direction of a District Wildlife Manager, following approval by the owner of land where such conflict is occurring.
  - d. Hunters shall hunt in designated areas and on the dates indicated on the license.
    1. A map or a written description of the designated area open to hunting (which would include, but would not be limited to landowner(s) name, game management unit, township, range and section(s) and/or identification of landmarks such as roads, rivers, or fence lines which coincide with boundaries), will be provided to each licensed hunter by the Division.
  - e. Any person who purchases a license for a nuisance turkey season shall be required to complete a Division harvest survey form and return it to the Area office that is nearest the location of the hunt no later than 5 days after the season ends.

**Basis and Purpose:**

**Differential pricing for the nonresident furbearer license, the resident senior combination fishing and small game hunting license, and the resident senior lifetime fishing upgrade to annual combination fishing and small game hunting license**

Following the passage of the Hunting, Fishing, and Parks for Future Generations Act (SB 18-143), the Colorado Parks and Wildlife Commission has the authority to adjust most wildlife licenses annually with the Consumer Price Index (CPI). While most resident and nonresident wildlife license fees may now be adjusted based on CPI, differential pricing has been retained for certain licenses, including the nonresident furbearer license, in order keep the fee equitable with similar license types, such as the small game license. Discounts have also been retained for the resident senior combination fishing and small game hunting license and the resident senior lifetime fishing upgrade to annual combination fishing and small game hunting license. However, all of these licenses prices have increased in accordance with the CPI.

The statements of basis and purpose for these regulations can be obtained from the Colorado Division of Parks and Wildlife, Office of the Regulations Manager by emailing [dnr\\_cpw\\_planning@state.co.us](mailto:dnr_cpw_planning@state.co.us) or by visiting the Division of Parks and Wildlife headquarters at 6060 Broadway, Denver, CO, 80216.

**EFFECTIVE DATE - THESE REGULATIONS SHALL BECOME EFFECTIVE JANUARY 1, 2023 AND SHALL REMAIN IN FULL FORCE AND EFFECT UNTIL REPEALED, AMENDED OR SUPERSEDED.**

#### B. Non-commercial Wildlife Park License

Non-commercial Wildlife Park licenses are issued to a person or persons for the purpose of keeping birds other than raptors, or for species acquired in accordance with section 2 below.

1. A licensee may only buy, propagate, give, trade, exchange, release, import or export any lawfully acquired birds or eggs in accordance with Parks and Wildlife Commission regulations. Such license activity may not be engaged in for the purpose of generating a profit.
2. Persons in possession of a private non-commercial wildlife park license or in lawful non-commercial possession of exotic mammals prior to January 1, 1983 may continue to possess only those individual mammals and their progeny born after January 1, 1982, under a non-commercial wildlife park license.
3. Non-commercial Wildlife Park licenses are nontransferable and shall be valid for the life of the licensee. Any change in the location of the facilities for a noncommercial park must be approved as a license amendment, in advance, by the Division.

#### C. Wildlife Sanctuary Licenses

As provided in § 33-1-106, C.R.S., Wildlife Sanctuary licenses are issued to wildlife sanctuaries as defined in § 33-1-102, C.R.S.

##### 1. Types of Licenses

###### a. Provisional Wildlife Sanctuary

1. Issued to nonprofit entities for the conditional operation of a wildlife sanctuary as defined in 33-1-102, C.R.S. Provisional wildlife sanctuary licenses expire December 31<sup>st</sup> of the year issued and may be renewed for up to one additional year after which time the facility must meet the requirements to obtain and be issued a wildlife sanctuary license. In the event that a facility fails to meet this requirement, all wildlife in possession must be transferred from the facility according to the approved contingency plan and the facility must wait a minimum of 5 years before re-applying for a new provisional wildlife sanctuary license.
2. Except for the provisions of Reg # 1105.A.8, the Division shall determine that the applicant has met the following requirements prior to the issuance of a provisional wildlife sanctuary license:
  - aa. Documentation demonstrating experience in the care and handling of the type of wildlife for which the applicant is seeking authorization to possess on their license.

- bb. Letter of recommendation from a currently licensed Colorado wildlife sanctuary acknowledging the applicant's qualifications in the care and handling of captive wildlife.

b. Wildlife Sanctuary

1. Prior to the annual issuance or renewal of a wildlife sanctuary license, the Division shall determine that the applicant possesses a current provisional wildlife sanctuary license or a current wildlife sanctuary license issued by the Division.
2. All Wildlife Sanctuary licenses may be issued only to nonprofit entities.
3. Wildlife sanctuaries must comply with all requirements of § 33-1-102(52) and § 33-4-102(14), C.R.S.
4. Except as provided herein, wildlife sanctuaries must be an accredited or certified "related facility" by the AZA or accredited or verified by the GFAS prior to and maintain such certification as a condition of the issuance of a wildlife sanctuary license. Facilities previously licensed by the Division as a commercial wildlife park prior to January 1, 2001, and incorporated as a 501(c)(3) non-profit which functioned as wildlife sanctuaries may continue to operate as wildlife sanctuaries under the wildlife parks facility requirements set forth in Regulation No. 1108. In addition, these existing facilities may expand operation onto contiguous property owned by them under those same facilities requirements and without AZA certification. Provided further that, when one of these existing facilities is impacted by an act of nature (e.g. fire or flood) that prevents it from reasonably continuing its operation at the present location, the facility may, with the approval of the Director, move to a new location and continue its operation without being subject to the generally applicable AZA certification requirement, provided the relocated facility complies with the wildlife parks facility requirements set forth in #1108 of these regulations, and all wildlife sanctuary operations at the present locations cease.
5. Wildlife possessed by a wildlife sanctuary shall be surgically sterilized within thirty days of arrival, except that pregnant animals shall be surgically sterilized immediately following weaning and animals eligible for participation in the AZA's Species Survival Plan ("SSP") need not be sterilized. However, documents supporting such SSP eligibility must be provided to the Division within 30 days of arrival at the wildlife sanctuary.

Any nonprofit sanctuary facility previously licensed by the Division as a commercial wildlife park prior to January 1, 2001, shall submit a sterilization plan for wildlife possessed by such facility for approval by the Division. Such plan shall be submitted to the Division by January 1, 2006 and shall provide for surgical sterilization of all wildlife possessed at such facility as of November 1, 2005, in an expeditious manner, but in no event later than May 1, 2007. Wildlife brought onto such a facility after November 1, 2005, shall be surgically sterilized within thirty days of arrival, except that pregnant animals shall be surgically sterilized immediately following weaning.

In lieu of surgical sterilization, wildlife sanctuaries may submit a birth control plan for animals located on the facility for approval by the Division. Such plans may be approved if they provide sufficient assurances against propagation of animals at the facility.

- D. Except as provided herein, no wildlife taken from the wild shall be possessed by any commercial wildlife park, noncommercial wildlife park or wildlife sanctuary in Colorado. Wildlife taken from the wild outside of Colorado may be possessed by a wildlife sanctuary provided:

1. The wildlife has been determined by the wildlife management agency of the source state or country to be habituated and non-releasable and has otherwise authorized the export of the wildlife, and
2. The wildlife has been held in captivity in the source state or country for no less than 24 months. However, the Director may authorize the importation of wildlife that does not meet the captivity period requirement if he/she determines it is proper for management of the Division and otherwise beneficial to the management, preservation or conservation of wildlife resources. In making such determination, the Director shall consider:
  - a. other placement or wildlife management options available to the exporting state or country,
  - b. capacity and resources of the importing wildlife sanctuary,
  - c. impact to state wildlife management programs, and
  - d. any other wildlife management criteria.

Provided however, that no more than one such importation per calendar year (based on a three-year rolling average) may be approved for any wildlife sanctuary.

For the purposes of this regulation, wildlife born in captivity, even if born to wildlife taken from the wild, are not considered "taken from the wild."

Chapter W-11 - Wildlife Parks and Unregulated Wildlife

**Basis and Purpose:**

Following the passage of the Hunting, Fishing, and Parks for Future Generations Act (SB 18-143), the Colorado Parks and Wildlife Commission has the authority to adjust most wildlife licenses annually with the Consumer Price Index (CPI).

Consumer Price Indices for the Denver-Aurora-Lakewood metropolitan statistical area (successor to the Denver-Boulder-Greeley statistical area) are compiled by the United States Bureau of Labor Statistics. CPI figures are reported bimonthly, in addition to the average CPI for the first half of the calendar year, the average CPI for the second half of the calendar year, and the average CPI for the entire calendar year. The chart below shows the average CPI for the first half of each year.

**Basis and Purpose Statement:**

**Updating retail agent commission rates according to inflationary increase in license prices**

Previously adopted regulations set the retail agent commission at 4.75% of the license fee, except for those commissions that are fixed, as described below. Statutorily, the Commission may set these rates wherever feasible. Historically, the year-to-year Consumer Price Index (CPI) change has been used as a guideline for setting these rates. However, in 2019 CPW proposed fixed commission rates for different types of licenses (6.7% for fishing/small game, and 3.6% for nonresident big game). The fixed rates approved in 2019 yield the following retail agent commissions for the 2023 license year:

Division Product Type	2022	2022	2023	2023

## Mountain States License Fee Comparison

The following analysis compares big game license fees and opportunities for mountain states. Although general license stipulations and hunting opportunities vary by state and species, every effort has been made to compare licenses that address similar nonresident hunting opportunities. This analysis is not intended to be a comprehensive summary of all hunting opportunities in all states. For example, several states have programs closely comparable to Ranching for Wildlife, and most states issue special licenses, including disease management, auction/raffle and landowner licenses. This analysis is intended to compare licenses generally available to average non-residents on an over-the-counter or draw basis.
