RE: Chapter W-2 and related provision of Chapter W-3 Final Regulations for the January 2023 Parks and Wildlife Commission Meeting
DATE: January 12, 2023

Final regulatory changes for Chapter W-2 and related provisions of Chapter W-3 are summarized below. If there are questions about the agenda item below, or if additional information is needed, please feel free to contact me at hilary.hernandez@state.co.us.

Agenda Item 10 and 13: Chapter W-2 - “Big Game” 2 CCR 406-2 and those related provisions of Chapter W-3 (“Furbearers and small Game, Except Migratory Birds” 2 CCR 406-3) necessary to accommodate changes to or ensure consistency with Chapter W-2

The season dates for hunt codes DM020P5R and DM029P5R were misprinted in the first mailing as 11/29/2023. The season dates have been corrected to 11/30/2023 for the second mailing.

These regulations amend Chapter 2 - Big Game - of the Parks and Wildlife Commission Regulations and implement 2023 bighorn sheep, and mountain goat license numbers. They also amend season dates for the 2023 big game seasons. These regulations are designed to manage statewide big game herds at herd objective levels and provide a diversity of hunting recreation opportunities for resident and nonresident hunters throughout Colorado; to minimize or control local game damage situations; and to provide opportunity for landowners to cooperatively manage wildlife with the Division. These modifications are the result of extensive public involvement and application of biological information on deer, elk, pronghorn, bear, and moose. All regulation changes are based on the best available biological information and are designed to manage big game herds towards stated objectives and to ensure long-term viability. Specific changes include:

Multiple Species

- **Amending the definition of an adult novice hunter and revising the license list classification for the adult novice hunting license and adult novice ranching for wildlife license**
One of the goals of the hunter outreach program aims to empower novice hunters to go hunting on their own putting their new skills to use. In order to fulfill this goal the adult novice licenses will be reclassified as list C licenses. This change allows novice hunters the most opportunity to put their new skills to use by not restricting the licenses a novice hunter may apply for. Also in Chapter W-3 the definition of a novice hunter will be revised to keep the definition of a novice turkey hunter the same as the definition of a novice big game hunter.

Deer

- **Creating a new 4th rifle antlered deer hunting season in Game Management Units 31 and 32**

The Chronic Wasting Disease (CWD) prevalence rate for bucks in D-41 which includes GMUs 31 and 32 is 6% determined by mandatory testing in 2020 and 2021. A prevalence of 5% or greater in bucks within a DAU triggers management action as per the CPW Colorado Chronic Wasting Disease Response Plan. This fourth rifle season is intended to be a useful tool to manage CWD in this herd.

- **Creating a new 4th rifle antlered deer hunting season in Game Management Unit 30**
Overcrowding and access are both concerns to the public in DAU D-11 which contains GMUs 21 and 30. CWD prevalence in D-11 is estimated at 2.6%, however, two adjacent DAUs (D-7 and D-41) are above the 5% threshold. Adding a fourth rifle season in GMU 30 may reduce some of the hunter crowding complaints by redistributing some deer licenses from second and third season into fourth season while helping to suppress CWD in the area.
- **Creating a list B, private land only (PLO), antlerless whitetail season in Game Management Units 6, 16, 17, 161, and 171 from December 1 through December 31**
During the late fall and winter months, whitetails congregate on private land in areas in and around Walden. In recent years, there has been an increase in vehicle collisions and damage to residential landscaping and agricultural crops from whitetails. In addition, results from mandatory CWD testing on harvested deer in DAU D3, containing the GMUs 6, 16, 17, 161, and 171, show the CWD prevalence of approximately 10% triggering management action. Discussions with residents indicate that Walden area landowners are willing to grant private access for whitetail harvest, especially for youth hunters. Due to the landowners' willingness to grant youth hunters access these PLO licenses will have a youth preference of 50%.
- **Adding early season doe hunt codes in Game Management Units 54, 55, and 551**
The Gunnison Basin deer populations in D21, and D22, which contain GMUs 54, 55, and 551, have seen recent increases. Currently, doe hunt codes are available for the second and third rifle seasons only. The main drawback to this is that the overall experience to other hunters can be reduced as doe tag allocation numbers increase. In addition, the second and third season rifle doe tags appear to be primarily used by public land hunters. However, deer numbers on private lands have perhaps grown at an even higher growth rate than on public lands. Therefore, the current second and third rifle season doe tags do little to nothing to curb the deer population's private land utilization habits. The addition of early season doe hunt codes for private-land only as well as additional early season archery and muzzleloader doe hunt codes, will help release some hunting pressures on public lands during the second and third rifle seasons and target a growing number of private land refuging deer.
- **Expanding DE411P6R to include portions of Game Management Units 52 and 521 and changing the hunt code to DE052P6R**
The hunt code DE411P6R was implemented with the 2020 hunting season in response to documented CWD positive deer in the southern portion of GMU 411 in 2018. This early season either-sex hunt code was designed with a small sub-GMU boundary and early season dates to focus harvest on resident, non-migratory deer in the agricultural lands in the valley bottom. After mandatory sampling in 2020 and 2021, results show a CWD prevalence rate of 7% in D-51, containing GMUs 52, 411, and 521. The harvest locations of CWD positive deer in D-51 still show a pattern of being located in areas that are mostly lower in elevation, primarily on private land, and where irrigated agriculture is the predominant land use. Expanding the hunt code to include portions of GMU 52 and 521 will allow for increased harvest of bucks in the CWD prevalent areas which is beneficial as bucks tend to have higher rates of CWD infection than

does.

- **Modifying the hunt code DM951P7R to be a general private land only antlered license**
Since 2019 there has been high Chronic Wasting Disease (CWD) prevalence in mule deer along the western portions of the South Platte River Corridor in northeast Colorado. The CWD prevalence rate for GMU 951 is estimated at 25% triggering management actions according to Colorado's Statewide Chronic Wasting Disease Response Plans. Recently the number of mule deer in this area has significantly decreased while the population of white-tailed deer has continued to expand across most of the area. Modifying the hunt code will allow hunters to hunt the larger population of white-tailed deer in addition to mule deer in this area. The additional buck harvest will also help achieve CWD management goals within this subunit.
- **Removing the private land only designation from all mule deer and pronghorn licenses in Game Management Unit 83**
For many years, CPW has designated the elk, deer, and pronghorn licenses in GMU 83 as PLO (Private Land Only) licenses because of the unit's lack of public land hunting opportunities. However, CPW recently partnered with Costilla County to manage over 17,000 acres as a State Wildlife Area (San Luis Hills SWA). The partnership provides a unique opportunity in GMU 83 for hunters to access public land to hunt. Previously, the PLO designation was removed on all elk licenses valid in GMU 83, however, the PLO designation for mule deer and pronghorn licenses were missed at that time. Removing the PLO designation now will remedy that oversight.
- **Adding hunt codes for either-sex deer, doe, and cow elk valid only on Centennial Cone Open Space in Game Management Unit 38**
Centennial Cone Open Space is a Jefferson County Open Space property that has allowed hunting for deer and elk since the early 2000s. The current lottery process is time consuming and expensive for both CPW and Jefferson County. Jefferson County is a strong partner with CPW and by adopting these new hunt codes and eliminating the lottery the administrative burdens will be reduced for both agencies.

Elk

- **Splitting Data Analysis Unit E-10 cow elk hunt codes in Game Management Units 21, 22, 30, 31, and 32**
The way the hunt codes are currently split do not allow managers to manage the distribution of hunters between the northern GMUs (21, 22) and the southern GMUs (30, 31, 32) which have vastly different distributions of public land access and hunter densities. Modifying the cow elk licenses in the third and fourth rifle seasons in E-10 by splitting them into northern (GMUs 21, 22) and southern (GMUs 30, 31, 32) licenses will allow for improved management.
- **Restoring Game Management Unit-specific cow rifle licenses for 2nd, 3rd, and 4th seasons in Data Analysis Unit E-16 and the extended private land only cow season in Game Management Unit 444**
In 2019, all of the cow rifle hunt codes in E-16 were compressed into a single hunt code per season for the entire DAU allowing cow licenses to be severely decreased. In the last few years, E-16's elk population has been growing within the current objective range, however, there are observed geographic differences in elk population recovery. The GMUs in the Roaring Fork Valley are maintaining higher numbers while elk numbers in the GMUs in the Eagle River Valley continue to be stagnant. At the same time, some private ranches in GMU 444 have been seeing

more elk inhabiting their properties year-round. Restoring the GMU-specific cow rifle licenses and the extended private land only cow season in GMU 444 will allow for specialized management of elk in these areas.

- **Limiting archery elk licenses in Data Analysis Unit E-14**
A significant increase in archery season participation in E-14 over the last several decades has contributed to hunter crowding, diminished hunter experience and success rates, and perpetuated elk distribution issues between public and private lands. CPW staff do not believe these trends are sustainable, and as a result, limited either-sex archery licenses will be created for GMUs 41, 42, and 421, and GMUs 52 and 411, and GMU 521. These changes will allow managers to more prescriptively control and distribute archery hunters across E-14. In order to provide a high level of management discretion on private lands, existing over the counter either-sex archery licenses and over the counter antlerless archery licenses will continue to be valid on private lands only in GMUs 41, 42, 52, 411, 421, and 521.

Pronghorn

- **Creating private land only hunt codes in Data Analysis Unit PH-5**
Between 2019 and 2021, CPW enrolled 140,000+ acres of State Land Board properties into the Public Access Program (PAP) in GMUs 125 and 126. With the opening of public land staff has noted that hunters are now concentrating in the PAP properties. By creating private land only hunt codes in PH-5 staff will be able to manage the disproportionate amount of pronghorn harvest that has occurred on the recently opened public lands.

Moose

- **Adding bull and cow moose hunting codes in Game Management Units 33 and 34**
Moose sightings in these GMUs have been increasing over the past few years, likely due to expanding moose numbers in adjacent GMUs. There are now enough moose in these GMUs to provide limited hunting opportunities to allow for proactive management of the moose population to avoid moose-human conflicts in this area.
- **Adding cow moose hunt codes in Game Management Units 44 and 45**
Recently moose numbers and moose-human conflicts have continued to grow in these two units. There have been a number of moose road kills and various other incidents that have put both moose and people at risk of severe injury in recent years. Opening these two units for cow moose hunt codes will provide additional management opportunities to manage the moose population in these units.
- **Replacing the hunt codes for cow (MF04701X) and bull (MM04701X) moose in Game Management Unit 47 to create four separate hunt codes in Game Management Units 47, 444, and 471**
Hunt codes MF047 and MM047 currently include GMUs 47, 444, and 471. Staff assumed the licenses offered would be used across the units, but all harvest in 2021 occurred in one portion of a single drainage on the boundary between GMUs 47 and 444. Staff expects the pressure in this drainage will continue. Therefore, new hunt codes will be created to redistribute hunters. These new hunt codes will also allow for better management of moose in other portions of these GMUs that have higher incidents of moose-human conflicts.

Sheep

- **Adding a bighorn sheep ewe hunt code to Data Analysis Unit S-36**
While the population size of the bighorn sheep herd in S-36 is not large for ungulate populations, the traditional areas used by the herd are relatively small resulting in high densities. In the past, this herd has been affected by respiratory disease. Establishing a conservative ewe harvest for this herd may reduce intraspecific competition, increase juvenile survival, lower age at first reproduction, provide hunter opportunity, increase hunter-attained herd information, encourage the use of new habitats and dispersal, and possibly reduce the risk and severity of future disease outbreaks.
- **Revising the Bighorn Sheep Access Program Option C**
The revisions to the bighorn sheep access program aim to clarify the intent of the program by clarifying the terms of an initial cooperative agreement that does not include hunting and the number of hunts that will take place during the 10 years once hunting commences.

Goat

- **Re-opening either-sex mountain goat hunt code GEG1801R in Game Management Unit G18**
After surveying G18 during the summer of 2022, there are now sufficient numbers of mountain goats in this unit to resume mountain goat harvest. The mountain goats in this unit will be managed for a low population size to maintain alpine habitat quality and to avoid issues of habitat and forage competition between native bighorn sheep and non-native mountain goats. The low population objective will also align with the management objectives of neighboring unit G17.

FINAL REGULATIONS - CHAPTER W-2 - BIG GAME

ARTICLE I - GENERAL PROVISIONS

#205 - ANNUAL BAG LIMITS AND MAXIMUM NUMBERS OF LICENSES PER PERSON

- A. Deer, elk, pronghorn, black bear, mountain lion, moose, rocky mountain bighorn sheep, and mountain goat

The annual bag and possession limit for deer, elk, pronghorn, black bear, mountain lion, rocky mountain bighorn sheep, and mountain goat shall be the total number of animals taken on all licenses which can be legally obtained by the hunter for each species during that license year, as established in the following lists. Big game taken during a hunting season established as a portion of the preceding license year's hunting seasons shall be counted as part of the preceding year's bag limit. When a license allows hunting in more than one Game Management Unit, the unit listed in the hunt code on the license shall determine the maximum number of annual licenses a license holder may obtain for that species.

Notwithstanding the ("List A," "List B," "List C") license categories set forth in this regulation, any license that is administratively converted to a private-land-only license as part of the Landowner Preference Program will retain the ("List A," "List B," "List C") status of its original hunt code.

B. Exceptions to Bag Limit Calculation The following big game animals shall not be counted against an annual bag and possession limit for that species:

- 1. Accidental Hunter Take: Any big game animal accidentally taken by a hunter, provided that prior to any further hunting the individual self-reports the incident to the Division as soon as practicable and the Division verifies the claim of accidental kill. For the purposes of this regulation an "accidental kill" means any unintentional taking of wildlife not resulting from carelessness or negligence on the part of the hunter.
 - a. Determination of whether the taking involves carelessness or negligence shall be based on a consideration of the totality of circumstance surrounding the taking including but not necessarily limited to, number of shots fired, number of animals present, number of animals killed or wounded, type of firearm or ammunition used, angle and distance of shot, species of animal, topography, ground cover, and light or weather conditions.
- 2. Accidental Vehicle Kills: Any big game animal accidentally killed by a motor vehicle or train shall not be counted against an annual bag limit for that species.
- 3. Damage Kills: Any big game animal causing damage and taken under the authority of §33-3-106 C.R.S.
- 4. Southern Ute Tribal Lands: Any big game animal taken on a Southern Ute Tribal Lands permit.

#206 - APPLICATIONS AND DRAWINGS FOR LIMITED LICENSES

A. Exceeding of Quota: The Division shall only exceed the number of licenses authorized by the Commission:

- 1. If there is proof of Division error in the application for or issuance of a limited license, provided that the director or his designee determines there will be no detrimental impact to the subject wildlife population.
- 2. To issue licenses to hunters with mobility impairments or United States Armed Services Wounded Warrior hunters, who qualify for such licenses in accordance with regulation #206(B)(4)(e) or #206(B)(4)(f), provided there is no detrimental impact to the established herd population and sex ratio objectives. For each of these two programs:
 - no more than 100 limited antlerless deer, 100 limited doe pronghorn, and 200 limited antlerless elk licenses may be issued each year.
 - no more than 100 total antlered or either-sex licenses for deer or elk and buck pronghorn licenses in the aggregate may be issued each year.

Provided further, that limited license numbers for wildlife ranching properties cannot exceed the levels established by the Division and the landowner on the Ranching for Wildlife Seasons Form.

- a. Landowner Preference: General Provisions
 1. Preference for hunting licenses under the Landowner Preference Program shall only be given to eligible landowners who apply using the Landowner registration form(s) provided by the division. Only complete and correct registration forms will be accepted. Except for the carryover registration provided in § 33-4-103(2)(c), C.R.S., registration in the Landowner Preference Program is valid for 5 years. All landowners shall re-register their properties every 5 years (or on or before July 1, 2016 for carryover registrations) to continue participation, if desired, in the Landowner Preference Program.
 2. As a condition of registration and participation in the Landowner Preference Program, landowners shall provide and maintain accurate ownership information with the division for all lands registered in the Program. During the statutory period of carryover registration provided

in §33-4-103(2)(c), C.R.S., and any five-year registration period, landowners shall notify the division of any changes to required registration information in writing within 30 days.

3. Landowner preference is species specific and available only in units that are totally limited for all rifle licenses for deer, elk or pronghorn and vouchers will be allocated to eligible landowners by unit, species, sex and season. In units where vouchers remain after the initial allocation, eligible landowners may apply for the unused vouchers and shall pay \$25 for each reallocated female (antlerless/doe) and \$40 for each either-sex or male (antlered/buck) voucher. Unsuccessful applicants will receive a refund check.
4. Vouchers not otherwise allocated to landowners as part of the Landowner Preference Program shall be made available as licenses to the general public in the remaining limited licenses draws or sales.

6. Landowners and their registered properties may be audited for compliance with eligibility requirements of the Landowner Preference Program during any carryover or 5-year registration period. Notice of any noncompliance will be provided in writing to the landowner and the landowner shall have 30 days to resolve the noncompliance or withdraw the property from the Landowner Preference Program.

b. Landowner Preference: Voucher Requirements and Restrictions

1. Vouchers shall only be transferred by the landowner or the landowner's land manager, if any, directly to an individual to be used by that individual for the purchase of a license. Landowners may only designate one land manager for all lands registered in the Landowner Preference Program in any one unit.
2. The transfer of any voucher must include permission to access and hunt all lands in the unit registered in the Landowner Preference Program for the entire season for which the voucher was awarded. Such access shall be allowed without discrimination between hunters accessing the property, and without restriction other than manner of access restrictions (foot, horseback, vehicular) that are reasonably necessary to prevent damage to property.
3. The transfer of a voucher by any person other than the landowner or the landowner's land manager to any person other than an individual for purchase of a license is prohibited. Violation of this prohibition shall void the voucher and any license purchased with it.
4. No person shall broker a voucher on behalf of any landowner or person, or use or possess any brokered voucher. Violation of this prohibition shall void the voucher and any license purchased with it.

c. Landowner Preference: Disqualification

1. Landowners, or the landowner's land manager, who fail to comply with any requirements of the Landowner Preference Program, may be disqualified from participation in the Program from one to five years. Disqualification of a joint or co-owner of property registered with the Landowner Preference Program shall disqualify all other joint or co-owners of the registered properties from participation in the Program.
 2. Disqualification of a landowner from the Landowner Preference Program shall invalidate all preference points associated with property registered by the landowner in the Program.
 3. Any landowner, or the landowner's land manager, that has been disqualified from the Landowner Preference Program shall not register properties, apply for vouchers or acquire or use any vouchers during the term of disqualification. Landowners that have been disqualified from participation in the Landowner Preference Program shall be required to re-register at the end of their period of disqualification and prior to further participation, if desired, in the Program.
 4. Any other person that fails to comply with any requirements of the Landowner Preference Program may also be disqualified from participation in the Landowner Preference Program from one to five years. Any person disqualified shall not participate in the Landowner Preference Program in any manner, including, but not limited to, as a landowner, as a landowner's land manager, enrolling properties in any name, submitting applications for vouchers, receiving vouchers, transferring vouchers, redeeming vouchers or using licenses obtained with vouchers.
 5. Any person convicted of a violation of the Landowner Preference Program will be given notice in writing of their possible disqualification from the Landowner Preference Program and the opportunity to appear and show cause why they should not be disqualified from participation in the Program. Any such disqualification hearing shall be held in the Denver office of the division, or at another location acceptable to the division. Notice of any resulting disqualification shall be sent to the person by certified mail, return receipt requested.
- d. Youth Preference - a minimum of 15 percent of the number of the limited doe pronghorn licenses, limited either-sex and antlerless deer licenses and limited antlerless elk licenses established for each GMU shall be made available for purchase by qualified youth applicants. The applicant must submit an individual application for the desired, eligible license on forms provided by the Division. Group applications will not be accepted for youth preference. Where more than one (1) hunt code choice is shown on the application, all hunt codes must be youth preference-eligible hunt codes or youth-only hunt codes.

2. Youth preference will be set at 50% for all antlerless deer licenses in GMUs 54, 55, 66, 67, and 551.

For the 2001 seasons and thereafter, once certified by the Division as mobility-impaired according to these regulations, applicants will not be required to submit the medical statement.
 4. Antlerless deer and elk and doe pronghorn licenses will be available in all game management units with a total allocation of more than 100 antlerless deer or 100 antlerless elk or 50 doe pronghorn during the rifle seasons described in #250, #257, and #262 of these regulations. Licenses for hunters with mobility impairments may not be issued for Ranching for Wildlife properties unless otherwise provided in the ranch contract.
- h. Wounded Warrior Hunting Licenses - The Director may make certain deer, elk, and pronghorn licenses available to qualified participants in any United States Armed Services Wounded Warrior programs.

For any one game management unit no more than 10 licenses or 2 percent of the total number of limited antlerless deer or elk or doe pronghorn licenses for the game management unit, whichever number is greater, shall be issued as Wounded Warrior hunting licenses for the species in question.
 5. Antlered or either-sex licenses for deer or elk and buck pronghorn licenses will be private land only licenses and will be available for hunt codes requiring four or fewer resident preference points to draw in the previous year in all game management units with a total allocation of more than 100 antlered or either-sex deer, 100 antlered or either-sex elk, or 50 buck pronghorn during the rifle seasons described in #250, #257 and #262 of these regulations. Licenses issued for military installations will be exempted from these preference point and minimum license requirements.  2. A request for a Dream Hunt license must be made, in writing, by a sponsoring organization, documenting the individual's life-threatening or terminal condition, desired, hunt experience, desired location, time frame and logistical considerations. Requests should be sent to the Division of Parks and Wildlife, Hunter Outreach Coordinator, 6060 Broadway, Denver, Colorado 80216.

3. Requested dates for hunting events must occur between August 15 and January 31 each year, with preferred dates occurring during an existing season for the requested species. However, alternate dates may be approved by the Director on a case-by-case basis as an applicant's condition requires.
4. Written landowner permission must be obtained prior to issuance of a license under this subsection if the individual will be hunting on private land.

j. Preference Points and Chances

1. Preference will be given for qualifying applications for first choice hunt codes only and shall be subject to the following provisions:
 - a. Deer, Elk, Pronghorn, and Bear: one preference point will be awarded to each person who qualifies for and fails to draw a limited license for deer, elk, pronghorn, or bear as a first choice in the regular drawing or who applies using a first choice hunt code established for the purpose of accumulating a preference point only. Preference points will be used in future drawings for the same species and will accumulate until the applicant obtains a first choice license. When an applicant obtains a first choice license, all accumulated preference points for that species become void. If an applicant both fails to apply for a species and has not purchased a license for that same species during any given 10-year period, all accumulated preference points for that species become void. If an applicant accepts a first choice license that has been returned and reissued manually, all accumulated preference points for that species become void. No preference points are required for purchasing a returned license placed on the leftover list. In those hunt codes requiring 10 or more resident preference points to draw, up to 20 percent of available licenses for deer, elk, pronghorn and bear shall be issued through a random drawing. The number of preference points required to draw shall be determined by a three-year rolling average for the previous three limited license draws with a one year lag. A minimum of five individual preference points is required for an applicant to participate in the random drawing. Group applications shall not be eligible to participate in the random drawing.
 - b. Rocky Mountain Bighorn Sheep, Mountain Goat, and Moose: One preference point will be awarded to each person who qualifies for and fails to draw a first choice license, until three preference points have been accumulated. Each time an applicant with three (3) points qualifies for and fails to draw a first choice license for rocky mountain bighorn sheep, mountain goat or moose the applicant will be awarded one (1) weighted preference point to be used in future drawings for that species. Applicants with at least three (3) preference points or any number of weighted preference points will be given weighted preference during the license drawings for each applicable species. Weighted preference is calculated by converting the applicant's original application number into a new random application number, then dividing that random application number by the number of weighted preference points the applicant currently has for that species plus one. The resulting number is the applicant's final and only application number. Final application numbers are

sorted from lowest number to highest number, with licenses awarded to applicants starting on the top of the list (lowest number), working down the list until no licenses for that species remain. When an applicant obtains a first choice license, all accumulated preference points for that species become void. If an applicant both fails to apply for a species and has not purchased a license for that same species during any given 10-year period, all accumulated preference points for that species become void. If an applicant accepts a first choice license that has been returned and reissued, all accumulated preference points for that species become void.

- c. In addition to the application fee, found in Chapter W-0 Appendix F, a resident applicant who is unsuccessful on their first choice (except youth as defined by 33-4-117 C.R.S., lifetime license holders, and Colorado resident military personnel on active duty outside Colorado), or a resident who applies using a first choice hunt code established for the purpose of accumulating a preference point or weighted preference point only, for moose, Rocky Mountain bighorn sheep, or mountain goat will be assessed a \$50 fee to receive a preference point or weighted preference point. In addition to the application fee, found in Chapter W-0 Appendix F, a nonresident applicant who is unsuccessful on their first choice (except youth as defined by 33-4-117 C.R.S.), or a nonresident who applies using a first choice hunt code established for the purpose of accumulating a preference point or weighted preference point only, for moose, Rocky Mountain bighorn sheep, or mountain goat will be assessed a \$100 fee to receive a preference point or weighted preference point. The fee, per species, shall entitle the hunter to preference points or weighted preference points for any unsuccessful first choice moose, Rocky Mountain bighorn sheep, or mountain goat application in that year. If the applicant chooses to not pay the preference point fee, the applicant will not receive a preference point or weighted preference point for that application.
- d. Applications receiving preference points will be given priority over all applications with fewer points. Group applications will receive preference at the level of the group member with the fewest accumulated preference points, and, where applicable, the fewest accumulated chances, except that group applications will not be successful, regardless of preference point level or number of chances, when there are fewer licenses remaining in the hunt code quota than the number of applicants in the group.
- e. In lieu of applying through the regular limited license draw, any active duty member of the United States Armed Forces who is stationed at any military facility in Colorado and actively deployed outside the United States, or any active duty member of the United States Armed Forces who is a Colorado resident and is deployed outside the United States, shall, upon their return to the United States, be eligible to apply for preference points for any regular limited license draw that occurred during their absence. Applications for preference points shall be made on forms provided by the Division and filed within six months upon the member's return to the United States.

5. Drawing Processes

- a. Applications using landowner preference and youth preference shall be drawn, in that order, prior to drawing general public applications for the same species.
- b. Except as otherwise provided, applicants who applied properly for deer, elk, or pronghorn in the regular drawing and are unsuccessful will be given the option to apply for a leftover drawing.
- c. Unsuccessful applicants will be notified of their accumulated preference points on their on-line account.
- d. Nonresident hunter drawing limitations (first choice applications only)
 - 1. Nonresidents hunters shall receive no more than 10% of available moose, bighorn sheep and mountain goat licenses for all hunt codes. In the event there are an insufficient number of nonresident applications for the allocated number of moose, bighorn sheep or mountain goat licenses in any hunt code, the excess nonresident licenses will be issued to residents through the regular drawing process. These drawing limitations do not apply to the issuance of Bighorn Sheep Access Program (BSAP) licenses.
 - 2. Unless there is an insufficient number of resident applications, nonresident hunters shall receive no more than 35% of available deer, elk, bear and pronghorn licenses for hunt codes requiring fewer than six preference points for resident hunters to draw in the regular drawing, and no more than 20% of available deer, elk, bear and pronghorn licenses for hunt codes requiring six or more preference points for resident hunters to draw in the regular drawing as calculated using a rolling three-year average for the previous three limited license draws with a one year lag. These drawing limitations do not apply to the issuance of Private Land Only and Ranching for Wildlife licenses.

6. Secondary Draw, Leftover Licenses, Drawing Provisions and Restrictions

- a. Elk, deer, pronghorn and bear licenses which are not issued through the regular drawing will be issued through a secondary drawing process if the number of remaining licenses is sufficient to justify the administrative cost, except the following licenses will not be issued through a secondary drawing process:
 - 1. Any license that required five (5) or more resident preference points to draw as determined by the current year's limited license draw unless the license cannot be manually reissued to one of the first five (5) people on the regular draw list prior to the opening of the secondary drawing application period, and
 - 2. Public Ranching for Wildlife licenses.
- b. Any eligible hunter, ages 12 – 17 shall receive preference for the secondary draw for elk, deer, pronghorn and bear licenses.
- c. There is no landowner preference for the secondary draw.
- d. Any active duty member of the United States Armed Forces stationed at any military facility in Colorado and actively deployed outside the United States, or any active duty member of the United States Armed Forces who is a Colorado

resident and is deployed outside the United States, shall be allowed a preference for the purchase of leftover licenses prior to their sale to the general public.

- e. Group applications are not accepted for the secondary draw.
- f. Applicants for the secondary draw must apply on-line or over the phone following the regular drawing.
- g. Secondary draw applications must be submitted no later than 8:00 PM Mountain Time the last business day in June. Applications not submitted by this deadline are void.
- h. Secondary draw applications not submitted by 8:00 PM Mountain Time the last business day in June will become void.
- i. Except for Ranching for Wildlife licenses, any licenses remaining after the secondary draw, will be placed on the leftover license list and will become available through the standard over-the-counter leftover process. For information regarding the availability of leftover Ranching for Wildlife licenses available on a first-come, first-served basis, please refer to the big game drawing brochure or call the Division at (303) 297-1192.

#211- BIGHORN SHEEP ACCESS PROGRAM

A. Implementation Authority

- 1. The Director is authorized to implement the Bighorn Sheep Access Program (BSAP), including the authority to determine private land enrollment status, enter into cooperative agreements with legal landowners, establish and modify public and private season dates on each property, and establish and modify license allocations to each property including the subsequent distribution of licenses to the public and private share, and may establish additional BSAP operating guidelines subject to the following provisions. All new or renewed contracts must be signed by the Director by October 15 in order to participate in the program the following year.

B. Property Enrollment Constraints

- 1. Properties must have a minimum of 5,000 acres of privately owned land.
- 2. Except under the provisions of regulation #211(E)(5), there must be a sustainable population of Rocky Mountain bighorn sheep that are predictably present on the private lands and at times for which public hunting seasons may be set. All sheep on the property must be a part of a single bighorn sheep herd (DAU). Land under contract may not cross sheep herd boundaries. At least 60% of the sheep herd within the bighorn sheep game management unit to be hunted must be located on private land or State Trust Land.
- 3. Properties may not charge public hunters an access fee for hunting.
- 4. Except as agreed to in writing by the Division, enrolled properties must provide for equality of access in terms of geographical area and mode of transportation for both public and private hunters. No closure or restriction of land or roads shall apply to public hunters that do not also apply to private hunters.

5. Public hunts must be established at a time when sheep are present and available for harvest. No public seasons shall be established during times when normal winter conditions would prevent access to most of the property, nor when normal migration patterns would result in sheep having migrated off the property.
6. Ranches that establish coinciding or overlapping public and private hunts may not exclude public hunters from any portion of the property due to the presence of private hunters.
7. The private landowner(s) will provide to each public hunter a property information packet which includes, but is not limited to, property maps showing access routes and camping areas, and landowner contact information.
8. Enrolled properties shall not be eligible for game damage payments or materials for damage caused by Rocky Mountain bighorn sheep.

C. Cooperative Agreements, Enrollment, Termination of Enrollment

1. The Division is authorized to enter into cooperative agreements with private property owners. Multiple private property owners may participate in the program under a single contract as long as all legal owners agree to the same terms and requirements.
2. The Division shall establish minimum performance standards or requirements for properties enrolled in the program. Such performance standards shall be incorporated into the cooperative agreement with each property owner(s). Each cooperative agreement will include an option to renew at the end of the contract period if agreed to by both the Division and private landowner.
3. Each cooperative agreement will also contain a termination clause. Potential termination will be based on public hunter satisfaction that is within the control of the property owner or manager. No future private ram licenses will be allocated to a property after their contract is terminated.

D. Season Structures, Manner of Take, License Restrictions

1. Public and private seasons opening and closing date parameters
 - a. Ram seasons may not begin before August 1 and may not extend beyond December 31.
 - b. Ewe seasons may not begin before September 1 and may not extend beyond January 15.
 - c. Public ram seasons shall always precede private ram seasons. When necessary for private and public seasons to be conducted in the same year, public ram seasons will occur prior to private seasons.
2. Private season length
 - a. Private ram seasons shall not be less than 20 days nor greater than 60 days.
3. Public season length
 - a. Public ram seasons shall be equal or greater in length to the private ram seasons, but not less than 30 days nor greater than 60 days. If multiple ram

seasons are necessary to spread out hunting pressure, then season length may be shortened to not less than 20 days per season.

- b. Ewe seasons shall be not less than 10 days in length with no more than a 5 day overlap with public ram seasons.
- 4. Method of take for ram hunting will be hunter's choice in accordance with regulation #203 of this chapter. Method of take for ewe hunting will be determined by contract negotiation.
- 5. License Restrictions
 - a. BSAP licenses are the only licenses valid for hunting sheep on the property, except that auction and raffle licenses may be used when there is not a public season in progress on the property.

E. License Allocation

- 1. Division staff recommendations regarding license allocations for each property shall be approved by the Director.
- 2. All ewe licenses allocated are public licenses. The Division shall determine if ewe hunting is needed or desired for sheep management on the property.
- 3. The public share of the licenses in the following distribution table represents the minimum number of licenses provided to the public. Fractions of licenses shall be rounded up for public distribution licenses.

ROCKY MOUNTAIN BIGHORN SHEEP				
Private Share of Licenses			Public Share of Licenses	
Option	% of total allocation to each enrolled property		% of total allocation to each enrolled property	
	Ram	Ewe	Ram	Ewe
A	67	0	33	100
B	75	0	25	100
C	50	0	50	100

- 4. Enrolled properties with a sustainable Rocky Mountain bighorn sheep population already present will have the choice between two license distribution options (option A or B). In order to receive the license allocation percentages listed in option B, a competent, skilled guide will be provided for free to the public ram hunter. The guide must be competent and knowledgeable of the property and of bighorn sheep behavior and use patterns on the property. The guide provided to the public ram hunter must be the same guide provided to the private ram hunter, unless otherwise agreed to in writing by the Division. In order to receive the license allocation percentages listed in option A, each public sheep hunter will receive free access to the property and a free area for camping if the property is located 40 minutes or more from public accommodations. No free guiding services are provided under option A.
- 5. Option C is available for property owners who would like their land evaluated for bighorn sheep transplant or augmentation for inclusion in the BSAP under option C. Notice of interest must be submitted in writing to the local district wildlife manager by April 1

annually. If the Division approves the transplant and property enrollment, the Division and landowner will share the costs of the trap and transplant operation. Prior to the transplant, the Division and the ranch will enter a cooperative agreement under option C. The cooperative agreement will extend 10 years beyond the time of transplant. The cooperative agreement may be amended to extend it for additional years if hunting was not initiated within the 10-year cooperative agreement period. When the Division and property owner determine that the ~~transplanted~~ herd can sustain hunting harvest, the original cooperative agreement will be amended to include provisions for season dates, licenses and any bighorn sheep habitat management plans agreed to by the landowner and the Division. property will be opened to hunting under option C. Properties enrolled in the BSAP under option C will be enrolled for a 10-year period with bighorn sheep. When hunting is initiated, ram licenses being will be issued at a 1:1 public/private ratio during that period for 10 hunting seasons. After ~~the 10 years of~~ hunting seasons, the landowner may choose to withdraw from the program or re-enroll in a new contract under option A or B.

6. Public ram hunters will be allowed to bring a maximum of two additional non-hunting persons with them onto the property during their hunt. Ewe hunters will be allowed to bring a maximum of one additional non-hunting person with them onto the property during their hunt.
7. Landowners are not required to provide pre-draw or pre-season scouting access in any license allocation option.

F. License Distribution

 - a. Applications for private ram licenses stamped with the ranch name and season dates shall be available to the landowner for distribution.
 - b. Public hunter licenses shall be available through application and selection from the Division during the annual limited license drawing process.

An open season is any season in which licenses are issued by the Division for the species in question by drawing, over the counter, or in a Special Management License unit for bighorn sheep or mountain goat, upon request from an Auction and Raffle hunter as approved by the Division. Each PAC shall be made up of a spokesperson representative from each nonprofit, conservation organization selling an auction or raffle license for that species and a spokesperson representative of the Division. In addition, the USFS, BLM, and other potentially affected land management agencies shall each have the opportunity to provide a spokesperson representative for each PAC at their discretion.
2. The Division shall be responsible for annual solicitation of project proposals requesting auction and raffle funding with a deadline no later than April 30th of each year. Each conservation organization receiving an auction or raffle license for sale shall enter into an agreement with the Division that includes requirements for auction and raffle income and disposition records. Each organization shall maintain records of activities relating to auction and raffle proceeds retained by the organization. Such records shall be available for inspection by the Division at all reasonable times and subject to audit by the state.

2. The Division shall provide each conservation organization with a list of all projects that have been approved for auction and raffle funding each year.
3. The Division shall provide the PAC committees with current auction and raffle fund balances by May 1st of each year.
4. Recipients of auction and raffle funds must provide an annual status report to the Division by July 1st for each fiscal year funding is provided. In some cases the Division may also request a comprehensive final report. At a minimum, such reports must provide a summary of accomplishments and results in relation to proposal objectives and a basic accounting of auction and raffle fund expenditures. The Division may request additional follow-up information such as more detailed records of results and expenditures. Failure to provide a satisfactory report or follow-up information can result in termination of auction and raffle funding at the discretion of the Division. The Division shall provide copies of available annual status reports and final reports to each PAC upon request.

#257.5 - SPECIAL RESTRICTIONS

A. Unit 512 - Air Force Academy

Hunters must apply in person, no later than May 31 annually to participate in a random drawing to be placed on a priority list of hunters. Applications along with a non-refundable application fee not to exceed \$10.00 will be accepted at the Academy's Outdoor Recreation Center, Building 5136 - Community Center Drive, AFA, Colorado Springs.

The first 15 hunters drawn will be placed on the list and will be notified of their placement by June 15 annually. When elk are available to be hunted, up to 4 hunters will be called. After obtaining a license, paying a fee not to exceed \$30.00 to the Academy and receiving a safety briefing, hunters will be escorted on the hunt. Hunters may decline one opportunity to hunt and hold their place on the list. Hunts will continue when possible until (30) antlerless elk have been taken.

B. Units 79 (south of Colo 112), 82, 682 and 791 – San Luis Valley Damage Elk Hunts

1. The purpose of these hunts is to provide flexibility in managing damage by elk and maintain landowners' rights to determine who may enter their property. Most license vouchers may be issued to friends and family of the landowner. Opportunities for non-associated public hunters may exist and will be selected from a list of interested hunters.
2. License vouchers may be transferred one time only, and shall only be transferred by the landowner to the hunter that will use the voucher to purchase the license. Third-party brokering of landowner vouchers is not permitted. Violation of this subsection shall invalidate the applicable landowner voucher and any license purchased with it.
3. Public hunters must apply no later than July 15 annually, to participate in a random drawing to be placed on a priority list of hunters. Applications will be accepted at the Monte Vista Service Center at 0722 S Rd. 1 E, Monte Vista.
4. Hunters drawn will be placed on the list and the top 10 hunters on the list will be notified of their placement no later than August 15 annually. When elk are available to be hunted, up to 4 hunters will be called. Hunters may decline one opportunity to hunt and hold their place on the list. Hunts will be conducted on an as-needed basis to alleviate game damage.

C. Units 80, 82, and 83 – San Luis Valley US Fish and Wildlife Refuge Permits

1. The United States Fish and Wildlife Service (USFWS) allows a maximum of five (5) elk hunters to access and hunt on the Alamosa (GMU 83) and Monte Vista (GMU 80) National Wildlife Refuges at any one time. This application and drawing process creates a hunter list for each season identifying the first five (5) hunters and the position of the others on the list. As elk are harvested, hunters from the list are given permits to hunt. To be eligible for an access permit, hunters must hold an elk license that is valid for the season and refuge for which they wish to apply. The following seasons are currently open to permitted hunting on each of these refuges:
 - a. Archery;
 - b. Muzzleloader;
 - c. First rifle;
 - d. Second rifle;
 - e. Third rifle;
 - f. Fourth rifle.

2. To be entered into the drawing, eligible hunters must email the following address starting the day after left-over license day: montevista.wildlife@state.co.us. Hunters will receive an automatic email response with a link to the Refuge Access Permit Application Form. Hunters must provide the following information to apply:
 - a. The hunter's name, phone number and email address. The email address of another person will be accepted as long as the hunter can be contacted directly via the phone number provided.
 - b. The hunter must have purchased a license that is valid for both the unit and the refuge prior to submitting the application.
 - c. The hunt code for the license with which they wish to hunt.
 - d. The hunter's customer identification number (CID).

Hunters will need to complete the Application Form and select the correct refuge for which their license is valid in order to be entered. Applications will be accepted for five days starting the day after the left-over license day. Permits for the refuges will be issued via email after a random drawing held under the direct supervision of the area wildlife manager and no later than August 25.

3. The Baca National Wildlife Refute (GMU 82) is open to hunters who have purchased a valid regular season public land elk license for GMU 82. Contact the Monte Vista office for refuge-specific rules and information.

E. Special Restrictions

1. All moose licensees shall complete and return a harvest questionnaire provided by the Division within 30 days after the close of their hunting season. Any moose licensee who does not complete and return the mandatory questionnaire as required shall not be considered for any future moose license.
2. All moose harvested through hunting shall be submitted for inspection to an employee of the Division on or before the 5th working day after the taking thereof. Any licensee who takes an antlered moose shall personally present the head, with antlers attached, to any Division office. Any licensee who takes an antlerless moose shall personally present a front incisor tooth or the entire head to any Division office. Moose heads must be unfrozen when presented for inspection. If not unfrozen, the Division may retain heads as necessary for thawing sufficient to extract the incisor teeth. A mandatory check report shall be completed at the time of inspection.
3. At the time of the mandatory check, the Division shall be authorized to extract and retain the incisor teeth.

Basis and Purpose:

These regulations amend Chapter 2 – Big Game – of the Parks and Wildlife Commission Regulations and implement 2023 bighorn sheep, and mountain goat license numbers. They also amend season dates for the 2023 big game seasons. These regulations are designed to manage statewide big game herds at herd objective levels and provide a diversity of hunting recreation opportunities for resident and nonresident hunters throughout Colorado; to minimize or control local game damage situations; and to provide opportunity for landowners to cooperatively manage wildlife with the Division. These modifications are the result of extensive public involvement and application of biological information on deer, elk, pronghorn, bear, and moose. All regulation changes are based on the best available biological information and are designed to manage big game herds towards stated objectives and to ensure long-term viability. Specific changes include:

Multiple Species

- **Amending the definition of an adult novice hunter and revising the license list classification for the adult novice hunting license and adult novice ranching for wildlife license**

One of the goals of the hunter outreach program aims to empower novice hunters to go hunting on their own putting their new skills to use. In order to fulfill this goal the adult novice licenses will be reclassified as list C licenses. This change allows novice hunters the most opportunity to put their new skills to use by not restricting the licenses a novice hunter may apply for.

Deer

- **Creating a new 4th rifle antlered deer hunting season in Game Management Units 31 and 32**

The Chronic Wasting Disease (CWD) prevalence rate for bucks in D-41 which includes GMUs 31 and 32 is 6% determined by mandatory testing in 2020 and 2021. A prevalence of 5% or greater in bucks within a DAU triggers management action as per the CPW Colorado Chronic Wasting Disease Response Plan. This fourth rifle season is intended to be a useful tool to manage CWD in this herd.

- **Creating a new 4th rifle antlered deer hunting season in Game Management Unit 30**

Overcrowding and access are both concerns to the public in DAU D-11 which contains GMUs 21 and 30. CWD prevalence in D-11 is estimated at 2.6%, however, two adjacent DAUs (D-7 and D-41) are above the 5% threshold. Adding a fourth rifle season in GMU 30 may reduce some of the hunter crowding complaints by redistributing some deer licenses from second and third season into fourth season while helping to suppress CWD in the area.

- **Creating a list B, private land only (PLO), antlerless whitetail season in Game Management Units 6, 16, 17, 161, and 171 from December 1 through December 31**

During the late fall and winter months, whitetails congregate on private land in areas in and around Walden. In recent years, there has been an increase in vehicle collisions and damage to residential landscaping and agricultural crops from whitetails. In addition, results from mandatory CWD testing on harvested deer in DAU D3, containing the GMUs 6, 16, 17, 161, and 171, show the CWD prevalence of approximately 10% triggering management action. Discussions with residents indicate that Walden area landowners are willing to grant private access for whitetail harvest, especially for youth hunters. Due to the landowners' willingness to grant youth hunters access these PLO licenses will have a youth preference of 50%.

- **Adding early season doe hunt codes in Game Management Units 54, 55, and 551**

The Gunnison Basin deer populations in D21, and D22, which contain GMUs 54, 55, and 551, have seen recent increases. Currently, doe hunt codes are available for the second and third rifle seasons only. The main drawback to this is that the overall experience to other hunters can be reduced as doe tag allocation numbers increase. In addition, the second and third season rifle doe tags appear to be primarily used by public land hunters. However, deer numbers on private lands have perhaps grown at an even higher growth rate than on public lands. Therefore, the current second and third rifle season doe tags do little to nothing to curb the deer population's private land utilization habits. The addition of early season doe hunt codes for private-land only as well as additional early season archery and muzzleloader doe hunt codes, will help release some hunting pressures on public lands during the second and third rifle seasons and target a growing number of private land refuting deer.

- **Expanding DE411P6R to include portions of Game Management Units 52 and 521 and changing the hunt code to DE052P6R**

The hunt code DE411P6R was implemented with the 2020 hunting season in response to documented CWD positive deer in the southern portion of GMU 411 in 2018. This early season either-sex hunt code was designed with a small sub-GMU boundary and early season dates to focus harvest on resident, non-migratory deer in the agricultural lands in the valley bottom. After mandatory sampling in 2020 and 2021, results show a CWD prevalence rate of 7% in D-51, containing GMUs 52, 411, and 521. The harvest locations of CWD positive deer in D-51 still show a pattern of being located in areas that are mostly lower in elevation, primarily on private land, and where irrigated agriculture is the predominant land use. Expanding the hunt code to include portions of GMU 52 and 521 will allow for increased harvest of bucks in the CWD prevalent areas which is beneficial as bucks tend to have higher rates of CWD infection than does.

- **Modifying the hunt code DM951P7R to be a general private land only antlered license**

Since 2019 there has been high Chronic Wasting Disease (CWD) prevalence in mule deer along the western portions of the South Platte River Corridor in northeast Colorado. The CWD prevalence rate for GMU 951 is estimated at 25% triggering management actions according to Colorado's Statewide Chronic Wasting Disease Response Plans. Recently the number of mule deer in this area has significantly decreased while the population of white-tailed deer has continued to expand across most of the area. Modifying the hunt code will allow hunters to hunt the larger population of white-tailed deer in addition to mule deer in this area. The additional buck harvest will also help achieve CWD management goals within this subunit.

- **Removing the private land only designation from all mule deer and pronghorn licenses in Game Management Unit 83**

For many years, CPW has designated the elk, deer, and pronghorn licenses in GMU 83 as PLO (Private Land Only) licenses because of the unit's lack of public land hunting opportunities. However, CPW recently partnered with Costilla County to manage over 17,000 acres as a State Wildlife Area (San Luis Hills SWA). The partnership provides a unique opportunity in GMU 83 for hunters to access public land to hunt. Previously, the PLO designation was removed on all elk licenses valid in GMU 83, however, the PLO designation for mule deer and pronghorn licenses were missed at that time. Removing the PLO designation now will remedy that oversight.

- **Adding hunt codes for either-sex deer, doe, and cow elk valid only on Centennial Cone Open Space in Game Management Unit 38**

Centennial Cone Open Space is a Jefferson County Open Space property that has allowed hunting for deer and elk since the early 2000s. The current lottery process is time consuming and expensive for both CPW and Jefferson County. Jefferson County is a strong partner with CPW and by adopting these new hunt codes and eliminating the lottery the administrative burdens will be reduced for both agencies.

Elk

- **Splitting Data Analysis Unit E-10 cow elk hunt codes in Game Management Units 21, 22, 30, 31, and 32**

The way the hunt codes are currently split do not allow managers to manage the distribution of hunters between the northern GMUs (21, 22) and the southern GMUS (30, 31, 32) which have vastly different distributions of public land access and hunter densities. Modifying the cow elk licenses in the third and fourth rifle seasons in E-10 by splitting them into northern (GMUs 21, 22) and southern (GMUs 30, 31, 32) licenses will allow for improved management.

- **Restoring Game Management Unit-specific cow rifle licenses for 2nd, 3rd, and 4th seasons in Data Analysis Unit E-16 and the extended private land only cow season in Game Management Unit 444**

In 2019, all of the cow rifle hunt codes in E-16 were compressed into a single hunt code per season for the entire DAU allowing cow licenses to be severely decreased. In the last few years, E-16's elk population has been growing within the current objective range, however, there are observed geographic differences in elk population recovery. The GMUs in the Roaring Fork Valley are maintaining higher numbers while elk numbers in the GMUs in the Eagle River Valley continue to be stagnant. At the same time, some private ranches in GMU 444 have been seeing more elk inhabiting their properties year-round. Restoring the GMU-specific cow rifle licenses and the extended private land only cow season in GMU 444 will allow for specialized management of elk in these areas.

- **Limiting archery elk licenses in Data Analysis Unit E-14**

A significant increase in archery season participation in E-14 over the last several decades has contributed to hunter crowding, diminished hunter experience and success rates, and perpetuated elk distribution issues between public and private lands. CPW staff do not believe these trends are sustainable, and as a result, limited either-sex archery licenses will be created for GMUs 41, 42, and 421, and GMUs 52 and 411, and GMU 521. These changes will allow managers to more prescriptively control and distribute archery hunters across E-14. In order to provide a high level of management discretion on private lands, existing over the counter either-sex archery licenses and over the counter antlerless archery licenses will continue to be valid on private lands only in GMUs 41, 42, 52, 411, 421, and 521.

Pronghorn

- **Creating private land only hunt codes in Data Analysis Unit PH-5**

Between 2019 and 2021, CPW enrolled 140,000+ acres of State Land Board properties into the Public Access Program (PAP) in GMUs 125 and 126. With the opening of public land staff has noted that hunters are now concentrating in the PAP properties. By creating private land only hunt codes in PH-5 staff will be able to manage the disproportionate amount of pronghorn harvest that has occurred on the recently opened public lands.

Moose

- **Adding bull and cow moose hunting codes in Game Management Units 33 and 34**

Moose sightings in these GMUs have been increasing over the past few years, likely due to expanding moose numbers in adjacent GMUs. There are now enough moose in these GMUs to provide limited hunting opportunities to allow for proactive management of the moose population to avoid moose-human conflicts in this area.

- **Adding cow moose hunt codes in Game Management Units 44 and 45**

Recently moose numbers and moose-human conflicts have continued to grow in these two units. There have been a number of moose road kills and various other incidents that have put both moose and people at risk of severe injury in recent years. Opening these two units for cow moose hunt codes will provide additional management opportunities to manage the moose population in these units.

- **Replacing the hunt codes for cow (MF047O1X) and bull (MM047O1X) moose in Game Management Unit 47 to create four separate hunt codes in Game Management Units 47, 444, and 471**

Hunt codes MF047 and MM047 currently include GMUs 47, 444, and 471. Staff assumed the licenses offered would be used across the units, but all harvest in 2021 occurred in one portion of a single drainage on the boundary between GMUs 47 and 444. Staff expects the pressure in this drainage will continue. Therefore, new hunt codes will be created to redistribute hunters. These new hunt codes will also allow for better management of moose in other portions of these GMUs that have higher incidents of moose-human conflicts.

Sheep

- **Adding a bighorn sheep ewe hunt code to Data Analysis Unit S-36**

While the population size of the bighorn sheep herd in S-36 is not large for ungulate populations, the traditional areas used by the herd are relatively small resulting in high densities. In the past, this herd has been affected by respiratory disease. Establishing a conservative ewe harvest for this herd may reduce intraspecific competition, increase juvenile survival, lower age at first reproduction, provide hunter opportunity, increase hunter-attained herd information, encourage the use of new habitats and dispersal, and possibly reduce the risk and severity of future disease outbreaks.

- **Revising the Bighorn Sheep Access Program Option C**

The revisions to the bighorn sheep access program aim to clarify the intent of the program by clarifying the terms of an initial cooperative agreement that does not include hunting and the number of hunts that will take place during the 10 years once hunting commences.

Goat

- **Re-opening either-sex mountain goat hunt code GEG18O1R in Game Management Unit G18**

After surveying G18 during the summer of 2022, there are now sufficient numbers of mountain goats in this unit to resume mountain goat harvest. The mountain goats in this unit will be managed for a low population size to maintain alpine habitat quality and to avoid issues of habitat and forage competition between native bighorn sheep and non-native mountain goats. The low population objective will also align with the management objectives of neighboring unit G17.

F. Special Licenses for Nuisance Turkeys

1. The Director shall have the authority to establish special hunting seasons for turkeys, between December 1 and March 31 on an annual basis, when necessary to control nuisance turkeys. The Area Wildlife Manager will determine the type of license(s) (either-sex or hen only) most appropriate to control the conflict.
 - a. Nuisance turkey hunts are limited to a maximum of 50 licenses per landowner, per year.

1. The Area Wildlife Manager shall provide the landowner with special application forms for distribution to individuals of their choice. Participants shall submit the completed application form with payment to the Division office indicated on the application. Nuisance turkey licenses shall be sold at the fall season license price.
- b. Prior to approving the hunt, the Division shall:
1. Verify that conflicts are occurring.
 2. Designate what area shall be open to hunting.
 3. Determine the manner of hunting that will be permitted.
 4. Determine the number of hunters allowed to hunt in each designated area.
- c. Hunting will be done under the direction of a District Wildlife Manager, following approval by the owner of land where such conflict is occurring.
- d. Hunters shall hunt in designated areas and on the dates indicated on the license.
1. A map or a written description of the designated area open to hunting (which would include, but would not be limited to landowner(s) name, game management unit, township, range and section(s) and/or identification of landmarks such as roads, rivers, or fence lines which coincide with boundaries), will be provided to each licensed hunter by the Division.
- e. Any person who purchases a license for a nuisance turkey season shall be required to complete a Division harvest survey form and return it to the Area office that is nearest the location of the hunt no later than 5 days after the season ends.

Basis and Purpose:

Revising the definition of a novice hunter

Revising the definition of a novice hunter keeps the definition of a novice turkey hunter the same as the definition of a novice big game hunter.
