TO: Members of the Colorado Parks and Wildlife Commission  
FROM: Hilary Hernandez, Regulations Manager  
RE: Chapter W-3 Final Regulations for the March 2023 Parks and Wildlife Commission Meeting  
DATE: March 3, 2023

Final regulatory changes for Chapter W-3 are summarized below. If there are questions about the agenda item below, or if additional information is needed, please feel free to contact me at [hilary.hernandez@state.co.us](mailto:hilary.hernandez@state.co.us).

### **Agenda Item 11: Chapter W-3 - “Furbearers and Small Game, except Migratory Birds” 2 CCR 406-3**

These regulations amend the date structure for the 2023 hunting seasons for game birds (except migratory birds and turkeys), and all other species considered small game in Colorado, and are the result of an annual review. These regulations are necessary to provide small game hunting opportunity and properly manage small game wildlife in Colorado. Small game populations are managed primarily for hunting and wildlife watching opportunities, and to prevent or minimize damage to private property.

#### **Modifying the Harvest Information Program (HIP) to no longer require sportspersons only pursuing furbearers to register with the HIP**

Historically furbearer harvest was determined from the HIP until recently when the furbearer harvest permit was added. Using the permit information with the furbearer license purchase information CPW was able to generate a smaller and more appropriate furharvester sample pool than previously generated by the HIP. Results from the 2021-2022 Furbearer Harvest Survey show that this new approach to sampling and defining the pool of furharvesters is much more precise than using the results of several HIP questions. Therefore, there is no need or use for the furbearer species questions on the HIP survey. Removing those questions and the requirement that furharvesters register with HIP will reduce the length and complexity of the HIP survey, which has been a long-standing goal of CPW, improve data quality for the remaining HIP survey questions, and improve the customer experience for those small game hunters that still must complete the HIP survey.

Hunters that are exclusively pursuing coyotes will still be required to register for the HIP, as coyote harvest will continue to be estimated from the small game survey. Coyote Harvest is estimated from the small game survey because hunters that are exclusively pursuing coyotes may do so using a small game license without having to also purchase the Furbearer Harvest Permit.

#### **Creating a white-tailed ptarmigan, greater sage-grouse, and Columbian sharp-tailed grouse permit required in addition to a small game license, to take these species**

Currently, the annual harvest of white-tailed ptarmigan (WTPT), greater sage-grouse (GRSG), and Columbian sharp-tailed grouse (CSTG) are generated through the Harvest Information Program (HIP). This system works well for some species, but unfortunately for species relatively fewer hunters pursue,

such as these three, the process results in poor harvest data estimates. To improve the management of these three species, CPW will create a WTPT, GRSG, CSTG permit that hunters will need to purchase in addition to their small game license prior to hunting these species. The sale of this permit will allow CPW to more easily identify GRSG, CSTG, and WTPT hunters from within the huge number of small game license buyers and HIP registrants, resulting in higher quality harvest survey data for managers and increased survey efficiency for CPW.

**FINAL REGULATIONS - CHAPTER W-3 - FURBEARERS AND SMALL GAME, EXCEPT MIGRATORY BIRDS**

**CHAPTER W-3 - FURBEARERS and SMALL GAME, EXCEPT MIGRATORY BIRDS**

Beginning with the 2023 sage-grouse, sharp-tailed grouse and ptarmigan hunting seasons,

1. The Director shall have the authority to establish special hunting seasons for turkeys, between December 1 and March 31 on an annual basis, when necessary to control nuisance turkeys.   - a. Nuisance turkey hunts are limited to a maximum of 50 licenses per landowner, per year.
    1. The Area Wildlife Manager shall provide the landowner with special application forms for distribution to individuals of their choice. Participants shall submit the completed application form with payment to the Division office indicated on the application. Nuisance turkey licenses shall be sold at the fall season license price.
  - b. Prior to approving the hunt, the Division shall:
    1. Verify that conflicts are occurring.
    2. Designate what area shall be open to hunting.
    3. Determine the manner of hunting that will be permitted.

4. Determine the number of hunters allowed to hunt in each designated area.
- c. Hunting will be done under the direction of a District Wildlife Manager, following approval by the owner of land where such conflict is occurring.
- d. Hunters shall hunt in designated areas and on the dates indicated on the license.
  1. A map or a written description of the designated area open to hunting (which would include, but would not be limited to landowner(s) name, game management unit, township, range and section(s) and/or identification of landmarks such as roads, rivers, or fence lines which coincide with boundaries), will be provided to each licensed hunter by the Division.
- e. Any person who purchases a license for a nuisance turkey season shall be required to complete a Division harvest survey form and return it to the Area office that is nearest the location of the hunt no later than 5 days after the season ends.

#### **#322.5 - RANCHING FOR WILDLIFE – TURKEY**

##### **A. Implementation Authority**

1. The Director is authorized to implement the Ranching for Wildlife program, including the authority to determine ranch enrollment status, enter into cooperative agreements with ranches, establish and modify public and private season dates on each ranch, and establish and modify license allocations to each ranch including the subsequent distribution of licenses to the public and private share annually, and may establish additional Ranching for Wildlife operating guidelines subject to the following provisions.

##### **B. Ranch Entry and Maintenance**

1. Ranches must have a minimum of 10,000 acres of privately owned land in one contiguous unit. Ranches that meet this 10,000-acre minimum requirement may include privately owned non-contiguous parcels in the program if the Director determines that their inclusion will contribute to meeting the performance standards for the ranch.
2. Ranches must develop a Ranching for Wildlife Management Plan that includes goals, objectives, and strategies for achieving such goals and objectives for wildlife habitat management, species management, and public hunting management. The Management Plan must be approved by the Division prior to execution of a Cooperative Agreement for Ranching for Wildlife.
3. Ranches may not charge public hunters an access fee for hunting.
4. Except as agreed to in writing by the Division when necessary to meet the ranch performance standards or as mutually agreed and contained in the Management Plan, ranches must provide for equality of access in terms of geographical area and mode of transportation for both public and private hunters. No closure or restriction of land or roads shall apply to public hunters that do not also apply to private hunters.
5. Public hunts must be established at a time when the species to be hunted are present and available for harvest. No public seasons shall be established during times when normal winter conditions would prevent access to most of the ranch, nor when normal migration patterns of the species to be hunted result in the species having migrated off the ranch.

6. Ranches that establish coinciding or overlapping public and private hunts may not exclude public hunters from any portion of the ranch due to the presence of private hunters.
  7. The ranch and the Division will mutually agree to ranch rules regarding access to and hunting on the ranch by public hunters. The ranch rules will be provided to hunters prior to seasons on the ranch in accordance with other provisions contained in this regulation.
- C. Cooperative Agreements, Enrollment, Denial of Enrollment, Termination of Enrollment
1. The Division is authorized to enter into Cooperative Agreements with ranches.
  2. Ranches may appeal enrollment decisions to the Parks and Wildlife Commission.
  3. Cooperative Agreements shall incorporate approved Ranching for Wildlife Management Plans as part of the Cooperative Agreement.
  4. The Division shall periodically evaluate ranches for enrollment and contract performance, and shall establish minimum performance standards for ranches enrolled in the program, including wildlife habitat management and improvement, public recreation opportunity and experience, and any factors intended to contribute to meeting turkey management objectives. Such performance standards shall be incorporated into the Cooperative Agreement with the ranch.
- D. Turkey Season Structures
1. Public and private spring season opening and closing date parameters.
    - a. Private seasons may not begin before April 1, nor extend beyond June 1.
    - b. Public seasons may only be established within the opening and closing dates of the regularly established spring season.
    - c. Public hunting seasons shall be a minimum of ten (10) consecutive days.
  2. Public and private fall season opening and closing date parameters.
    - a. Public and private seasons may not begin before September 1, nor extend beyond November 1.
    - b. Public hunting seasons shall be a minimum of ten (10) consecutive days.
  3. Manner of Take
    - a. The manner of take for spring or fall RFW turkey seasons shall be the same as that for regularly established spring or fall seasons.
- E. License Allocation
1. A maximum of 100 bearded turkey licenses in the spring season and 100 either-sex turkey licenses in the fall season may be allocated to each ranch annually, and subsequently distributed to the public and private share according to paragraph b of this regulation.
  2. The public shall receive a minimum of forty percent (40%) of the total number of licenses allocated for each turkey season on each ranch.
  3. License allocation for each ranch shall be approved by the Division and recommended to the Director, based upon harvest objectives for the ranch jointly determined by the Division and the ranch, hunter crowding, enhancement of hunter harvest, and relative densities of the species on the ranch.

4. Substitution of licenses of one species or sex for licenses of another species or sex shall not be permitted.
5. Landowner preference shall not be used for any public or private Ranching for Wildlife license.

#### F. Youth Licenses

1. The Division and the ranch may formulate and implement youth hunting opportunities on any ranch through Division approved youth hunting programs. The Division must approve the youth hunting program on the ranch prior to any season or license allocation for such youth hunts.
2. A maximum of 15% of the total number of turkey licenses allocated for a ranch may be allocated as youth hunting licenses on each ranch, over and above the total number of licenses allocated for a ranch.
3. Youth hunting seasons may occur at any time within the broad parameters for seasons within the Ranching for Wildlife program.
4. Youth licenses shall be distributed to individual youth hunters by mechanisms of the approved youth hunting program on the ranch. Youth licenses shall not count as either private or public licenses for purposes of calculating the relative share of other licenses allocated for the ranch.

#### G. License Distribution

1. Applications
  - a. Applications for private hunter licenses stamped with the ranch name and season dates shall be available to the landowner for distribution.
  - b. Public hunter licenses shall be available through application and selection from the Division during the annual limited license drawing process, except as provided in this regulation.

#### H. Special Restrictions

1. Unless otherwise provided in these Ranching for Wildlife regulations all hunters must comply with other applicable regulations, including, but not limited to, manner of take (except that private hunters may use any legal weapon during private seasons), hunting hours, application requirements and deadlines, bag limits, season participation, mandatory checks, OHV restrictions, and other generally applicable regulations for big game hunting.
2. A copy of the mutually agreed upon ranch rules will be provided to all public hunters prior to their hunting season. All public hunters will be required to sign a statement acknowledging that they have read, understand, and agree to comply with all ranch rules, before the hunter is allowed access to the ranch.
  - a. Compliance with ranch rules is a specific condition of the Ranching for Wildlife public licenses and subsequent access to the ranch. In addition to criminal penalties, non-compliance with ranch rules constitutes grounds for suspension and revocation of the license and/or being prohibited from further participation in hunting on the ranch, and/or in the Ranching for Wildlife program as a public hunter.
  - b. Final determination on any legal action taken towards hunters found in non-compliance with ranch rules shall be made solely by officers of the Division. This includes any citation that may be issued for non-compliance with the provisions of a

license, or directing a hunter to leave a ranch. Ranch personnel may not direct a hunter to leave a ranch without specific authorization of a Division officer.

**Basis and Purpose:**

These regulations amend the date structure for the 2023 hunting seasons for game birds (except migratory birds and turkeys), and all other species considered small game in Colorado, and are the result of an annual review. These regulations are necessary to provide small game hunting opportunity and properly manage small game wildlife in Colorado. Small game populations are managed primarily for hunting and wildlife watching opportunities, and to prevent or minimize damage to private property.

**Modifying the Harvest Information Program (HIP) to no longer require sportspersons only pursuing furbearers to register with the HIP**

Historically furbearer harvest was determined from the HIP until recently when the furbearer harvest permit was added. Using the permit information with the furbearer license purchase information CPW was able to generate a smaller and more appropriate furharvester sample pool than previously generated by the HIP. Results from the 2021-2022 Furbearer Harvest Survey show that this new approach to sampling and defining the pool of furharvesters is much more precise than using the results of several HIP questions. Therefore, there is no need or use for the furbearer species questions on the HIP survey. Removing those questions and the requirement that furharvesters register with HIP will reduce the length and complexity of the HIP survey, which has been a long-standing goal of CPW, improve data quality for the remaining HIP survey questions, and improve the customer experience for those small game hunters that still must complete the HIP survey.

Hunters that are exclusively pursuing coyotes will still be required to register for the HIP, as coyote harvest will continue to be estimated from the small game survey. Coyote Harvest is estimated from the small game survey because hunters that are exclusively pursuing coyotes may do so using a small game license without having to also purchase the Furbearer Harvest Permit.

**Creating a white-tailed ptarmigan, greater sage-grouse, and Columbian sharp-tailed grouse permit required in addition to a small game license, to take these species**

Currently, the annual harvest of white-tailed ptarmigan (WTPT), greater sage-grouse (GRSG), and Columbian sharp-tailed grouse (CSTG) are generated through the Harvest Information Program (HIP). This system works well for some species, but unfortunately for species relatively fewer hunters pursue, such as these three, the process results in poor harvest data estimates. To improve the management of these three species, CPW will create a WTPT, GRSG, CSTG permit that hunters will need to purchase in addition to their small game license prior to hunting these species. The sale of this permit will allow CPW to more easily identify GRSG, CSTG, and WTPT hunters from within the huge number of small game license buyers and HIP registrants, resulting in higher quality harvest survey data for managers and increased survey efficiency for CPW.
