Evaluating and Addressing Wildlife Concerns

Grants are reviewed and evaluated by CPW wildlife managers on an individual project and larger landscape level base on:

- Special Status Species
- Habitats and their Values
- Wildlife Impacts
- Environmental Compliance
- Education/Interpretation
- Recommended Design Features and Mitigation

Regional wildlife summaries are brought to the Trails Program, the grant review subcommittees, and the State Trails Committee. Wildlife concerns are brought up for review and discussion to the review subcommittees and input is provided from CPW staff and the Wildlife Liaison. Applicants are asked to addressing any concerns during their presentation.
