Budget Report

The budget report was reviewed.

Old Business

The minutes from August, October and November were approved.

New Business

John Stroh discussed the idea of hosting Habitat Workshops throughout the region. These have been done in the past and were very successful. The committee felt that with all of the new residents in the area this would greatly benefit our relationships and bring awareness to habitat restoration, game damage, etc. The committee would be able to collaborate with other agencies for funding in order to pay for the workshops and provide lunch. The attendees would not be charged to attend which helps encourage residents to attend. The committee is in support of this idea and would like to research further options to discuss at an upcoming meeting.

Remaining Committee Business/Other Discussion

Materials Order - Tire Tanks

The committee will need to purchase tire tanks for inventory and upcoming projects. The 10' size is preferred, however they are willing to work with the 8'. Additionally, wildlife escape ramps will have to be purchased for each tank, there are local FFA chapters that have built these in the past and the committee would like to have them participate again.

This project was approved for up to \$10,000 to purchase tire tanks and wildlife escape ramps.

Memorial - Mike Trujillo

The committee discussed different options to honor Mike and his work with HPP. Glenda Torres is working to get into contact with a local school that has welding capabilities. This would be paid for using personal contributions from those that choose to donate.

The meeting was adjourned at 11:20 AM

The next meeting will be held on: TBD
