

Jackson Lake State Park

COLORADO PARKS & WILDLIFE

Ice Fishing & Safety at Jackson Lake State Park

General Information

- Jackson Lake is closed to boating from November 1 through the time that ice comes off in the spring.
- Ice Fishing will be permitted during the migratory waterfowl season in two designated areas of the reservoir: near the State Park's boat ramp and the outlet house (see map on reverse side).
- After the last day of regular goose season, ice fishing is permitted anywhere on the reservoir.
- Fishing (including ice fishing) is permitted on the inlet and outlet canals year-round.

Ice Fishing Regulations

- Portable ice fishing structures are permitted but must be removed from ice at the end of the day.
- All open fires on the ice must be contained within a metal grill or container.
- No litter, including fish entrails, may be left on the ice (please use trash containers).
- Ice fishing holes may not exceed 10" in diameter or 10" on a side.
- Chumming is prohibited year-round on all Colorado waters.

Ice Safety Tips

- Always have a life jacket available.
- Never go out on the ice alone.
- Tell someone where you are going and when you plan to return.
- Ice conditions vary considerable across the reservoir and from day to day. Check with park personnel for the current conditions.
- Pick up a copy of "Ice Safety" at the entrance or park office for more information.
